**Information for students seeking accommodations and medical providers:**

The Student Accessibility and Resources office (SAR) complies with all federal and state disability laws to ensure equal access for qualifying individuals with a disability to educational programs, services, and activities. Registration with SAR as a student with a disability and a complete intake appointment is required.

To determine reasonable accommodations for housing, SAR requires documentation of the student’s condition from their treating licensed clinical professional or health care provider. **The qualified provider must be thoroughly familiar with the student’s condition and functional limitations and must make a direct connection to the requested accommodation based on the student’s current functional limitations. The qualified provider completing this form cannot be a relative of the student, must reside within the student’s home state, state of permanent residence or tribal services provider where the student was diagnosed and treated.** Internet certificates or any other Internet acquired documentation will not be accepted.

*\*All documentation submitted to the Student Access and Resource Center is considered confidential. Student Accessibility and Resources may share minimal information with appropriate University staff to process the request.*

**No animal that can be vaccinated is permitted in University Housing without current vaccination and shot records.**

I authorize The University of Texas at Tyler, Student Accessibility and Resources office to receive documentation and speak to my current, licensed, qualified clinical professional or health care provider.
