Texas Educator Standards Title 19: Chapter 149, Subchapter AA §149.2001. Principal Standards.

(a) **Purpose.** The standards, indicators, knowledge, and skills identified in this section shall be used to align with the training, appraisal, and professional development of principals.

(b) **Standards.**

(1) Standard 1--Instructional Leadership. The principal is responsible for ensuring every student receives high-quality instruction.

(A) Knowledge and skills.

(i) Effective instructional leaders:

(I)) prioritize instruction and student achievement by developing and sharing a clear definition of high-quality instruction based on best practices from research;

(II) implement a rigorous curriculum aligned with state standards;

(III) analyze the curriculum to ensure that teachers align content across grades and that curricular scopes and sequences meet the particular needs of their diverse student populations;

(IV) model instructional strategies and set expectations for the content, rigor, and structure of lessons and unit plans; and

(V)) routinely monitor and improve instruction by visiting classrooms, giving formative feedback to teachers, and attending grade or team meetings.

(ii) In schools led by effective instructional leaders, data are used to determine instructional decisions and monitor progress. Principals implement common interim assessment cycles to track classroom trends and determine appropriate interventions. Staff have the capacity to use data to drive effective instructional practices and interventions. The principal's focus on instruction results in a school filled with effective teachers who can describe, plan, and implement strong instruction and classrooms filled with students actively engaged in cognitively challenging and differentiated activities.

(B) Indicators.

(i) Rigorous and aligned curriculum and assessment. The principal implements rigorous curricula and assessments aligned with state standards, including college and career readiness standards.

(ii) Effective instructional practices. The principal develops high-quality instructional practices among teachers that improve student learning.

(iii) Data-driven instruction and interventions. The principal monitors multiple forms of student data to inform instructional and intervention decisions and to close the achievement gap.

(V) facilitate professional learning communities to review data and support development;

(VI) create opportunities for effective teachers and staff to take on a variety of leadership roles and delegate responsibilities to staff and administrators on the leadership team; and

(VII) use data from multiple points of the year to complete accurate evaluations of all staff, using evidence from regular observations, student data, and other sources to evaluate the effectiveness of teachers and staff.

(ii) In schools with effective leaders of human capital, staff understand how they are being evaluated and what the expectations are for their performance. Staff can identify areas of strength and have opportunities to practice and receive feedback on growth areas from the leadership team and peers. Staff evaluation data show variation based on effectiveness but also show improvement across years as development and retention efforts take effect. Across the school, staff support each other's development through regular opportunities for collaboration, and effective staff have access to a variety of leadership roles in the school.

(III) are reflective in their practice and strive to continually improve, learn, and grow;

(IV) view unsuccessful experiences as learning opportunities, remaining focused on solutions, and are not stymied by challenges or setbacks. (ii) In schools with effective culture leaders, staff believe in and are inspired by the school vision and have high expectations for all students.

Staff take responsibility for communicating the vision in their classrooms and for implementing behavioral expectations throughout the building, not only in their own classrooms. Teachers regularly communicate with the families of their students to provide updates on progress and actively work with families to support learning at home. Members of the broader community regularly engage with the school community.

(B) Indicators.

(i) Shared vision of high achievement. The principal develops and implements a shared vision of high expectations for students and staff.

(III) develop a year-long calendar and a daily schedule that strategically use time to both maximize instructional time and to create regular time for teacher collaboration and data review;

(IV) are deliberate in the allocation of resources (e.g., staff time, dollars, and tools), aligning them to the school priorities and goals, and work to access additional resources as needed to support learning; and

(V) treat central office staff as partners in achieving goals and collaborate with staff throughout the district to adapt policies as needed to meet the needs of students and staff.

(ii) In schools with effective leaders of strategic operations, staff have access to resources needed to meet the needs of all students. Staff understand the goals and expectations for students, have clear strategies for meeting those goals, and have the capacity to track progress. Members of the staff collaborate with the principal to develop the school calendar. Teacher teams and administrator teams meet regularly to review and improve instructional strategies and analyze student data. Throughout the year, all staff participate in formal development opportunities that build the capacity to identify and implement strategies aligned to the school's improvement goals.
