Subject:

Notice of Pricing Adjustment for Non-tuberculous Mycobacteria and Nocardia Clinical Reference Laboratory Testing

Dear Valued Customer,

We appreciate your continued trust in the University of Texas at Tyler School of Medicine's Mycobacteria & Nocardia Clinical Reference Laboratory. Our commitment remains steadfast in providing high-quality diagnostic services with accurate and timely results to support patient care.

Due to rising costs associated with inflation, increased material and supply expenses, and higher labor costs, we will be implementing an adjustment to our pricing structure. This change is necessary to maintain the level of excellence, reliability, and innovation you have come to expect from our laboratory.

The updated pricing will take effect on April 15, 2025. A revised fee schedule is attached or can be accessed via our website: <https://www.uttyler.edu/academics/colleges-schools/medicine/departments/center-for-biomedical-research/mycobacteria-and-nocardia-laboratory/>. We remain dedicated to working with you to ensure a smooth transition and continued access to our specialized molecular identification and antimicrobial susceptibility testing services.

If you have any questions or require further details, please do not hesitate to reach out to Ms. Kelly Moore via phone at (903)877-7732 or e-mail: Kelly.Moore@UTTyler.edu. We greatly appreciate your partnership and look forward to continuing to serve your laboratory's needs.

Sincerely,

Monika Kumaraswamy, MD, D(ABMM)

Director, Mycobacteria & Nocardia Clinical Reference Laboratory,

Chief of Infectious Diseases and

Associate Professor of Medicine & Cellular and Molecular Biology

UT Tyler School of Medicine
