Why is knowledge of taxation important?

TAX FOUNDATION

@TaxFoundation

TAX FREEDOM DAY: APRIL 16TH, 2019

Tax Freedom Day represents how long Americans as a whole have to work in order to pay the nation's tax burden. For 2019, Americans who work **will work the first 105 days of the year for the government** and they get to keep the remaining 260!

Americans will collectively spend more on taxes in 2019 than they will on food, clothing, and housing combined. <https://taxfoundation.org/publications/tax-freedom-day/>

(Some calculations have Tax Freedom day at May 30th for 2021!)

<https://www.adamsmith.org/taxfreedomday>

Preferred means of communication:

All communication should be via email or face to face in Zoom. I monitor my email very frequently and should, in most cases, be able to respond within 24 hours M-F and within 48 hours on the weekend. I do take Sundays as a personal day of rest and rarely check email.

Jenn's Java House: Students often hang around after class to ask questions that may not apply specifically to this course like internship advice, questions about their major, questions about how to study, even just to complain about a roommate! I'll have specific "coffee hours" at pre-determined times throughout the semester where you can just show up and ask anything!

Catalog Description

An introduction to the U.S. federal income tax system. Topics include taxation of individuals and business entities, reporting requirements of tax-exempt entities, the management of data and technology in the tax function, and tax research fundamentals.

Prerequisite: ACCT 2301 and Acct 3311. 3 credit hours.

Required Course Materials:

McGraw Hill's *Essentials of Federal Taxation 2023*, Apilker, Ayers, Barrick, Lewis, Robinson, Weaver, Worsham. **WITH Connect Card**. See the Intro Video in Canvas for the requirements. Basic 4 function calculator. You may not use a cell phone or a programmable calculator. You are required to bring your book, tax forms, and calculator to every class.

Course Objectives

1. Students will explain the nature of taxation, the types of taxes and rate structures.
2. Students will describe the concept of taxable income and compute the effect thereon from accounting methods, elections, and tax law.

3. Students will differentiate the concepts of gross income, adjusted gross income, and taxable income for individual taxpayers and calculate individual taxes from the tax rate schedules.
4. Students will differentiate between capital gain income and other types of income, including the carry over rules for capital losses.
5. Students explain the various categories of deductions and losses and apply tax planning strategies to maximize the overall deduction for taxpayers.
6. Students will use the concept of tax basis to calculate gain or loss realized and recognized on various tax deferral situations with long-lived assets such as Section 1031 exchanges, casualties, and involuntary conversions.
7. Students will utilize critical thinking skills to solve tax problems and communicate the solutions using the basic steps in tax research.
8. Students will describe the different types of business entities for tax purposes.
9. Students will describe the corporate income tax formula and compute the tax consequences of transactions in which shareholders transfer property or services to corporations in exchange for stock of the corporation.
10. Students will describe tax flow-through entities and determine whether they are taxed as partnerships or S Corporations.
11. Students will prepare Federal individual and corporate income tax returns both manually and using tax preparation software.

Set Your Goals

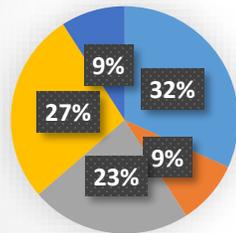

What are your goals for this course (other than to complete your degree plan)? You are almost at the end of your degree if you are enrolled in this course, so what are you hoping to take away from this course? How can this course help better prepare you for your career? What level of effort are you prepared to exert to achieve those goals? List 3 goals you have:

1. _____
2. _____
3. _____

How to be Successful in this Course

Consider the goals you have for engaging in this course as you determine how to allocate time to complete course requirements. The general rule of thumb is that students should spend 2-3 hours of study time for each hour of class time. That translates to 10 to 12 hours per week for this online course. The chart below is a visual representation of how your time might be spent followed by an example weekly schedule.

Module Time (based on 12 hours per week)

- Read the chapter
- Work chapter/note problems
- Cengage Homework
- Work extra problems
- Work on tax returns/projects

Example Weekly Schedule

Day	Task
Monday	Read chapter, take notes, Ch. quiz (about 4 hours)
Tuesday/Wednesday	Work problems (1 hour), attend class (1.5 hour)
Thursday-Saturday	Attend class. Complete homework and work any extra problems given. (3-4 hours)
Friday - Sunday	Review notes, work problems (2 hours)

Students often ask me HOW they should study for an accounting/tax exam. Everyone learns differently but two constant pieces of advice I give are to work more problems, and to explain what you've learned to someone else (another student, your spouse, your cat, etc!)

"If you want to learn something, read about it. If you want to understand something, write about it. If you want to master something, teach it."

– Yogi Bhaajan

Commitment to an inclusive learning environment: I adhere to a philosophy of an intellectual community that is enriched and enhanced by diversity along a number of dimensions, including race, ethnicity and national origins, gender, sexuality, class and religion. I am especially committed to increasing the representation of those populations that have been historically excluded from participation in U.S. higher education and specifically, the field of accounting. Your experience in this class is important to me. Your suggestions are encouraged and appreciated. Please let me know ways to improve the effectiveness of the course for you personally or for other students or student groups.

It is important to take the necessary precautions to ensure a healthy and successful year. UT Tyler continues to urge you to protect yourselves against the flu, COVID and any new threats that may be developing. Be diligent about preventive measures such as washing hands, covering sneezes/coughs, social distancing and vaccinations, which have proven to be successful in slowing the spread of viruses. Encourage those who don't feel well to stay home, and if they show symptoms, ask them to get tested for the flu or COVID. Self-isolation is important to reduce exposure ([CDC quarantine/isolation guidelines](#)). Please work with your faculty members to maintain coursework and please consult [existing campus resources](#) for support.

UT Tyler Code of Honor

I embrace honor and integrity. Therefore, I choose not to lie, cheat, or steal, nor to accept the actions of those who do.
