

Angela Nachman MSN, RN-BC, CCRN

Summary

Informatics Nurse Specialist with 24+ years of experience in hospital acute care settings, including critical care, clinical education, and health systems improvement. Proven leadership in clinical management, quality improvement, and curriculum development. Expertise in bridging clinical practice with healthcare technology to enhance patient care and operational efficiency. Experienced in interdisciplinary team collaboration, staff training, and mentoring. ANCC Nursing Informatics Certification and CCRN certification and is currently pursuing a Doctorate in Nursing Practice (DNP). Strong background in informatics, education, and clinical consultation, with a passion for advancing healthcare outcomes through technology.

Experience

TYLER JUNIOR COLLEGE – *Tyler, Texas*
Professor, Associate Degree Nursing
August 2019 – Present

- Design, develop, and evaluate nursing curriculum, ensuring alignment with best practices and national standards.
- Provide consultation on the integration of healthcare technology in nursing education.
- Lead the Curriculum Committee, focusing on innovative approaches to nursing education, including simulation-based learning and clinical technology integration.
- Actively mentor students and faculty on healthcare informatics, patient safety, and technology in clinical practice.
- Maintain up-to-date knowledge of healthcare trends and technologies to incorporate into teaching and clinical practices.

TRINITY MOTHER FRANCES HEALTH SYSTEM – Tyler, Texas
Systems Critical Care Educator / Residency Lead
November 2016 – August 2019

- Led the development and implementation of a comprehensive critical care residency curriculum, incorporating advanced clinical skills and technology in critical care.
- Provided hands-on coaching and clinical guidance to resident nurses, focusing on patient care, technology integration (such as ventilators and hemodynamic monitoring), and critical decision-making.
- Partnered with interdisciplinary teams, including IT and clinical staff, to implement process improvements aimed at enhancing patient outcomes and operational efficiency.
- Spearheaded the use of simulation scenarios to teach advanced clinical skills and crisis management.
- Engaged in continuous quality improvement initiatives and presented research findings at conferences.

LOUIS AND PEACHES OWEN HEART HOSPITAL – Tyler, Texas
Team Lead Telemetry/Vascular/Cardiac OBS
December 2014 – November 2016

- Managed daily operations and clinical staff of telemetry, vascular, and cardiac observation units, driving operational excellence and improving patient care workflows.
- Worked closely with clinical teams to ensure seamless integration of healthcare technology for optimal patient monitoring and care coordination.
- Contributed to the development and execution of evidence-based practices (EBP) and clinical initiatives aimed at improving patient safety and quality of care.

TRINITY MOTHER FRANCES HEALTH SYSTEM – Tyler, Texas
Registered Nurse, PACU
January 2012 – December 2014

- Administered direct patient care in the perioperative and post-anesthesia care units, ensuring high-quality recovery and patient monitoring with technology such as ventilators and monitoring systems.
- Chair of the Nurse Staffing Committee, focusing on staffing optimization and process improvement initiatives to enhance patient care delivery.

EAST TEXAS MEDICAL CENTER – Tyler, Texas

Registered Nurse, ICU; Radiology

August 2009 – January 2012

- Coordinated care for critically ill patients in ICU, utilizing advanced technology to monitor and support patient recovery.
- Contributed to technology integration in radiology for procedural sedation and patient management.

CAPSTONE HEALTHCARE STAFFING – Tyler, Texas

Agency Staff Nurse

November 2006 – November 2011

- Provided care coordination across various healthcare settings, offering flexibility and expertise in the use of clinical technologies to improve patient outcomes.

TEXAS SPINE AND JOINT HOSPITAL – Tyler, Texas

Registered Nurse, Preop, Pre/Post Pain Management

March 2003 – March 2009

- Coordinated outpatient pain management care, including the use of clinical technology for monitoring and sedation.

Clinical Manager, Preop, Pre/Post Pain Management

- Managed scheduling, supply ordering, budgeting, and personnel actions, with a focus on process improvement and patient safety.

- Chaired the Patient Safety Committee, leading initiatives to enhance the quality of care.
