

The University of Texas at Tyler
Department of Civil Engineering

CENG 3361: Applied Engineering Hydrology and Hydraulic Design

Course Syllabus (Spring 2021)

Date: January 6, 2021. This version supersedes all earlier versions.

Time & Venue	Class times: MW, 1:25 p.m. – 2:20 p.m., RBN 3039
Instructor	Dr. Matthew Vechione Office: RBS 1011 Email: mvechione@uttyler.edu Phone: (903) 565-5711 Office hours: MTW 10:00 a.m. – 11:00 a.m.
Teaching Assistant	Name: Sohil Paudel Email: spaudel@patriots.uttyler.edu
Course Website	See UT Tyler's Canvas Website
Course Objective	Welcome to CENG 3361 (Applied Engineering Hydrology and Hydraulic Design). During the upcoming semester, I believe you will find our study of hydrology and hydraulic design to be interesting, challenging, and rewarding. In this course, we will cover topics such as precipitation, hydrograph analysis, evapotranspiration, runoff, flood routing, open channel flow and design of stable channels, and hydraulic design. A project involving hydrologic system analysis and design will be assigned.
Prerequisite/Co-Requisite	1. CENG 3310 Fluid Mechanics and Hydraulics
Required Text	No required textbook. The recommended textbook used for this class is: <ul style="list-style-type: none">○ Hydrology and Hydraulic Systems, 4th Edition by Ram Gupta, Waveland Press, Inc. ISBN 1-4786-3091-4
Grading	Contributions towards final grade (out of 100%) <ul style="list-style-type: none">5% Professional Practice (3 ASCE Meetings)15% Exam 115% Exam 225% Final Examination15% Homework15% Lab10% Project

	<p>In grading the homework, assignments, tests, exams, etc., no credit will be given to methods not covered in this class, although these methods, tables, formulae may appear in the textbook. Errors or outdated material in the textbook should not be the reason for claiming full credit on work done.</p> <p>Letter grades will be assigned based on the final course grade:</p> <p style="padding-left: 40px;">A 90 and above B 80 to 89.99 C 70 to 79.99 D 60 to 69.99 F below 60</p> <p>No letter grade will be released until it is official on PeopleSoft.</p> <p>In consistency with the College of Engineering’s policy, a student who does not score 50% or more of the total points allocated to the Final Examination will automatically receive an F grade.</p>
Attendance	<p>During some class meetings, the instructor will return the graded homework, assignments or exams towards the end of the meeting by calling names. Students who are not there to collect their work will be marked absent.</p> <p>To protect your confidentiality, graded homework, assignments, and exams will not be placed at open area for collection. They will only be distributed by the instructor during class or office hours. Graded homework, assignments, and exams not collected after the final exam week will be disposed according to UT Tyler policy.</p>
Exams	Exams are given during the class times. The dates of the Exams will be announced at least one week advance in class.
Final Exam	The Final Exam is on 4/30, 1:30 p.m. – 3:30 p.m. All material covered in the course will be tested.
General Exam Rules & Cheat Sheet	<p>All exams are closed book. You are only allowed to bring your writing instruments, erasers, and NCEES approved calculators.</p> <p>Topics to be tested will be announced in class and on Canvas one week prior to the exam.</p> <p>The instructor will set questions from material taught in class. The meaning of “taught in class” includes verbal instructions or written notes on the white board and Canvas, briefing/ presentation during field trips, observation during field work/ experiments. They do not necessary appear</p>

	<p>in the textbook, distributed class notes, or homework. It is very important that you attend the class activities and take additional notes.</p> <p>To discourage students from focusing narrowly on only a few questions, no practice exam will be given. There are enough self-practice problems, which are not required as part of each homework assignment as well as in the textbook at the end of each chapter.</p>
Calculators	<p>In line with the Civil Engineering Department's policy, only calculators permitted by NCEES for use in the <u>current semester's FE exam</u> are permitted to be used in the CENG 3361 examinations. No other model of calculator will be allowed. Models previously allowed by NCEES in the past but are no longer valid for the current FE exam are prohibited in the CENG 3361 exams. Please check www.ncees.org for the latest permitted calculator models. It is the student's responsibility to check the validity of his/her calculator model, purchase, and be familiar with the functions of the permitted calculators prior to the exam. If an unapproved calculator is found during any exam, it will be taken away immediately and only be returned to the student after the exam. No borrowing of other students' calculators is allowed during exam.</p>
Field Trip	To be announced/decided.
Design Project	<p>The design project consists of a drainage study in Tyler. Each group will present their findings and recommendations at the dates shown in the course schedule.</p>
Homework	<p>About 40 homework problems will be assigned out of the textbook. The homework problems will be assigned at the completion of a topic and will be due in class on the day stated in the homework sheet and course schedule. Only selected homework problems will be graded. All homework solutions must be submitted on engineering paper (you can buy them in the Civil Engineering Department Office for \$5.00, at Office Depot, or online), stapled at the top-left corner. Homework solutions not submitted on engineering paper will received only 90% of the graded credit.</p> <p>In all your homework and exam solutions, you are expected to present, in written form, the formulae used, the variable values, intermediate calculations, final answers, and their units. Draw a box around your final answer. Not having any of the above will lead to points being deducted.</p> <p>Do not expect all the homework problems be similar to the examples covered during class time. In some cases, you are expected to read additional examples in the textbook or think of the solution yourself or discuss with your classmates.</p>

<p>Late Homework/ Assignment Policy</p>	<p>Absolutely NO late homework will be accepted. If it is not in my hands when I leave the classroom on the due date, I will not grade it, and you will receive a zero for the assignment. No exceptions.</p> <p>Homework solutions are usually posted on Canvas two days after the due date.</p>
<p>Grace Day Coupon</p>	<p style="text-align: center;">CENG 3361 Homework Grace Day Coupon</p> <p>To allow for emergencies that may arise, you may use this coupon for one “grace day” for homework assignments.* In other words, one homework can be turned in 24 hours late without penalty. Cut out (or take a screenshot) of this coupon and submit in lieu of your homework assignment.</p> <p>*Not transferable to another student. *Only valid for homework assignments. *You are not required to use this coupon. If you do not use this coupon on a homework or lab assignment, turn it in with your final exam for an additional 5 bonus points on the final exam.</p>
<p>Re-schedule of Examination</p>	<p>There is no make-up or rescheduling of the Final Examination.</p> <p>Make-up for the Exams will only be arranged if you inform the instructor prior to or on the day before the exam, with a strong valid reason. Examples of strong valid reasons are official UT Tyler travel, accident, illness, child-birth, passing of an immediate family member, jury duty, or court appearance. These are not expected and cannot be rescheduled. You will be required to show documentary evidence for the valid reason (e.g., doctor’s letter, police report, court letter). Events that can be pre-scheduled or rescheduled are not considered valid reasons. Examples of non-valid reasons are traffic, wedding, driving test, sending car for service, clash with another course schedule, etc. Job interviews will be considered on a case-by-case basis (again, with documentary evidence). If an emergency happens during the exam day, you should contact the instructor at the earliest possible time (or call the Civil Engineering office, contact one of your classmates or TA who will then inform the instructor). Any make-up exam will be given on the Dead Day.</p> <p>Each student is only allowed one (1) make-up exam. That is, he/she can only make-up Exam 1 or Exam 2, but not both.</p> <p>To compensate for the fact that you may apply what you learn in the entire course when answering make-up Exams 1 or 2, the make-up exam will be more difficult than the original exam.</p> <p>Students who fail to show up for the make-up or final exam with an invalid reason will be given 0 points for that exam; or for a valid reason an</p>

	incomplete “I” grade. He/she must take the exam the next time this course is being offered to have the “I” grade change to a letter grade. All the assessment components and marks will be retained for the calculation of the final letter grade. The letter grade will be benchmarked against the same class for the semester in which the exam had been missed.
Collaboration/ Cheating	Cheating is unethical and not acceptable. Plagiarism is using information or original wording in a paper without giving credit to the source of that information or wording: it is also not acceptable. Do not submit work under your name that you did not do yourself. You may not submit work for this class that you did for another class. If you are found to be cheating or plagiarizing, you will be subject to disciplinary action, per UT Tyler catalog policy.
Audio/Video Recording	Recording of class instructions by any phone, audio or video device is not permitted. The only exception is at the request of Student Accessibility and Resources, or at the request of Department, College, or University for teaching evaluation.
Phone/iPod/iPad, Laptop, etc.	Please turn off your cell phone or switch it to silent mode during class time. If you need to answer a phone call, please leave the class quietly and only answer outside the class door. You are not allowed to answer any phone calls during the examination.
Disability	In accordance with Section 504 of the Rehabilitation Act, Americans with Disabilities Act (ADA), and the ADA Amendments Act (ADAAA), the University of Tyler at Texas offers accommodations to students with learning, physical and/or psychological disabilities. If you have a disability, including non-visible a diagnosis such as a learning disorder, chronic illness, TBI, PTSD, ADHD, or you have a history of modifications or accommodations in a previous educational environment, you are encouraged to visit https://hood.accessiblelearning.com/UTTyler and fill out the <u>New Student</u> application. The Student Accessibility and Resources (SAR) office will contact you when your application has been submitted and an appointment with an Accessibility Case Manager. For more information, including filling out an application for services, please visit the SAR webpage at http://www.uttyler.edu/disabilityservices , the SAR office located in the University Center, # 3150 or call 903.566.7079.
Important Covid-19 Information for Classrooms and Laboratories	Students are required to wear face masks covering their nose and mouth, and follow social distancing guidelines, at all times in public settings (including classrooms and laboratories), as specified by Procedures for Fall 2020 Return to Normal Operations . The UT Tyler community of Patriots views adoption of these practices consistent with its Honor

	<p>Code and a sign of good citizenship and respectful care of fellow classmates, faculty, and staff.</p> <p>Students who are feeling ill or experiencing symptoms such as sneezing, coughing, or a higher than normal temperature will be excused from class and should stay at home and may join the class remotely. Students who have difficulty adhering to the Covid-19 safety policies for health reasons are also encouraged to join the class remotely. Students needing additional accommodations may contact the Office of Student Accessibility and Resources at University Center 3150, or call (903) 566-7079 or email saroffice@uttyler.edu.</p>
Recording of Class Sessions	<p>Class sessions may be recorded by the instructor for use by students enrolled in this course. Recordings that contain personally identifiable information or other information subject to FERPA shall not be shared with individuals not enrolled in this course unless appropriate consent is obtained from all relevant students. Class recordings are reserved only for the use of students enrolled in the course and only for educational purposes. Course recordings should not be shared outside of the course in any form without express permission.</p>

Tentative Schedule

Lsn	Date	Topic	Text	HW Assigned	HW Due
1	1/11	Course Introduction			
2	1/13	Hydrologic Cycle and Budget	2.1 - 2.4		
	1/18	No Class (MLK Day)			
3	1/20	Probability and Statistics in Hydrology	11	HW 1	
4	1/25	Precipitation	2.5 - 2.7		
5	1/27	Precipitation (IDF)	2.8	HW 2	HW 1
6	2/1	Evaporation and Transpiration	3		
7	2/3	Evaporation and Transpiration	3	HW 3	HW 2
8	2/8	Infiltration and NRCS Curve Number	4		
9	2/10	Infiltration and NRCS Curve Number	4	HW 4	HW 3
10	2/15	Runoff	9.1 - 9.2		
11	2/17	Rational Method	16.10	HW 5	HW 4
	2/22	Exam I			
12	2/24	Hydrographs	9.5 – 9.7		
13	3/1	Unit Hydrographs	9.8 – 9.9	HW 6	HW 5
14	3/3	Surface Water Flow Measurements	8		
	3/8	No Class (Spring Break)			
	3/10	No Class (Spring Break)			
15	3/15	Stream Flow Measurements	8		
16	3/17	Introduction to Hydraulic Structures	Handout	HW 7	HW 6
17	3/22	Open Channel Flow	14		
18	3/24	Open Channel Flow	14	HW 8	HW 7
19	3/29	Weirs	13.1 – 13.5		
20	3/31	Weirs	13.1 – 13.5	HW 9	HW 8
	4/5	Exam II			
21	4/7	Spillways	13.12 – 13.18		
22	4/12	Energy Dissipators	Handout		
23	4/14	Culverts	17.7	HW10	HW9, Project
24	4/19	Project Presentations			
25	4/21	Project Presentations			HW10
	4/30	Final Exam			

Tentative Lab Schedule

Lab	Monday Lab Date	Thursday Lab Date	Topic	Lab Due
	1/11	1/14	No Lab Meeting (First Week)	
1	1/18	1/21	Hydrologic Cycle as a Mass Balance	
2	1/25	1/28	Probability and Statistics	Lab 1
3	2/1	2/4	Areal Rainfall and Thiessen Method	Lab 2
4	2/8	2/11	Infiltration	Lab 3
	2/15	2/18	Exam I Review	Lab 4
5	2/22	2/25	Stormwater Runoff	
6	3/1	3/4	Hydrographs	Lab 5
	3/8	3/11	No Lab Meeting (Spring Break)	
7	3/15	3/18	Watershed Delineation & Design Project	Lab 6
	3/22	3/25	Design Project Progress Meeting	Lab 7
	3/29	4/1	Exam II Review	
8	4/5	4/8	Open Channel Flow, Weirs, Spillways	
	4/12	4/15	Design Project Progress Meeting	Lab 8
	4/19	4/22	Final Exam Review	

Desired Learning Outcomes

In this course, you will learn to:

1. Describe the hydrologic cycle; recognize the various storage and transport pathways in the cycle.
2. Predict runoff from a storm using constant (ϕ -index) loss and variable (SCS Method) loss infiltration methods.
3. Predict runoff from a storm using unit hydrograph methods.
4. Obtain historical flood data using the Internet.
5. Apply flood frequency analysis; use probability concepts and frequency distributions to evaluate flood data.
6. Describe the hydrologic design scale; select a design storm, specifying precipitation depth and distribution.
7. Compute normal depth in a channel.
8. Design an open channel.
9. Analyze open channel structures such as weirs and spillways.
10. Use the rational method to compute the peak discharge for an urbanized watershed.
11. Use spreadsheets and math solving problems as a tool to perform the mathematical operations required in hydrological and hydraulic analysis and design.
