- Sigma Tau Nu International Honor Society of Nursing (STTI)

### **Interests**

- I enjoy gardening/landscaping, bicycling, hiking, and research

## **Letter of Interest**

December 4, 2025

Dear Nursing Faculty,

I am writing to express my interest in the Clinical Nursing Faculty position at University of Texas at Tyler. With 12 years combined nursing and nurse practitioner experience, a commitment to evidence-based practice, and a passion for mentoring the next generation of nurses, I am excited about the opportunity to contribute to your program's mission of developing compassionate, competent, and practice-ready nurses.

In my most recent role as a nurse practitioner, I had the opportunity to work with nursing students during their clinicals at my SNF. I have also had the privilege of working at UT Tyler from 2019 to end of 2021 in the bachelor's program working with first level students and a class with ADN to BSN program. I truly enjoyed the experience of working with the students guiding them through their professional development and learning new skills. I have developed a teaching style that emphasizes critical thinking, patient advocacy, clinical judgment, and reflective practice. I consistently encourage learners to connect theory with real-world application, a key element in fostering their confidence and clinical competence.

I am ready now to dedicate my time to working with faculty and inspiring nursing students full-time. I would like the opportunity to discuss my clinical background, teaching experience, and dedication to student success aligning with the goals of your nursing program. I look forward to speaking with you.

Best regards,

Lisa Campbell, MSN, APRN, FNP-C
