

The MSN-Administration degree prepares the graduate to apply leadership and management skills to become the essential link between the vision and mission of the larger health care organization and the unit-based system of patient care. Students develop expertise in resource allocation through using professional skills in assessing and analyzing health care needs in the practice setting.

The Master of Science in Nursing program builds on UT Tyler’s undergraduate program in nursing and provides a firm basis for doctoral level education.

FULL-TIME SAMPLE DEGREE PLAN AND CURRICULUM

YEAR ONE	CREDIT HOURS
1ST SEMESTER	9
NURS 5301 Translational Science I	3

TBD 53XX	3	Elective or Cognate	
TBD 53XX	3	Elective or Cognate	

- Total credit hours must equal at least 36. Students can transfer in up to 9 approved credit hours.
- Elective courses should be chosen to enhance the student’s area of professional interest and skill development. These courses may be taken in any discipline, but must be 3 credit, graduate level (5000) courses.
- Selecting either nursing education or nursing informatics courses as electives may lead to a post-master’s certificate either concurrent with, or after, conferral of the MSN degree. Additional information about certificate options is available from the graduate nursing advisor.
- Consult with your advisor as well as the University Catalog for additional information on degree requirements and schedule planning. This is only a recommended outline, subject to course rotation and sequencing.
- **All costs are subject to change and do not include the additional cost of books and materials. For cost estimates, please refer to the Graduate School Tuition and Fee Calculator: <https://www.uttyler.edu/graduate/tuition-and-fees/>.**
