Course Description: It is the purpose of this course to introduce students to the field of athletic training and to develop competencies pertaining to the recognition, management, and prevention sports related injuries, trauma and emergencies. Students will also develop competency and familiarity with the legal/ethical responsibilities involved.

Outcomes: Upon completion of the course, the student shall be able to:

1. Identify and discuss the types of therapeutic modalities commonly used in the athletic training clinic.
2. Discuss any legal implications of using certain therapeutic modalities without written orders from a prescribing physician.
3. Discuss the proper time during the healing phase to use certain therapeutic modalities.
4. Apply evidence based practice concepts in the selection and utilization of therapeutic modalities.
5. Properly apply therapeutic modalities to a fellow classmate or model in a simulated clinical setting.

Course Requirements: NOTE – Other assignments may be added pending instructor discretion

Final Exam:	This course will feature a comprehensive final exam in the same format as the previous described exam.
Exam Policy:	In the interest of fairness to all students, examinations are to be taken during their scheduled time. Any student who anticipates missing an examination is responsible for making arrangements to take their exam prior to the absence. Exams may be taken after the scheduled date only in the event of an illness (doctor's note is required) or a personal or family emergency.
Late Work:	All assignments are expected to be turned in as scheduled in the course syllabus. For each day that an assignment is late, the grade for that assignment will be decreased by 10%.
Academic Integrity:	We assume that all students and faculty will conduct themselves according to a code of personal and professional integrity. This means that students and faculty will act from the basis of courtesy, honesty and respect for each other in their academic work and interpersonal relationships. Students are expected to complete work individually for assignments and examinations. Copying from other students constitutes unethical behavior, and is not allowed. When references are used, please cite them accordingly.
