HRD 6399 Independent Study
Spring 2026

Department of Human Resource Development
Soules College of Business

Instructor (email):	Dr. Shinhee Jeong (sjeong@uttyler.edu), Associate Professor
Office:	SCOB 315.16
Office Hours:	Email and/or by appointment via phone or Zoom
Zoom link:	https://uttyler.zoom.us/my/shinheejeong

COURSE DESCRIPTION
Independent study in specific areas of Human Resource Development not covered by organized graduate courses. Advanced study of a special topic at the doctoral level.

COURSE OBJECTIVES/LEARNING OUTCOMES
- Study topics relevant to a domain within doctoral study.
- Student will work on a supervised research project with his or her advisor, such as a) Prepare a review document/book chapter; b) Complete analyses of an identified project; c) Submit a peer reviewed article for publication; d) Present to your research lab, department, professional conference, or other venue as determined to be appropriate by the advisor.

TEXTBOOKS, MATERIALS, AND READINGS
Texts and journal articles required for the class will be determined by the advisor.

LEARNING OPPORTUNITIES
• Regular meetings/progress updates: 55%
• Submitted work product: 45%

COURSE POLICIES
Academic Dishonesty Statement
The faculty expects from students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment of the award of a degree, and/or the submission, as one's own work of material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

University regulations require the instructor to report all suspected cases of academic dishonesty to the Dean of Students for disciplinary action. In the event that disciplinary measures are imposed on the student, it becomes part of the students' official school records. Also, please note that the handbook obligates you to report all observed cases of academic dishonesty to the instructor.

Plagiarism will not be tolerated, and learners should be aware that all written course assignments will be checked by plagiarism detection software. Violations of academic integrity will be reported and processed according to the guidelines established by the University.

COLLEGE OF BUSINESS STATEMENT OF ETHICS
The ethical problems facing local, national and global business communities are an ever-increasing challenge. It is essential the Soules College of Business help students prepare for lives of personal integrity, responsible citizenship, and public service. In order to accomplish these goals, both students and faculty of the College of Business at UT Tyler will:

- Ensure honesty in all behavior, never cheating or knowingly giving false information.
- Create an atmosphere of mutual respect for all students and faculty regardless of race, creed, gender, age or religion.
- Develop an environment conducive to learning.
- Encourage and support student organizations and activities.
- Protect property and personal information from theft, damage, and misuse.
- Conduct yourself in a professional manner both on and off campus.

ARTIFICIAL INTELLIGENCE
UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy. For this course, AI is permitted only for specific assignments or situations, and appropriate acknowledgment is required. In this course, we may use AI tools (such as ChatGPT and Copilot) to examine how these tools may inform our exploration of the class topics. You will be notified as to when and how these tools will be used, along with guidance for attribution. Using AI tools outside of these parameters violates UT Tyler's Honor Code, constitutes plagiarism, and will be treated as such
