Perspectives in STEM Education

Fall 2025

Time: Online with Synchronous Sessions

Day: TBD

Final: Online

Instructor Information:

Michael Odell, Ph.D.

Office: HPR 263A

Office Hours: Office Hours: Zoom or Phone by appointment.

Telephone: office (903) 566-7132

Email address: modell@uttyler.edu (best way to contact)

Course Description:

This course explores science and mathematics as dynamic human endeavors shaped by societal needs, historical events, and innovation. Using a Science-Technology-Society (STS) framework, future STEM educators will examine key discoveries, policies, and their impact on education and society. Aligned with the Texas Essential Knowledge and Skills (TEKS), this course equips educators with the tools to integrate historical and philosophical perspectives into engaging, inquiry-driven STEM instruction.

Schedule (See Schedule in Canvas)

Student Learning Outcomes:

- Demonstrating the methods and nature of science and math through real-life examples of discovery in practice.
- Building cross-curricular connections within the STEM disciplines and beyond in the arts and humanities.
- Humanizing scientists and mathematicians and addressing issues of diversity in STEM
- Exploring the ethics, values, and social context of science and math.
- Explore Resources related to the History, Science, and Philosophy of STEM

Resources

Pedagogy: Resources on HPS in STEM education

Current education research makes a strong case for STEM teaching that is informed by the history and philosophy of science and math.

[Read more](#)

Meeting the Standards

National and state standards for science and math teaching already include substantial requirements for teaching the history and nature of science and math.

Course Objectives and Expectations:

Activities	% Grade
Attendance	10
Assignments (<i>See Canvas</i>)	
• Readings and Videos Reflections	20
• Interdisciplinary Lesson Plans (2) 5E and PBL	25
• Video Project (Historical Perspective of Your STEM Area)	30
• Scientific Communication (Posters and Presentations)	15
TOTAL	100

Grading Scale: A=90-100; B=80-89; C= 70-79; D=60-69; F <60

Related Clinical Experiences: Clinical Hours will be completed in EDUT 2170.

Course Policies:

1. Attendance and Participation

A large portion of your grade is based on attendance and active participation in all class sessions and assignments. Credit for attendance requires arriving to each class session on time, participating in all class activities, and staying until the session ends.

EDUT 4371

Perspectives in STEM Education

Fall 2025

Attendance is a crucial component of this class because during class time you will: 1) plan and practice your lessons with your partner; 2) get feedback from the Instructors and other members of the class; and 3) observe and learn from demonstration lessons. Because the course meets only once per week and there are no texts, missing class means you will miss essential information and experiences. Furthermore, Step 1 students will be working with a partner, and this collaboration is vital to your success. The workload for each lesson should be shared equally. If you are not in class, you inconvenience your partner by forcing him or her to work with you outside of class. If you miss a class, it is your responsibility to communicate with your partner about how to coordinate the next lesson. Don't leave your partner guessing about why you are not in class, or how and when you will get together.

2. Late Work

There will be a deduction of 10% per day (capped at 50%) for any assignment turned in late unless arrangements have been made with the Instructor.

UNIVERSITY POLICIES

UT Tyler Honor Code

Every member of the UT Tyler community joins together to embrace: Honor and integrity that will not allow me to lie, cheat, or steal, nor to accept the actions of those who do.

COLLEGE OF EDUCATION AND PSYCHOLOGY (CEP) VISION AND MISSION

Core Purpose of College of Education and Psychology:

To prepare competent, caring, and qualified professionals in the fields of education, psychology and counseling, to foster discovery and to advance the knowledge base in our respective disciplines.

Vision

The CEP will be a global leader in responding to needs in the fields of education, psychology, and counseling, with a focus on the East Texas region, by creating innovative academic and scholarly pathways and partnerships.

Mission

The mission of the CEP is to prepare competent and passionate professionals in the fields of education, psychology, and counseling; to advance knowledge and expertise; and to impact these fields locally, regionally, nationally, and internationally.

UT TYLER'S SCHOOL OF EDUCATION STANDARDS FOR EDUCATOR PREPARATION PROGRAMS

Texas Education Standards: The School of Education are committed to teaching and implementing the Texas Educator Standards at the highest level. The School of Education faculty use the Texas Education Standards, along with the Interstate New Teacher Assessment and Support Consortium (INTASC) standards used by educator preparation programs throughout the United States.

The list of [Texas Education Standards](#) can be accessed [here](#).
