

Book Bundle FAQs

1. What is the easiest and most cost-effective way to get my REQUIRED course materials?

Elsevier is the publishing company that supplies many of the products that you'll be using throughout nursing school. Because the nursing program is using so many of Elsevier's products, both print and digital, they've bundled these required products into a custom bundle for a much deeper discount than you'd normally find individually in the bookstore or online. Because UT Tyler nursing has partnered with Elsevier and your bookstore, you can conveniently purchase your custom book bundle from your campus bookstore.

2. Will I be able to save money by getting my print books from a former nursing student or purchasing them online and then buying the digital product access codes separately?

By purchasing the bundle you'll receive deep discounts on your required print books and digital product access codes, plus you'll get free access to ClinicalKey for Nursing and free access to Student Resources on Evolve. If you decide to acquire your required materials separately, you'll pay full price for the individual purchase of the digital product access codes which are only available from Elsevier (they are not available on Amazon, etc.). If you decide to purchase your print books from Amazon and then purchase the digital products separately from Elsevier it will cost you more than the bundle price and you won't get free access to ClinicalKey for Nursing or free access to Student Resources on Evolve. If a former nursing student loans you his/her books you'll be able to save a small amount of money, but again you'll need to purchase the digital product codes separately from Elsevier and you won't get free access to ClinicalKey for Nursing or free access to Student Resources on Evolve. Additionally, most nursing students like to keep their books as reference throughout the nursing program and on in to practice.

3. If I'm not able to make it over to the Barnes & Noble campus bookstore in Tyler during business hours, will they ship my bundle to me?

Yes, you may purchase your book bundle online at the bookstore website and have it shipped to your home address.

4. Am I able to use Financial Aid/ Book Loan to purchase the bundle?

Yes, every student is allowed up to a \$1,000 book loan that you may charge to your student account. The last day to charge to your financial aid or to use the book loan is **always** the Friday before classes begin. This can be done in store or online, simply choose the SFA/ Book Loan for your payment method.
