NURS 3303  
Pathophysiology of Acute Care

Fall 2015

Instructor: Lee Johnson, MSN, RN  
Office: BRB 2050 Office Hours: Monday 0800 - 1200  
Phone: (903)565-5951  
Email: ljohnson@uttyler.edu

Tyler Sections

THURSDAY Section 001 0800 – 1045 BRB 1025  
THURSDAY Section 002 1100 – 1345 BRB 1025

** The content of this syllabus and course WEB site is subject to change at the discretion of the faculty leaders according to current learning needs.**
COURSE TITLE
NURS 3303: Pathophysiology of Acute Care

SEMESTER CREDIT HOURS
Three (3) hours didactic

PREREQUISITES
Successful completion of Anatomy and Physiology 1 & 2, Microbiology, and Chemistry is required. These courses must be taken ≥1 semester prior to admission to the College of Nursing program. They may be taken concurrently with NURS 3205: Nursing Concepts and Theories.

COURSE DESCRIPTION
This course focuses on the etiology, symptomatology and pathology of selected human diseases across the lifespan. Concepts of health promotion, disease prevention, disease progression, and treatment are approached from a cellular and multi-system perspective. Influences of genetic, ethnic, and cultural variables on human diseases is analyzed. Content aims at stimulating critical thinking.

COURSE OBJECTIVES
Upon successful completion of the course, students will have demonstrated the ability to:
1. Integrate knowledge from the biological sciences into the study of the pathophysiology of human diseases.
2. Compare the pathologic origins of selected disease processes at the cellular and systemic levels.
3. Correlate the effects of internal and external environmental risk factors with disease development and progression.
4. Discuss the influence of genetic, ethnic and cultural factors on health promotion and disease prevention, progression and treatment.
5. Explain the effects of compensatory body mechanisms in response to major alterations in physiology.
6. Relate diagnostic test findings to both objective and subjective disease symptoms.
7. Employ select nursing and biomedical research studies in the application of pathophysiologic principles to nursing practice.
8. Discuss the impact of the current body of knowledge in pathophysiology on evidence-based nursing practice.

REQUIRED MATERIAL/TEXTS

SYLLABUS: NURS 3303: Pathophysiology of Acute Care; Fall 2015—located in Blackboard under Course Information
Course Schedules: located in Blackboard under Course Information for each section/class day

REQUIRED TEXTBOOK:

RECOMMENDED:
<table>
<thead>

### CLASS PREPARATION/BLACKBOARD INFORMATION

All lecture outlines, notes, objectives and supplemental materials are found under the Unit Module tabs in Blackboard. Bring lecture notes and lecture pdf files to class and be prepared for discussion. Be aware that as one topic is completed, discussion on the next topic will begin. Read assigned chapters **before lecture** to be prepared to understand the additional information presented during lecture.

Quizzes are located under the Unit Module tab immediately after the module content folder. Exam blueprints are located under Course Information, Exam Blueprint folder.

**General Policies**

These policies apply to all students of the university. Students should access and review these policies at: [http://www.uttler.edu/academicaffairs/syllabuspolicies.pdf](http://www.uttler.edu/academicaffairs/syllabuspolicies.pdf)

**American Disabilities Act Statement:**

“If you have a disability, including a learning disability, for which you request an accommodation, please contact the Disability Support Services Office so that appropriate arrangements can be made. In accordance with federal law, a student requesting accommodation must provide documentation of his/her disability to the Disability Support Services counselor.” Students should inquire about accommodations before the first exam.

**Student Affirmation, Social Media Policy—Documentation of Compliance**

All students are required to read and sign the Student Affirmation, Audio-Video Recording Agreement, and Social Media Policy statement found in the NURS 3303. Failure to submit signed forms will result in an “Incomplete” grade for the course.

**Grade Forgiveness**
If you are repeating this course for a grade replacement, you must file an intent to receive grade forgiveness with the Enrollment Services Center by the Census date in the semester in which the course will be repeated. Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. A student will receive grade forgiveness (grade replacement) for only three (undergraduate student) course repeats during their career at UT Tyler. Undergraduate/Graduate Catalog (2014-15), p.18-19.

GRADING POLICIES

1. **The simple average of exam grades before weighted calculation is performed, must be 75% (C) or above to pass the course. Grades will not be rounded when calculating the average (74.5 -74.9 is not rounded to 75).** Students with an exam average of 75 or higher will have final course grades calculated based on the weighted calculation of the exams, quizzes and other required course work.

2. Completion of NURS 3303 is based on satisfactory attainment of meeting the course objectives. Any student failing to meet the course objectives and expectations must repeat the course.

3. Students with an exam grade average of 75% or higher will have the final course grade calculated on the weighted values of all graded work. **Students who do not attain an exam grade average of 75% will not receive credit for graded quizzes, assignments, or other graded course work and the final grade will be based on the simple average of the course exams.**

4. The weighted values of course work are as follows:

<table>
<thead>
<tr>
<th>Grade Calculation</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 classroom exams—17% each</td>
<td>68%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>17%</td>
</tr>
<tr>
<td>On–line Quizzes</td>
<td>10%</td>
</tr>
<tr>
<td>Participation/Assignments</td>
<td>5%</td>
</tr>
</tbody>
</table>

Grades will be assigned according to the following scale in accordance with UTT School of Nursing Policy:

- A 90 -100
- B 80-89
- C 75-79
- D 60-74
- F 60 and below

(Approved Faculty Organization: Fall 1999, implemented Spring 2000)

5. Weekly on-line quizzes will be posted on Blackboard five days prior to the due date. Each quiz will be worth 100 points. **Quizzes will be available for 1 week only.** Failure to complete the quiz within this time frame will result in 0 points for that quiz. It is recommended that the student take the quizzes on campus or on a laptop to avoid technical difficulties. The UTT IT department recommends using Firefox or Chrome browsers. Class notes and textbooks may be used for the
weekly on-line quizzes. Quizzes will be calculated into the course final grade only after a simple average of 75% is attained on exams.

6. Individual assignments will be posted on Blackboard. Assignments are due on the date designated. Late submissions will not be accepted. Participation and assignment grades will be calculated into the course final grade only after a simple average of 75% is attained on course exams.

EXAMINATION AND EXAMINATION REVIEW POLICY

1. Exam blueprints will be available a minimum of three days prior to each exam.

2. Attendance for exams is mandatory. If absence for an exam is necessary, the student is responsible for notifying the faculty prior to the exam with an acceptable reason.

3. No students will be allowed entry into the classroom after the exam has started unless prior notification and arrangements have been made with the faculty.

4. All exams will be administered using ExamSoft software in the UTT School of Nursing Computer Lab.

5. Students will be able to review exam responses, the correct response and rationale immediately after completing the exam in ExamSoft.

6. All hats/caps must be removed during exam time. All personal items such as purses, books, backpacks, notebooks and briefcases will be left in the front or back of the room during testing. Cell phones must be turned off. Cell phones will be left in backpacks or purse at the front of the classroom.

7. Silence will be enforced in the classroom before and during testing. No one will be permitted to leave the room during the testing time.

8. Students will be required to remain in the computer lab until all students have completed the exam.

9. Make-up exams will only be given at the discretion of the faculty member and may be in a different format than the original exam.

10. Students are allowed to review the correct response to exam items answered incorrectly immediately upon completion of the exam using ExamSoft. An individual exam review with faculty may be scheduled with the faculty during office hours and within 10 school days from the return of grades.

11. Students who score below 75 on an exam are encouraged to schedule a coaching appointment with the faculty member on that campus within 1 week after grades are posted.
Testing Policy
Test integrity is a very important part of the nursing program to assess student knowledge, retention and preparation for the NCLEX and practice. Excessive student absences on test days threaten test integrity. The following process for course examinations will be followed within each nursing course.

1. Students who miss two or more exams will be required to provide a written statement from their physician. (Students with significant extenuating circumstances are encouraged to communicate with the course faculty member at least 24 business hours before the exam.)
2. Make up exam dates and times are at the discretion of the faculty.
3. Students are responsible for monitoring and acknowledging email from faculty regarding makeup date, time and location details. (I didn’t see the email is not an excuse.)
4. If a student does not show up for a make-up exam on the designated date and time, the student will receive a zero on the exam.

EXPECTATIONS OF STUDENTS IN NURS 3303
1. Understanding of anatomy and physiology is presumed. If a student requires review of basic anatomy and physiology, independent reading is expected. Study guides will focus on terms and anatomy and physiology of the system under study.
2. Students are expected to have read assigned materials prior to class time and prepared for interactive discussion based on the learning objectives.
3. Students will be assigned to a group for purposes of the Group Presentation at the discretion of faculty. Each member of the group will receive the same grade for the assignment.
4. Participation in classroom learning activities will focus on application of concepts presented in the required reading.
5. Students are responsible for all course assignments and content, including announcements posted in Blackboard.
6. Lecture outlines will be posted on Blackboard under “Course Materials” a minimum of two (2) working days prior to class. The majority of the outlines will be available at the beginning of the semester. Students are encouraged to print these materials weekly.
7. All submitted written material (papers, assignments, examinations, etc.) are the property of the UTT School of Nursing. They will be maintained in an archived file at the UTT School of Nursing for 1 semester after the course grade is assigned.

ACADEMIC INTEGRITY
1. Students are expected to assume full responsibility for the content and integrity of all academic work submitted as homework and examinations.
2. Students are advised to review the UT Tyler Academic Dishonesty Policy and Academic Integrity Policy in the current School of Nursing Student Handbook and Academic Integrity Policy for UT Tyler students in the Student Guide. These policies are fully endorsed and enforced by the faculty members within the School of Nursing.
3. Plagiarism, cheating and collusion are unacceptable, and, if found violating any of these standards, the student will be disciplined accordingly.
4. The School of Nursing reserves the right to dismiss students from the program for any infraction of a legal, moral, social, or safety nature, pursuant to the procedures detailed in the Regent’s Rules.
Student Dress Code for the University of Texas, College of Nursing:

General: It is the philosophy of the School of Nursing that the student has a responsibility to be neatly groomed and modestly dressed. Appearances should promote good health, safety and general well-being of the student. Clothing should avoid brevity and/or design that are offensive to the dignity and rights of others. School officials have the right and responsibility to counsel with the student or take any other corrective action. Types of clothing (other than those specified in this document) may be worn at the direction of the nursing instructor for special events.

Classroom: Casual or every day business wear is recommended. This includes but is not limited to the following: Slacks or skirt; sweater, blouse, and shirt. Jeans as well as conservative shorts (mid-thigh or longer) may be worn, but avoid overly frayed or soiled. Shoes must be worn. See items to be avoided below.

Professional Presentations, Ceremonies/Graduation: Business or dressy day social: suit, dress, dressy separates, jacket, ties, nice fabrics. Dress shoes. Avoid denim, jeans, t-shirt or other casual clothes. For workshops/seminars attended by students, business attire will be worn.

Items to be avoided in all School-related Functions (including but not limited to): Overly frayed, worn or soiled garments. Costume look, transparent blouses, bare midriff shirts, tank tops, spaghetti straps, muscle shirts, overtly sexual, gang colors or logos, facial or body piercing, obscene slogans or pictures, bedroom wear, short-shorts, short skirts, or clothing that may be offensive to others.

If the dress code rules are broken and a change of clothes is not available, the student may be removed from the school-related function for the remainder of the day. Appropriate disciplinary action will be taken for repeated violations of this code.

Module Objectives:

** Follow the Course Schedule for quiz and assignment due dates

Cell Biology Review

### Inflammation, Healing and Infection

#### Module 2 Objectives

1. Explain the role of normal defenses in preventing disease.
2. Describe the chemical and cellular responses to injury.
3. Discuss normal capillary exchange and this exchange during the inflammatory response.
4. Describe the local and systemic effects of inflammation.
5. Describe the types of healing and complications of each.

#### Outline

1. Normal Defenses
2. Inflammatory Process
   a. Chemical mediators
   b. Cellular responses
   c. Capillary responses
   d. Signs and Symptoms
      1. local
      2. systemic
3. Healing
   a. Types
   b. Process
   c. Scar tissue
      1. function
      2. complications
4. Infection

#### Preparation and Evaluation

READ: VanMeter, Chapter 5, 6

Assignment: Quiz 2

Evaluation: Exam 1

### Congenital and Genetic Disorders

#### Module 3 Objectives

1. Describe the interrelationships of DNA, RNA and proteins.
2. Discuss prediction of inheritance.
3. Describe and cite examples of chromosomal disorders.
4. Describe and cite examples of single-gene disorders.
5. Discuss the Human Genome Project and possible impacts on health care.

#### Outline

1) Genetic Building Blocks
   a) DNA
   b) Chromosomes
   c) Genes
2) Principles of predication
   a) Autosomal dominant
   b) Autosomal recessive
   c) X-linked
3) Chromosomal abnormality
   a) Downs syndrome
4) Gene abnormality
   a) Duchenne’s Muscular

#### Preparation and Evaluation

**Student Affirmation Form**

I agree to protect the privacy of faculty, peers, patients, and family members of patients by not inappropriately disclosing confidential information about faculty, peers, patients or their family members that is disclosed to me in my capacity as a University of Texas at Tyler nursing student. In addition, I agree not to inappropriately disclose confidential information about any agency or institution that is disclosed to me in my capacity as a University of Texas at Tyler nursing student. I will adhere to HIPAA guidelines.

I have/will read the syllabus of this nursing course I am taking this semester, and I understand the criteria established for grading my course work. I understand that my average on exams must be 75 or higher in order to attain a passing grade for the course.
_____ I agree that I will conduct myself in a manner that exhibits professional values and in accordance with the American Nurses Association (ANA) Code of Ethics for Nurses, the Texas Nurse Practice Act and UTT's Student Academic Dishonesty Policy.

_____ I will maintain and uphold the academic integrity policy of the College of Nursing and will not condone or participate in any activities of academic dishonesty including, but not limited to, plagiarism, cheating, stealing, or copying another’s assigned work.

_____ I will not recreate any items or portions of any exam for my own use, or for use by others during my enrollment in the College of Nursing.

_____ I will not accept or access any unauthorized information related to any exam administered during my enrollment in the College of Nursing.

_____ I will sign only my own papers and other documents and will not sign any other student's name to anything, including class rolls.

_____ I will not allow any other student access to any of my paperwork for the purpose of copying.

Revised: May 2004, Summer 2005

Social Networking Policy

Online social networking mediums, such as Facebook® and MySpace®, etc. may be effective modalities for students to connect in positive ways. However, students must be aware of, and, sensitive to, the information and pictures they post (of themselves and others).

The purpose of this policy is to outline the privacy and confidentiality issues related to students’ postings to ensure safeguarding of The University of Texas at Tyler (U.T. Tyler), College of Nursing’s identity, integrity and overall reputation, in an effort to prevent violations of confidentiality and privacy.
Social Networking (definition) – Any activity that involves interaction with other individuals/users in an online environment, i.e., Facebook®, Twitter®, MySpace®, Flicker®, Friendstar®, Classmates.com®, LinkedIn®, Xanga®, Bebo®, etc. (http://en.wikipedia.org/wiki/List_of_social_networking_websites). In addition, the use of other electronic devices to record pictures, images, and other information or data that may be stored, reviewed, or shared with others either immediately or at a future date are considered social networking.

For purposes of this policy, this interaction includes, but is not limited to, browsing other users’ profiles/personalized web pages, browsing other users’ photos, reading messages sent through social networking forums, and engaging in online messaging services, such as instant messaging or email that is in any way related to U.T. Tyler or the College of Nursing or activities conducted while in attendance at the University. The following provides guidance as to what type of behavior is inappropriate relative to online social networking. These guidelines are not all inclusive; rather, they are intended to be used as a foundation for sound decision making.

Students are encouraged to refer to the following which was prepared by the National Council of State Boards of Nursing (NCSBN): Professional Boundaries: A Nurse’s Guide to the Importance of Professional Boundaries, located at: https://www.ncsbn.org/Professional_Boundaries_2007_Wed.pdf
Confidentiality and Privacy

Violations of confidentiality include but are not limited to:

1. Photocopying patient documents, removing patient documents from the clinical site, and postings of patient information on Internet social networking sites (Facebook®, MySpace®, Twitter®, YouTube®, etc.) as well as online blogs and journals.
2. Contacting patients/patients' family members through a social networking system.
3. Photographing in any clinical setting. Taking and/or posting any picture taken within a clinical facility without written permission of the facility or patient (even if the patient's identity is not disclosed) is a breach of the Health Insurance Portability and Accountability Act (HIPPA).
4. Discussing/posting any patient information related to the clinical facility one is assigned on Internet social networking sites or in a public place.
5. Social networking, texting, email, and other recreational computer use is prohibited during class or clinical time.
6. Using U.T. Tyler, College of Nursing's name, logo, or other information in one’s personal social networking profile. Pictures of oneself should not be posted wearing U.T. Tyler nursing attire. Social networking mediums, blogs, Twitter® and Internet/electronic mail, all are considered public domain.

Failure to comply with the above guidelines will result in disciplinary action which can include dismissal from the program. Any student found in violation of the above mentioned policies and/or any policies related to conduct unbecoming a University of Texas at Tyler student, is subject to procedural disciplinary action as outlined in the U.T. Tyler Manual of Policies and Procedures for Student Affairs: Specifically Sec 8-801 and 8-804: http://www2.uttyler.edu/mopp/documents/MOPPChapter8StudentConductandDiscipline-updated011411.pdf

AUDIO/VIDEO-RECORDING AGREEMENT

I have been given permission to audio record the following class, **NURS 3303**.

I understand that, the recordings are for **my personal studies only**. I realize that lectures recorded **may not be shared** with other people without the written consent of the faculty member. I also understand that recorded lectures may not be used in any way against the faculty member, other lecturer, or students whose classroom comments are recorded as part of the class activity.

I am aware that the information contained in the recorded lectures is protected under federal copyright laws and may not be published or quoted without the expressed consent of the lecturer and without giving proper identity and credit to the lecturer. I agree to abide by these guidelines with regard to any lectures I record while enrolled as a student at The University of Texas at Tyler.

Due to the confidential nature of some course content, I agree to provide written documentation of the erasure of any recordings made during the current semester. Failure to return this written documentation to the faculty by the date of the final examination will result in a grade of “I” (Incomplete).
