The University of Texas at Tyler is offering the elective, 
Transcultural Health: Taiwan Immersion 
May 7-24, 2016 
Registration Deadline: February 1, 2016 

The course will be held at Tzu Chi University of Science & Technology (TCUST) in Hualien on the northeast coast of Taiwan. The course is offered to all students including health professions and health professional students. The course is two weeks long. Students can receive 6 elective credits, three from UT Tyler, and three from TCUST. The three credits from TCUST are offered free of charge!

Course content will include philosophical underpinnings of Traditional Chinese Medicine (TCM), TCM assessment and therapies, and health promotion practices. TCM practitioners, nurses, and other faculty will serve as instructors. Students will stay in the dorm across the street from campus. The budget is being finalized.

For more information, please contact the instructor, Dr. Beth Mastel-Smith at bmastelsmith@uttyler.edu
