

PSYC 4353.001: LIFESPAN DEVELOPMENT
Spring 2026
Syllabus

Class information:

Class time: Monday, Wednesday, Friday; 9:05-10:00 AM
Classroom: HPR 253

Instructor: Dr. Amy Hayes, Associate Professor of Psychology

Office: BEP 253
Email: ahayes@uttyler.edu
Office Phone: 903-565-5753
Office hours: TBA

Text: Lifespan Development: A Psychological Perspective (2022). Lally & Valentine-French.
Link to Open Access Textbook: <https://www.clcillinois.edu/programs/psy/openeducation>

Course Overview:

The primary purpose of this course is to examine the physical, cognitive, and social development of infants, children, adolescents, and adults, and the various factors (e.g., genetics, parenting, peer groups, schools) that influence development. Prominent theories of development and research methods used in developmental psychology are reviewed. Specific topics that are covered include: prenatal development, aggression, attachment, gender development, language development, moral development, cognitive development, cultural influences, school settings, and aging.

This is a face to face, in person class. I will generally introduce each topic with some background information and/or lecture on some selected aspect of each topic, but much of what you learn from the class will be information that you glean from the readings and class discussions. Active student attendance and participation will be required. **Classes will be delivered in person and will not be streamed on zoom.**

Evaluation and Grading:

TESTS:

Fifty percent of your class grade will come from tests over course content. Tests will be given in person throughout the semester, covering roughly 2 chapters of material.

**If you miss a test for an excused reason (doctor's note, university activity with a note), you can request a make-up test with no penalty. If you are unable to attend a test for an unexcused reason, you may request a make up test but need to understand that there will be points deducted

for taking it late. Missing the scheduled exam day creates a cascade of effects that impact scheduling, posting of grades for other students, and timing of the course content.

APPLICATION MINI-PROJECTS: You will need to complete 3 application assignments throughout the course of the semester. These are opportunities for you to experience and think about factors that influence development in a real-world setting, apply what you have learned in the class, and reflect on ways that the place or resource could be improved based on what you know about human development. The four assignments are spread out over the course of the semester, and you will need to pick 3 of them to complete. Detailed instructions for each of the assignments appears on Canvas. The topics are:

- I. Infant Care Interview
- II. Childhood Play Observation
- III. Work Life Balance Infographic
- IV. Ageism Movie Review

IN CLASS PARTICIPATION: Participation grades will be based on completing a series of in-class assignments that will be distributed throughout the semester. Grades for each assignment will be either a “complete” or “incomplete”. I will not announce the dates of the assignments ahead of time. Your final participation grade will be the percentage of complete assignments that you handed in.

Class Grade Breakdown:

<u>Assignment</u>	<u>Percentage of Grade</u>
Tests	50%
Application Mini-Projects	40%
<u>In-class Participation</u>	<u>10%</u>
Total points	100%

Course Policies:

Class participation and communication: The bulk of class time will be devoted to introducing you to the study of developmental psychology, discussing the readings, and critically evaluating course material. I highly encourage active class participation and reading of the course material in advance. Please take the opportunity to attend office hours as well, as they allow for more in depth conversations about course material than is possible during lecture. If you would like to meet with me and cannot attend my scheduled office hours, please contact me to schedule an appointment. Email communication is also encouraged. I will make routine announcements and class reminders through Canvas. **Please remember to check your Patriots email account in order to receive these reminders.**

Lecture Policies: Lectures will include material that is not in the textbook. If you miss a class, it will be your responsibility to find out from a classmate what happened in class (including handouts, assigned readings, announcements, and lecture content).

PSYCHOLOGY 4353: COURSE OUTLINE

WEEK	TOPIC	READINGS and assignments
Jan 12-16	Introduction to Lifespan Development	Ch. 1
Jan 19-23	Monday 1/20- No class for MLK Jr Holiday Heredity, Prenatal Development and Birth	Chs. 2
