

**Attachment #3**

**The University of Texas at Tyler  
Institutional Animal Care and Use Committee (IACUC)  
One- and Two-Year Continuation Form**

While protocols may be approved by the IACUC for up to three years, Federal/NIH regulations require that all approved protocols must be reviewed annually. Please complete this form and return it prior to the anniversary date of your protocol approval. Failure to do so will render your project subject to suspension.

**Current Protocol #:**

**Project Title:**

**Principal Investigator:**

1. Is your animal protocol still active?
2. Have there been any changes in the animal component of the project (e.g., modifications in anesthetic protocol, surgical procedures, number or nature of animal manipulations, euthanasia procedure, experimental procedures, number of animals needed, species of animals needed, animal care or housing)?

If Yes, please outline these changes on the Protocol Modification Form and attach to this Form.

3. List the species and number of animals used in the last year (include sex and age if applicable).

Species	Number of Animals
---------	-------------------

---

Principal Investigator Signature	Date
----------------------------------	------

IACUC Chair	Signature	Date
-------------	-----------	------

This protocol has been approved from \_\_\_\_\_ to \_\_\_\_\_ .
