## Welcome

Congratulations on embarking on your first college-level English class. I'm so glad you are here! This will be a new journey for many of you and I will be your guide. My name is Miriam Rowntree and I have been teaching First-Year Writing for more than ten years. I hope you will find that this course is not only relevant to your academic career, but also that as you begin developing writing skills and a writing process you will find much of our course relevant to your daily life. This syllabus will give you an important overview of the course, our policies and procedures, as well as some information on the fun stuff we will do in the course. Treat your syllabus as a contract between you and me. I agree to adhere to the policies and hope that you will as well. If you have concerns about anything in this document, please raise your concerns.

## Course Overview

# Policies for an Effective Writing Course

## 1. Course Nuts and Bolts

- A. Revision will be an integral part of your grade.
- B. All work will be submitted via Canvas. (See page 7-8 and “Grade Concerns” in FAQ)
- C. Due dates for major assignments have “windows of time.” The **Available Until Date** is the last date that I will take the assignment.

## 2. Establishing Our Discourse Community

- A. Your interactions with class members enhance both yours and their learning experience.
- B. Be generous with your peers and with your instructor. Life changes fast and we cannot always know what others are going through.
- C. Vocabulary is a key part of a discourse community. We will define words that we will use in the course.

## 3. AI Principles

- A. We develop ideas in collaboration and in conversation with others. GenerativeAI is part of that collaboration.
- B. We will use a variety of strategies using GenerativeAI, however, we remain committed to the writing process and do not tolerate submission of work that is not your own.
- C. GenerativeAI is a tool and should be respected as such.

## 4. Attendance

- A. Attendance is required. This is a face-to-face course, and I will not provide “online” lessons.
- B. You as the student are responsible for the material in class. You should ask another student if you must miss class.
- C. Missing more than 5 days of class will result in a 5-point deduction on your final weighted average.

## 5. Writing Assessment Statement

- A. I strive to be transparent in my grading practices by using rubrics and checklists.
- B. I aim to provide feedback and grades within two weeks (or less) of submission.
- C. I accept revisions of all major papers that receive a grade lower than C, up to seven days following the return of the paper.
- D. I accept well-articulated challenges to graded work. In the event of a challenge, we will meet via Zoom to discuss the rubric and elements required.

## Types of Assignments

Each module presents a variety of assignments that lead directly and indirectly to the major writing assignment for each learning unit. All work will be submitted through Canvas. You must submit papers as a **PDF, doc, or docx**. I cannot open other formats. You can download a free copy of Microsoft Word [here](#). I do not accept emailed assignments. See format for paper submission under “Assignment Submission” located in FAQ page of our course.

## Build Our Community

The following practices are a starting point for creating our community and ensuring that everyone can participate at their best. To create this environment, we need a few base practices that we can start with. They are:

- ***Diversity and Inclusion Statement:*** We all come to the table with different experiences and viewpoints. To get the most out of this learning opportunity, show respect for differences by seeking to understand, asking questions, clarifying understanding, and/or respectfully explaining your own perspective. It is important to consider how powerful a diverse education can be. My own understanding of difference has been shaped by the opportunities I have had to encounter people with vastly different experiences and listen to their stories. I want the same for my students. My goal as an instructor is to provide opportunities for everyone in my classes to have a voice and to learn to listen to others. Listening is a valuable skill in our contemporary moment, one that requires practice. I teach listening, as well as conduct research in rhetorical listening, and hope through that process to invite conversation as an ethical engagement with difference.

We will discuss a type of argument called “Rogerian” argument in Week 2.

- ***Actively participate.*** Not only does participating help you to develop your own voice, but you help make space for a more diverse conversation when you engage with other class members and the instructor. You can find more about actively participating in your FAQ.

- ***Stay on track with your schedule.*** This is not a self-paced course. Staying with the deadlines for assignments will ensure that you are keeping up with the material and completing valuable activities in preparation for your major assignments. Waiting until the last moment to contribute makes it difficult for your colleagues in the class to respond to you.

- ***Be specific.*** Vague language can have unintended consequences, including misunderstanding. The more specific you can be with your writing and commentary, the more effective you will communicate.

## How to be Successful in this Course

Now, create some goals you have for the course. As your instructor, I have outcomes I want to accomplish, but you will need to decide what goals you have as well. Consider the goals you have for engaging in this course as you determine how to allocate time to complete course requirements. The Module Time chart below provides a visual representation of the typical time spent completing a module, followed by an example weekly schedule.

**Module Time**

Each semester's Census Date can be found on the Contract itself, on the Academic calendar, or in the information pamphlets published each semester by the Office of the Registrar.</p> <p>Failure to file a Grade Replacement Contract will result in the both the original and repeated grade being used to calculate your overall grade point average. Full policy details are printed on each Grade Replacement Contract.</p> <p>The Census Date is the deadline for many forms and enrollment actions of which students need to be aware. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the Census Date (See Academic Calendar for the specific date).</p> <p>Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance.
