## Integrated Pharmacy 1 (IP-1) PHAR 7601

Fall Semester 2016

Course Description	Preamble: The pharmacy courses are designed to optimize contextual learning and promote analytical reasoning. This will afford the student the knowledge, skills and resources necessary to successfully participate as an integral member of a healthcare team. The curriculum will allow the student to appreciate the relevance and interconnectedness of the basic, social/administrative/behavioral and clinical sciences when delivering patient-centered care and applying principles of optimal drug therapy.  This course introduces the student to the rich history of the pharmacy profession and looks at the future of the profession; the drug develop process; drug information resources; a biochemical, cellular, and molecular perspective of health and disease; the pharmacist role in health and wellness including use of complementary and alternative medicine; and the fundamentals of pharmaceutics and pharmacokinetics to provide individualized patient care.
Course credit	6 credit hours
Pre-Requisite courses	Admission to the College of Pharmacy and P1 standing.
Co-requisites	Completion or current enrollment in PHAR 7241 and PHAR 7161.
Class Meeting Days/Time	Monday-Friday, 9:00 am – 12:00 pm
Class Location	W.T. Brookshire Hall 137
Course Coordinator	Jody K. Takemoto, Ph.D. W.T. Brookshire Hall Room 349 Phone number: 903.566.6108 Email: jtakemoto@uttyler.edu  Office hours: Monday, Tuesday, and Wednesday 1:00-2:00 or by appointment. Preferred method of contact: Email
Required Materials	<ul> <li>All of the course required materials are available through the Robert R. Muntz Library. These materials are available either online (http://library.uttyler.edu/) or on reserve.</li> <li>1. Applied Biopharmaceutics &amp; Pharmacokinetics, 7e. Shargel L, Yu ABC. McGraw-Hill Education © 2016. ISBN: 978-0-07-183093-5.</li> <li>2. Basic and Clinical Pharmacology, 13e. Katzung BG, Trevor AJ. McGraw-Hill Education. ©2015. ISBN: 978-0-07-182505-4.</li> <li>3. 10. Other required materials will be posted on the classes' Blackboard site. The site address is: https://blackboard.uttyler.edu/webapps/login/.  The course recommended materials are available through the Robert R. Muntz Library *.  Recommended Materials  1 Basic Skills in Interpreting Laboratory Data. 5th Edition. Lee M. American Society of Health-System Pharmacist. ©2013. ISBN: 978-1-58528-343-9.  2 Ansel's Pharmaceutical Dosage Forms and Drug Delivery Systems. 10th ed. Lloyd Allen et. Al. Wolters Kluwer Health. ©2010. ISBN: 978-0-7817-7934-0  The course may include, but are not limited to, the following activities: 1. Independent study of selected readings. 2. Individual readiness assessment tests (IRATs). 3. Team-based learning, active learning strategles: a. Team readiness assessment tests (IRATs). b. Team application of content and concepts  Upon completion of this course each student will be able to: 1. Explain the evolution of the practice of pharmacy. 2. Describe the importance and sources of drug information in the practice of pharmacy. 3. Discuss the use of nutrition, vitamins and herbals, and their role in promoting and maintaining health and wellness. 4. Relate biochemical, cellular, immunological, and molecular mechanisms to health and disease. 5. Use biopharmaceutic and pharmacokinetic properties to determine the best formulation/dose of medication for individual patients. 6. Discuss strategies for addressing health literacy in pharmacy practice. 7. Predict biochemical and cellular consequences from the mechanism of action of drug, vitamin, and/or mineral. 8. Describe the fundamental legal aspects of pharmacy practice. Grades will be determined based on evaluation of individual and team readiness assessment tests (IRATs, tRATs), individual and team cumulative assessment tests (IRATs, tRATs) and cATs and cATs may consist of multiple-choice, true/false, short-answer, essay, and problem-based questions.  All students must demonstrate minimal individual competency. Therefore, students (1) must earn		7.

Describe the fundamental legal aspects of pharmacy practice.  Grades will be determined based on evaluation of individual and team readiness assessment tests (iRATs, tRATs), individual and team cumulative assessment tests (iCATs, tCATs), midterm examinations, final written examinations, graded application assignments, participation in team-based projects, peer evaluations and other assessment methods that may include Objective Structured Clinical Examinations (OSCE). Examinations, RATs and CATs may consist of multiple-choice, true/false, short-answer, essay, and problem-based questions.  All students must demonstrate minimal individual competency. Therefore, students (1) must earn a simple average of ≥ 70% on the summative assessments (eg. CATs, midterm examinations and final written exam) and (2) earn an overall individual component score of ≥ 70.0% to earn a letter grade of 'C' or higher. (See algorithm below).  Grading Policy  If the student's simple average for the summative assessments is < 70%, the simple average corresponds to the respective letter grade and is the final course grade.  If the student has an individual component score of ≥ 70.0%, the student earns the team component scores, which will be added to their individual scores for calculation		
Student Learning Outcomes (SLOs)  4. Relate biochemical, cellular, immunological, and molecular mechanisms to health and disease.  5. Use biopharmaceutic and pharmacokinetic properties to determine the best formulation/dose of medication for individual patients.  6. Discuss strategies for addressing health literacy in pharmacy practice.  7. Predict biochemical and cellular consequences from the mechanism of action of drug, vitamin, and/or mineral.  8. Describe the fundamental legal aspects of pharmacy practice.  Grades will be determined based on evaluation of individual and team readiness assessment tests (iCATs, tCATs), midterm examinations, final written examinations, graded application assignments, participation in team-based projects, peer evaluations and other assessment methods that may include Objective Structured Clinical Examinations (OSCE). Examinations, RATs and CATs may consist of multiple-choice, true/false, short-answer, essay, and problem-based questions.  All students must demonstrate minimal individual competency. Therefore, students (1) must earn a simple average of ≥ 70% on the summative assessments (eg. CATs, midterm examinations and final written exam) and (2) earn an overall individual component score of ≥ 70.0% to earn a letter grade of 'C' or higher. (See algorithm below).  If the student's simple average for the summative assessments is < 70%, the simple average corresponds to the respective letter grade and is the final course grade.  If the student has an individual component score of ≥ 70.0%, the student earns the team component scores, which will be added to their individual scores for calculation

#### **PHAR 7601 Course Schedule**

WEEK	DAY	TOPIC	INSTRUCTOR
1	8/22	History of Pharmacy*	Dr. Brazill
	8/23	Drug Discovery and Development	Drs. Loredo and Takemoto
	8/24	Drug Information Introduction, Types of literature, Legal Aspects*	Dr. Adams
	8/25	Drug Information Databases (Micromedex, Lexicomp, TabletID)	Dr. Adams
	8/26	Mechanisms of Health and Disease	Drs. Coyne, Jones, and Veronin
2	8/29	Basic Biochemistry: Cell Biology Cell Type and Structure*	Dr. Pearson
	8/30	Basic Biochemistry: Cell Biology Cellular Function*	
	8/31	Immunology: Cellular Components and the Lymphatic System*	Dr. Loredo
	9/1	Immunology: Innate Immunity and Inflammation*	
	9/2	Immunology: Adaptive Immunity	
3	9/5	Labor Day	
	9/6	Immunology: Hypersensitivity and Autoimmunity*	Dr. Loredo
	9/7	Immunology: Vaccines and Vaccine Immunology	
	9/8	Biochemistry: Macromolecules*	Dr. Pearson
	9/9	Biochemistry: DNA Synthesis *	
4	9/12	Assessment	All Faculty
	9/13	Biochemistry: Protein Synthesis*	Dr. Pearson
	9/14	Biochemistry: Enzymatic Pathways and Kinetics*	
	9/15	Biochemistry: Krebs Cycle*	
	9/16	Law: Federal and State Law Concerning Controlled Substances*	Dr. Coleman
5	9/19	Nutritional Guidelines and Biochemistry of Nutrition*	Dr. Brazill
	9/20	Introduction to Laboratory Values*	Dr. Dunn
	9/21	Crude drugs, Stereochemistry, Functional groups*	Dr. Khashan
	9/22	Pharmacognosy, Vitamins, and Herbals*	Dr. Brazill
	9/23	Vitamins and Herbals	Dr. Brazill
6	9/26	Assessment	All Faculty
	9/27	Vitamin and Herbals*	Dr. Brazill
	9/28	CAM Practitioners	
	9/29	Health Literacy*	Drs. Wallace and Yu
	9/30	Preformulations*	Dr. Gunaseelan
7	10/3	Preformulations	
	10/4	Pharmacokinetics: Fundamentals*	Dr. Takemoto
	10/5	Pharmacokinetics: Fundamentals	
	10/6	Pharmacokinetics: One Compartment Models*	
	10/7	Pharmacokinetics: One Compartment Models	
* Indicat	- DAT		·

<sup>\*</sup> Indicates RATs

Please note that dates, topics, and assignments are subject to change. In the event of a change, you will be given ample notification of the change.

#### **Examination Policies:**

The term exam in this document refers to any assessment (e.g. RAT, CAT, final exam, OSCE, skills test/assessment) used for formative or summative student learning outcome evaluations.

Most exams will be taken using ExamSoft. It is the students' responsibility to have a device that is compatible and works with ExamSoft under exam conditions. Each student will use a privacy screen on the device used to take the exam.

- Students will be allowed entry to the classroom after an exam has started ONLY at faculty discretion.
- Exams using ExamSoft will be available for downloading 24 hours in advance of
  the exam. All students must have the exam downloaded and be prepared to start
  the exam at the scheduled exam time. Students will NOT receive additional time if
  the exam was not downloaded in advance and the student has technical difficulties
  as a result. The password to access the exam will be given at the time the exam is
  scheduled to begin.
- Some exams are administered on multiple days (i.e., laboratory assessments or assignments) or throughout the day (i.e., OSCEs). In such instances, students already completing the exams shall not share the questions or activities with students yet scheduled to take the exams. Sharing of any part of the exams with those who have not yet taken the exam is considered academic dishonesty and the person(s) receiving the information will receive a score of zero (0), as well as the person(s) sharing the information about the exams.

 All personal items, such as Google glasses, purses, books, backpacks, cellphones, pagers, notebooks, and briefcases will be left in the front or back of the room during testing.

- Silence will be enforced during exam time. No one may be enter or leave the room during the exam without the permission of the exam proctor(s) to avoid distracting other students during the exam.
- Students will not share calculators during exams. Calculators will be provided by the college during the exam period if required.
- Course exams will not be returned. A review of the exam will be conducted at the discretion of the faculty. Exam reviews may be scheduled with faculty during office hours and within TWO (2) business days from the return of the exam grades.
- Official notification of exam scores will be posted on Blackboard after faculty analysis and review. Every effort will be made to post the scores in a timely manner.
- Any student achieving an exam grade <70% MUST schedule an appointment with the course coordinator within two business days from the official notification of the exam grades.
- If an absence for an exam is necessary, the student is responsible for notifying the
  course coordinator PRIOR to the exam with an acceptable reason. Failure to meet
  this requirement may result in denial of opportunity to make up the exam at a later
  date. Make-up exams may be given at the time designated by the course
  coordinator.
- Exams missed for medical/emergency will require official documentation and the documentation must be given to the coordinator no later than five (5) business days after the exam.
- Make-up exams may only be given at the discretion of the course coordinator or relevant faculty and may be in a different format from the original exam.
- Any student suspected of cheating may be immediately removed from the testing area. Strict enforcement of the college policy on cheating is maintained.

# Examination and/or Major Assignment Policies and Procedures

Appeals Policy

All grading related appeals for a particular project or assignment must be submitted

	IN WRITING to the responsible instructor and course coordinator within TWO (2)
	business days of the publication of that grade on Blackboard. All appeals must be defended with relevant evidence from appropriate current textbooks and primary literature, and must be properly referenced.
	A student can file an appeal if there is a disagreement with a final course grade. The appeal must be submitted within TWO (2) business days of online posting of final course grades. The student must initiate a formal grade appeal process by completing the Course Grade Appeal form available on the College web page and by submitting this form to the course coordinator.
Classroom Behavior	Overall, students are expected to exhibit professional behaviors as described in the
Expectations	Student Handbook.

Additional Course Information	
Student Rights and Responsibility	All students are responsible for reviewing the syllabus and abiding by all that is within it. Students are encouraged to seek clarification within the first week of the course. The student is responsible to know and understand the policies that affect her or his rights and responsibilities as a student at UT Tyler. Please follow this link: <a href="http://www2.uttyler.edu/wellness/rightsresponsibilities.php">http://www2.uttyler.edu/wellness/rightsresponsibilities.php</a> .
Course Website	Course faculty and coordinators will use Blackboard course management tools ( <a href="https://blackboard.uttyler.edu/webapps/login/">https://blackboard.uttyler.edu/webapps/login/</a> ) to facilitate communication and to provide access to materials, assessment scores, and other resources. Materials will be posted to the website before formal student engagement and readiness assessment tests.
Instructor Communication and Response	Course faculty-strive to have open communication with students both in and outside of the classroom. Students are encouraged to contact faculty to discuss questions or other issues related to the course. Responses to phone or email messages will be transmitted during regular working hours. If you do not have a response within a reasonable time, please check to assure you have used the correct email address or phone number and follow up if with course faculty if needed. Faculty will respond to student questions received during evenings and weekends once they are back in the office during regular business hours. Communications from faculty and course coordinators to students, regarding the course, will be made via the Blackboard website and/or UT Tyler email.
Attendance and Make-up Policy	Given the importance of classroom discussion to successful learning in the class, classroom absences will only be excused under exceptional circumstances. In such cases, students are required to make every reasonable effort to notify the course coordinator in advance.  Late Arrival: A student may be given credit for classroom participation and contribution if they arrive late and the late arrival was due to circumstances beyond the student's control. In all cases, the decision of the course coordinator with input from the instructor for the day is final. Students will not be allowed to enter the room after the beginning of iRATs until after its conclusion to avoid distracting other students during the exam.
	Known Excused Absence: A student may request an excused absence from class/pharmacy practice experiences for known personal, compassionate, professional, or health-related reasons. Known excused absence requests are initiated in writing to the course coordinator. Generally, <i>known</i> excused absences are for one or two academic days. Known excused absences greater than five academic days in a session may require a student to withdraw from the course. Students will be required to present appropriate documentation to support a request for a known excused absence. The decision to grant a known excused absence is at the

discretion of the course coordinator and is final.

Unexpected Excused Absence: In the event of unexpected circumstances, students are responsible for submitting a request to the course coordinator requesting the unexpected absence be considered excused within three (3) days of the absence. Students will be required to present appropriate documentation to support a request for an unexpected excused absence. It will be the student's responsibility to make arrangements for making up missed assignments and/or examinations. If the assignment and/or examination cannot be made-up but is considered excused, then the missed activity should not count against the student's final grade; however, this is at the discretion of the course coordinator. The decision to grant an unexpected excused absence is at the discretion of the course coordinator and is final.

The course coordinator(s) in conjunction with instructors will determine if a student's absence results in the need for the completion of additional/supplemental work in order to satisfy course requirements. No makeup assignments or exams will be given outside the attendance and make-up policy outlined in the syllabus. Students will receive a score of zero (0) for assignments not completed within the time frame established by the course coordinator, generally not more than 5 days (including weekends).

**Unexcused Absence:** Students will receive a ZERO (0) for all missed assignments or projects.

The last day to withdraw from the course without penalty is August 29, 2016. The last day to withdraw from the course with an automatic grade of "W" is September 23, 2016. To withdraw from the course, students should initiate withdrawals with the instructor. If you are withdrawing from this course, you are required to withdraw from the corresponding Integrated Laboratory course (PHAR 7241) and Introductory Pharmacy Practice Experience (PHAR 7161) and vice versa. Your course instructor is not responsible for officially withdrawing you from the class. If you do not withdraw by the official dates you will automatically receive a letter grade of "F".

### Course Withdrawal and Census Date

The Census Date is the deadline for many forms and enrollment actions that students need to be aware of. These include:

- Requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit;
- Receiving 100% refunds for withdrawals. (There is no refund after the Census Date);
- Schedule adjustments (section changes, adding a new class, dropping without a "W" grade);
- Being reinstated or re-enrolled in classes after being dropped for non-payment;
- Completing the process for tuition exemptions or waivers through Financial Aid.

Handling of Student Accommodations

In accordance with Section 504 of the Rehabilitation Act, Americans with Disabilities Act (ADA) and the ADA Amendments Act (ADAAA) the University offers accommodations to students with learning, physical and/or psychiatric disabilities. If you have a disability, including non-visible disabilities such as chronic diseases, learning disabilities, head injury, PTSD or ADHD, or you have a history of modifications or accommodations in a previous educational environment you are encouraged to contact the Student Accessibility and Resources (SAR) office and schedule an interview with the Accessibility Case Manager/ADA Coordinator, Cynthia Lowery Staples. Please contact the SAR office if you are unsure if the above criteria apply to you and have questions or concerns. For more information or to set up an appointment please visit the SAR office located in the University Center, Room 3150 or call 903.566.7079. You may also send an email to cstaples@uttyler.edu.

	Students must notify instructors of accommodation needs at least five (5) business days prior to needing the accommodation so that the course coordinator has adequate time to coordinate with the Student Accessibility and Resources (SAR). A letter from the SAR office must accompany this request. Authority for disability accommodation can be found in the Handbook of Operating Procedures, Section 5.14.1 and can be found at: <a href="http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs/5-14-1-Disability-Accommodation">http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs/5-14-1-Disability-Accommodation</a> .
Notice of Permission / Non- Permission	All course materials (including but not limited to; audio, visual, print and electronic) are copyrighted. External distribution outside of Blackboard or for purposes other than classroom use is prohibited without first gaining permission. For additional information regarding the use of copyrighted materials, please refer to the Handbook of Operating Procedures, 2.3.1. Copyrighted materials <a href="http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-200-General-Policies-and-Procedures/2-3-1-Copyrighted-Materials">http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-200-General-Policies-and-Procedures/2-3-1-Copyrighted-Materials</a> .
Holidays and Religious Observations	Students who anticipate the necessity of being absent from class due to the observation of a major religious observance must provide notice of the date(s) to the instructor, in writing, by the second class meeting. Authority for approved absence policy can be found in the Handbook of Operating Procedures, Section 5.10.1 and can be found at: <a href="http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs/5-10-1-Approved-Student-Absences">http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs/5-10-1-Approved-Student-Absences</a> .
Professionalism Expectations / Handling of Academic Misconduct	Academic Misconduct and Consequences  The University policies regarding academic misconduct will be strictly enforced. Student suspected of cheating during a quiz or examination will receive zero points for the assessment and will be reported to the College's Office of Academic Affairs and/or the University of Texas at Tyler Office of Judicial Affairs for further sanctions. (See Examination and/or Major Assignment Policies and Procedures). Upon confirmation of academic misconduct in these circumstances of serious disregard for academic integrity, course faculty may recommend sanctions including that the student be awarded a failing grade in the course.  Course faculty will adhere to a no tolerance policy for cheating and expect students to abide by university, college and program policies. The Honor Code will apply at all times. Students also are expected to help enforce this code.  Students are expected to work independently on all individual assignments, quizzes and exams. Group projects will be clearly identified. The use of any resources other than the student's own recollection and reasoning ability on an individual assignment, paper, quiz, or exam is cheating. Inappropriate use of electronic or wireless technology (e.g., cellular telephone, pagers, PDA's, laptops) during quizzes or examinations is considered academic misconduct. Students must be honest when reporting on work completed within the course. Putting a student's name on a report that he/she did not actually contribute to in a meaningful way is dishonest and is considered cheating. Both the student whose name is placed on the report or assignment and the student(s) doing so will be sanctioned.  Plagiarism, another form of cheating that occurs when another person's work is used or copied without proper acknowledgement, is not condoned and will not be allowed.  Students may be asked to move during an examination if proctors believe a student is knowingly committing or unknowingly contributing to academic misconduct.  Students are encouraged to ob

	Operating Procedures, Sections 5.5.1 and 5.5.2 and can be found at:
	Section 5.5.1 – Student Conduct: <a href="http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs">http://uttyler.smartcatalogiq.com/en/UTTyler/2015-2016-HOP/Series-500-Student-Affairs</a> .

Social Security and FERPA Statement	It is the policy of The University of Texas at Tyler to protect the confidential nature of social security numbers. The University has changed its computer programming so that all students have an identification number. The electronic transmission of grades (e.g., via e-mail) risks violation of the Family Educational Rights and Privacy Act; grades will not be transmitted electronically.
FERPA Statement for Courses That Utilize Plagiarism Detection Software	The University of Texas at Tyler has an account with an automated plagiarism detection service which allows instructors and students to submit student assignments to be checked for plagiarism. Faculty reserve the right to 1) request that assignments be submitted as electronic files and 2) electronically submit assignments to SafeAssign, or 3) ask students to submit their assignments to SafeAssign through the LMS course management program of UT Tyler. Assignments are compared automatically with a database of journal articles, web articles, and previously submitted papers. The instructor receives a report showing exactly how a student's paper was plagiarized. For more information about the University's policies regarding plagiarism, go to Subchapter 8-800-Student Standards of Conduct in the Manual of Policies and Procedures for Student Affairs. It can be found at: <a href="http://www.uttyler.edu/mopp/documents/8Student%20Conduct%20and%20Discipline.pdf">http://www.uttyler.edu/mopp/documents/8Student%20Conduct%20and%20Discipline.pdf</a> .
	Please remove your name from the body of your paper and replace it with your UT Tyler ID#. Also remove your name from the file name and replace it with your UT Tyler ID# (e.g., "U12345678 Essay 1.docx") before submitting it to SafeAssign. Pursuant to the provisions of the Family Educational Rights and Privacy Act (FERPA), students are requested to maintain confidentiality as a way to keep their personal contact information (i.e. name, address, telephone) from being disclosed to vendors or other outside agencies. By your submission, you are also agreeing to release your original work for review for academic purposes to SafeAssign.
Student Absence for	If you intend to be absent for a university-sponsored event or activity, you (or the
University- Sponsored Events and Activities	event sponsor) must notify the instructor at least two weeks prior to the date of the planned absence. At that time the instructor will set a date and time when make-up assignments will be completed.
Emergency Exit and Evacuation	Everyone is required to exit the building when a fire alarm goes off. Follow your instructor's directions regarding the appropriate exit. If you require assistance during an evacuation, inform your instructor in the first week of class. Do not re-enter the building unless given permission by University Police, Fire department, or Fire Prevention Services.
Emergency Preparedness for Academic Continuity	In the event of an emergency, it may be necessary for UT Tyler to suspend normal operations. During this time, UT Tyler may opt to continue delivery of instruction through methods that include but are not limited to: Blackboard, Skype, and email messaging and/or an alternate schedule. It's the responsibility of the student to monitor Blackboard site for each class for course specific communication, and the main UT Tyler, College, and department websites and emails for important general information.
Syllabus Content Change Disclaimer Instructional	The course coordinator retains the right to make adjustments to the course content, schedule or grading policy as deemed necessary to enhance student learning.  If you experience technical problems or have a technical question about this course,

Technology	you can obtain assistance by emailing itsupport@patriots.uttyler.edu or call
Assistance	903.565.5555.
	When you email IT Support, be sure to include a complete description of your
	question or problem including:
	The title and number of the course
	The page in question
	If you get an error message, a description and message number
	What you were doing at the time you got the error message
	"Netiquette" is network etiquette, the do's and don'ts of online communication.
Netiquette Guide	Netiquette covers both common courtesy online and informal "rules of the road" of
	cyberspace. Review and familiarize yourself with the guidelines provided.
