Communication Policy:

Students may email any time when a question arises. Please note for email messages, I typically respond within 24-48 hrs. Weekends may vary.

Course Description:

This course focuses on strategies for designing and facilitating effective classroom instruction. Students will examine theory as well as explore resources to gain knowledge and understanding of how to design and implement instructional strategies in a variety of classroom settings. Topics include assessment, e-learning, emerging technologies, information and visual literacies, and product evaluation.

Student Learning Outcomes:

As a result of this course, you should understand the history and the principles of Instructional Design. Furthermore, you should acquire the principles and practices of instructional design to effectively design your instruction, instructional strategies based on learning theories. Your skills and understandings of instructional design will be enhanced with your new awareness of instructional design models, strategies, diverse learning environments, and assessment skills.

The course will provide you with the knowledge, skills, and attitudes necessary for your teaching and your students' learning. More specifically, and in keeping with 2016 U.S. National Education Technology Standards and the 2008 National Educational Technology Standards (NETS) recommended by the International Society for Technology in Education (ISTE), by the end of the course you will better be able to:

LO1: Use technology to facilitate and inspire student learning and creativity (INTASC Principles: 2, 4, 6)

LO2: Design and develop digital-age learning experiences and assessments (INTASC Principles: 1,3, 6, 7, 8)

LO3: Demonstrate the knowledge, skills, and dispositions to design conditions for learning by applying principles of instructional systems design, message design, instructional strategies, and learner characteristics (AECT Standard 1)

LO4: Demonstrate the knowledge, skills, and dispositions to develop instructional materials and experiences using print, audiovisual, computer-based, and integrated technologies (AECT Standard 2)

LO5: Demonstrate knowledge, skills, and dispositions to evaluate the adequacy of instruction and learning by applying principles of problem analysis, criterion-referenced measurement, formative and summative evaluation, and long-range planning (AECT Standard 5)

Evaluation and Grading:

- Attendance and Participation (Discussion board) 20%
- Quizzes 20%
- Projects 30%
- Coding Project 5%
- Final Design Document 25%

Note: Last Day to Withdraw from Course: March 25, 2024

Required Texts:

eText ISBN: 9781351362245, 1351362240

Technology Access:

Hardware:

- This is an online course and will require reliable technology
- Desktop or Laptop computer with Internet access.

Note: If your Internet connection is down, <u>it is your responsibility</u> to seek access at a venue such as in the UTT computer lab (located in BEP 249 or HPR 134), a public library to complete and **submit your work on time**.

• A camera, microphone, and sound.

Software:

- A current operating system (Microsoft or Apple)
- A web browser (e.g., Chrome, Safari, Firefox, etc.).
- Access to Canvas and Patriot Mail
- Microsoft Office (Available at no charge to students at https://www.uttyler.edu/it/office365/proplus.php

Also, standard plug-ins such as:

- Java
- Flash
- QuickTime
- Adobe Reader or another PDF reader such as Preview on the Mac

Technical Support

- • UT Tyler Information Technology Hotline 903.565.5555 x2 or its upport@patriots.uttyler.edu

Course Policies

• *Class participation*: This course is designed as an online course and you are required to participate! You will have online modules which include chapter readings, participation activities, and technology projects. Each module will be available weekly. However, you should expect to spend a minimum of six hours per module. As an online student, log in

multiple times a week to participate in the course. The due dates of the assignment/project are posted in CANVAS. You are responsible to check due dates and submit your work on or prior to the due date.

- Grading Policy: All assignments are to be submitted on or prior to the due date. Late work is not accepted without prior permission from the instructor. Be aware that technical difficulties or lack of Internet access or access to required technologies and software are not accepted as excuses for late work or incomplete work. Thunderstorms are not an excuse for late work. Please proofread assignments carefully so no spelling, grammatical, and/or punctuation errors exist. Points for spelling, grammatical, and/or punctuation are included in the grading scheme for each assignment.
- *Grades of "I"* will only be given when there is a compelling reason (e.g., serious illness). If you have questions or need help, email me at wsung@uttyler.edu
- *Descriptions of all projects and assignments* will be posted on Canvas. Criteria mentioned in these descriptions must be followed in order to receive full credit for your work. All assignments will be turned in through Canvas. Projects are highly encouraged to also be uploaded to your online electronic portfolio.
- *Disposition:* All students in the UT Tyler Teacher Preparation Program must adhere to the professional behaviors outlined in the UT Tyler School of Education Dispositions. These dispositions are listed at the following website: https://www.uttyler.edu/education/files/dispositions-all-forms.pdf
