Course Catalog Description

A course designed for school administrators whose responsibilities include school plant planning and management. Topics include using and maintaining existing school facilities, and the planning, designing, and constructing of new school facilities.

As a course, students are expected to communicate with, involve and work collaboratively with executives within their school districts in order to acquire hands-on, practical experience as a superintendent similar to a laboratory environment.

Student Learning Outcomes

The student will be able to...

- Shape district culture by facilitating the development and implementation of a shared vision.
- Communicate and collaborate with families and community, as well as respond to diverse interests and mobilize community resources.
- Influence political and cultural context to achieve the district's educational vision.
- Exhibit effectiveness in budget, resources, personnel, and technology.
- Apply leadership of the physical plant.

Related field experience - Students will assume the role of Superintendent of their school district. Students will experience various processes required for facilities in their district. As the students work through the modules of this course, they will experience every level of bond planning. The cumulative Bond Project Presentations will be representative of the application of their learning throughout the course.

No required textbook - There is no required textbook for this course. You will be reading Chapter 22 from:

Bouillion, D. (2024). School Facilities and the Role of the Superintendent. In Vornberg, J.A., Templeton, N., & Miller, G.J. (Eds.), *Texas public school organization and administration (19th ed)*. Dubuque: Kendall Hunt.

Course Policies

All assignments must be completed by MIDNIGHT on Sunday night, EXCEPT during the week of FINAL EXAMS. All assignments are expected to be completed at a graduate-level quality and adhere to the stated assignment criteria. Assignments not meeting graduate-level quality and require the student to redo and resubmit will be adjusted by 10%.

Late assignments will only be accepted with prior permission of the instructor and will be subject to a penalty of 10% and an additional 10% will be deducted for each week the assignment is past due. Please do not wait until the last minute to submit your assignment as sometimes technology and online systems do not always cooperate. Please do not hesitate to email your instructor if you need help, clarification, or extra time.

Communication

My preferred method is email at davidsimmons@uttyler.edu or text message at 903-780-8323.

Messages will be answered as promptly as possible, with priority given to supporting your work and ensuring your success. If you do not receive a timely response by email or need a more immediate reply, you are welcome to use the cell phone number provided to call or text.

Participation on Written Assignments, Projects, Quizzes & Exams

Written assignments, the project, quizzes and the final exam are individual assignments. Students may not collaborate on the individual assignments. Unauthorized collaboration is considered cheating and will be handled according to University Policies and the Students Standards of Academic Conduct.
