Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Interns are selected based on a number of factors. Preferred are: a self-described interest in working in an integrated behavioral health setting, a desire to work with rural populations, an interest in working in an academic health center, and strong essays and letters of recommendation. Other preferred factors include a doctoral program with APA accreditation and a clinical psychology and/or health or medical psychology program emphasis. Also important are applicant characteristics that lend diversity, fresh outlook, or unique skill(s) to the cohort. Completion of the dissertation proposal is required. The number of hours of experience in testing and psychotherapy, while important, are less so than the above elements.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes		Amount: 400 (preferred)
Total Direct Contact Assessment Hours	Yes		Amount: 50 (preferred)

Describe any other required minimum criteria used to screen applicants:

Applicants should be in good legal and academic standing. Applicants must be a US citizen or possess a valid student work visa.
