E. Course Policies

All assignments are expected to be completed to the best ability of the student and adhere to the stated assignment criteria. There is no extra credit work. However, students may choose to resubmit written assignments if they are not satisfied with their grade. If a student chooses to resubmit a written assignment, the student may earn up to 90% of the points. There are no retakes for quizzes or the final exam.

All assignments must be submitted by date listed on the assignment schedule. Given the challenges that come with being a full-time educator while going to graduate school, each student has the opportunity to use **one late pass**.

The student must contact me to inform me that he/she will be using a “late pass” PRIOR to the missing of the assignment by the due date. It is the student’s responsibility to keep track of due dates and keep me informed of any conflicts that result in late submissions. Failure to notify me that a late pass will be used will result in a late submission penalty as explained below.

Once the **late pass** has been used, or if the student does not notify Dr. Sung when using a late pass, assignments will receive a 10% late submission penalty per week. If the assignment is more than a week late, an additional 10% will be deducted per week.
