Graded Course Requirements Information:

Getting Started Activities:

In the “Getting Started” module there are three activities for you to complete---preferably prior to the first day of the course, if that is not possible. Then please complete them by the Wednesday of the first week. One activity is simply for you to post an appropriate video of yourself and have the name you prefer to be addressed associated with the video using “studio” to post in a discussion board. Please make it an acceptable video that you would not mind your employer or future employer seeing. The second item is to take the “Getting Started” module quiz---almost all the information in the quiz is located in this syllabus. Take the quiz until you receive 100%. The third and last item is a discussion board. It is your opportunity to let me know what question you have about the course. What concerns you? What is not clear? This will be your opportunity to ask me any questions so I can help you be successful this semester. These activities are worth 10% of your total grade.

Lecture Quizzes:

A short lecture video with an embedded quiz will accompany each chapter. The purpose of the lecture is to provide you an overview of the main concepts you will be reading in the chapters. Some weeks you will have two video lectures, other weeks three. Remember, each lecture has some embedded questions. So, please devote your attention to the information and take notes so you are prepared for the questions. You must watch the lecture and have all the quizzes for the week completed (cannot watch the lecture without taking the quiz) by Tuesday at 11:59pm of each week (except for the first week so make sure you devote your attention to the due dates in this syllabus and in the Canvas calendar).

Discussion Boards:

There will be numerous discussion boards during the semester. Each of these will require you to think and apply the material you learned in your reading. Each discussion board will require you to make a post that is 250 words or greater. You must also use evidence to support your position. This will require you to use the APA documentation style (cite in each and every posting). You must also reply to other students (a minimum of two students), along with commenting on any posts to your original posting. The **initial post** to your discussion board is due no later than **11:59pm on the Thursday** of the week when a discussion board occurs. This ensures all students have an opportunity to learn from other students. All replies to the discussion board will be due by 11:59pm each Saturday of the week a discussion board occurs. Follow the specific instructions associated with each discussion board.

Studio Video Discussions:

There will be a couple of video discussions that we will engage in this semester. Rather than always writing, we will have some activities that allow you to demonstrate your public speaking skills. Your video postings will be posted through a “tool” in Canvas called Studio. You must think deeply about the discussions and reflect on your learning and what the course material means to you and how you will apply it. You should not be regurgitating what was in the readings. Each **initial** discussion is due by **11:59pm on the Thursday** that the assignment is due. Then you must reply to at least two other students’ videos by 11:59pm on Saturday. As in the discussion board activities, just follow the specific instructions associated with the studio discussion, located in the Canvas module for the assignment.

Reflection Papers:

There will be a few reflection papers during the semester that will allow you to demonstrate your knowledge and application of your learning. These will be rated on your written skills (grammar, spelling, and diction), along with your analytical ability in connecting the course material to the assignment prompt. Each reflection paper is due on the Saturday by 11:59pm of the week each is assigned.

Semester Paper:

Your paper for this semester is for you to analyze the concepts in Philip Zimbardo’s book *The Lucifer Effect: Understanding How Good People Turn Evil* by critically thinking through concepts and discussing how they apply to the public administrative arena. Incorporate concepts we have discussed this semester along with your in-depth thoughts on the importance of Zimbardo’s work for public administrators in today’s society. You must also incorporate at least six peer-reviewed sources into your analysis.

The structure of the paper will be as follows:

1. Use APA format. Use all requirements, refer to the APA Manual (7th edition) for assistance, direction, and guidance.
2. One inch margins.
3. Double space.
4. Times New Roman with 12 point font.
5. Title page
6. Main text of the paper to be at least ten pages in length, longer is ok also.

7. Use at least six (6) peer-reviewed sources. The Lynch and Lynch book is NOT a peer-reviewed source (if you have questions about whether a source is peer-reviewed, please contact me).
8. Paraphrase your sources with intext citations using the APA documentation style.
9. Reference page (title page and reference page are not part of the minimum page requirement).
10. Upload in a Word document (file ending in .doc or .docx)

Generally, when writing an academic paper you will not use the same informal type language you use during your daily conversations. Informal, conversational language, will negatively impact your grade.

Final Exam:

Your final exam will be a mini-paper where you respond to a prompt that will require you to incorporate/discuss course concepts and their application. You will also be required to critically think about the question by analyzing it with support from the academic literature (this means inclusion of several peer-reviewed sources).

No late assignments will be accepted. No exceptions!
