Course Objectives:

The objective of this course is to provide the student with the basic analytical tools necessary to make value-enhancing financial decisions. Topics covered in the course include the analysis of financial statements, valuation of financial assets, estimation of cost of capital, capital budgeting decisions, capital structure decisions, and mergers and acquisitions.

Course requirements:

Students are expected to follow the lectures closely. Reviewing the end-of-chapter questions in addition to completing assignments is strongly recommended.

Required Text:

- The required textbook is Fundamentals of Corporate Finance, Author: Arthur Ross, Westerfield, and Jordan, **13th edition**.
- Students must have access to **McGraw-Hill Connect**, which contains easy access to ample exercises, step-by-step tutorials, sample tests, and valuable feedback for you to be successful in this course.
 - **Connect comes with temporary access for 14 days.** You will need to upgrade to full access **before the end of** the trial period. To register, log into your course home page on UT Tyler Canvas, then click on the link “M-H Connect” on the left navigation bar.
 - **The eBook comes with Connect, but you will lose access to the text at the end of the course.**

Recommended Text and References:

- Using either a financial calculator or Excel to solve the time value of money-related questions (e.g., security valuation and capital budgeting) is much easier than using formulas. The calculator used to solve class examples is the **Texas Instruments BA II Plus**. You are welcome to use another type/brand of financial calculator; however, it is your responsibility to figure out how to solve problems using it.
- For all in-person exams, you will not be able to access Excel. Excel can be used for assignments.
- Bloomberg/Business Week, The Wall Street Journal, Yahoo Finance, Financial Times

Exam:

Three exams will be given throughout the semester; each exam is non-cumulative. Preparing yourself with a formula sheet may be beneficial. A financial calculator is allowed.

Homework:

Homework assignments are assigned through **McGraw Hill Connect**. Homework assignments all have **unlimited time and attempts**. You will have one assignment for each chapter. ***No late submission will be allowed except for documented emergencies.***

Quiz:

Three quizzes will be assigned through McGraw-Hill Connect. All quizzes have two attempts with 90-minute time limit. ***No late submission will be allowed except for documented emergencies. No make-up quiz is permitted.***

Project:

One project will be given in the middle of the semester and will be due the week before the final week.

Make-Up Policy:

If you must miss an exam, you must contact me in person before the exam. Evidence for the unavoidable absence is required. Failure to do so may result in a zero for that exam. Make-up exams, if allowed, may be taken before the absence and no later than the next scheduled class period.

Evaluation

A student's grade for the class will be based on performance in exams, assignments, and class participation. Below is the grading scale with the corresponding weights for each component:

1. Exam 1	100 pts.
2. Exam 2	100 pts.
3. Exam 3	100 pts.
4. Homework	140 pts.
5. Quizzes	30 pts.
6. Project	30 pts.
7. Class participation	30 pts.
TOTAL	530 pts.

The grade scale is as follows:

$\geq 90\%$:	A
$\leq 80\% < 90\%$:	B
$\leq 70\% < 80\%$:	C
$\leq 60\% < 70\%$:	D

To find your final letter grade, use the total points earned/total points available(530) to get the percentage, then match it with the above scale.

The percentage of the grade on Canvas may not be accurate if you have missed any assignments during the semester because the rate is calculated based only on the completed assignments.

UT Tyler Honor Code
