MYCOBACTERIA/NOCARDIA RESEARCH LABORATORY TEST FEE SCHEDULE

Phone: (903) 877-7685 Fax: (903) 877-7652
https://www.uttyler.edu/mycobacteria-nocardialaboratory/

TEST	ANTIMICROBIAL SUSCEPTIBILITY TESTING	CHARGE
01	Rapidly Growing Mycobacteria (RGM).....CPT 87186..... Procedure: broth microdilution MIC (approximately 9 drugs)	$360
02	Nocardia species.....CPT 87186 ..... Procedure: broth microdilution MIC (approximately 12 drugs)	$360
03	Other Aerobic Actinomycetes .....CPT 87186..... (*Gordonia, Rhodococcus, Streptomyces, Tsukamurella,* etc.) Procedure: broth microdilution MIC (approximately 4-12 drugs)	$360
04	*Mycobacterium marinum* .....CPT 87186 ..... Procedure: broth microdilution MIC (8-10 drugs)	$260
05	*Mycobacterium avium* complex (MAC) Susceptibility Testing.....CPT 87186 ..... Procedure: broth microdilution MICs to clarithromycin and amikacin only	$260
06	*Mycobacterium kansasii* (Rifampin susceptible isolates) ……..CPT 87186 ..... Procedure: broth microdilution MICs to rifampin and clarithromycin only	$230
07	Other slowly growing nontuberculous mycobacteria including rifampin resistant *M. kansasii* Procedure: broth microdilution MIC (8-10 drugs).....CPT 87186	$260
08	Agar disk elution (*M. haemophilum*) .....CPT 87186, 87190.....	$520
09	Special MIC per drug/panel .....……CPT 87186……....	$380

ISOLATION / IDENTIFICATION OF PURE CULTURE ISOLATES OF AEROBIC ACTINOMYCETES INCLUDING NOCARDIA / MYCOBACTERIA

10	Sequencing (Partial 500bp) ……CPT 87153, G0452-26 …….....	$310
11	Sequencing (*rpoB, hsp65, secA1, erm,* 1000bp16SrRNA gene): CPT 87158 (CPT, lysis, extraction, purification, amplification, separation & detection); CPT 87153 (Sequencing), G0452-26……...	$390
12	Full 16S rRNA gene Sequencing (1400-1500bp):……..... CPT 87158-59 [(CPT + modifier) lysis, extraction, purification, amplification, separation & detection]; CPT 87153-59 [(CPT + modifier) sequencing]; G0452-26	$460
13	Sequencing for Amikacin or macrolide mutational resistance CPT 87158 (CPT, lysis, extraction, purification, amplification, separation & detection); CPT 87153 (Sequencing), G0452-26 (Susceptibility testing is required and billed separately CPT 87186)……....	$360
14	Isolation of organisms ..…….....CPT 87077.....	$100

We do not accept cultures of *Mycobacterium tuberculosis* complex.
