MISSION

UT Tyler is committed to student success by providing a uniquely balanced student experience in an environment of innovative teaching and research shaped to serve and advance the educational, economic, technological, and public interests of East Texas and beyond.

VISION

We aspire to be the primary educational and economic driver of East Texas.

STRATEGIC PLAN PROCESS

The UT Tyler Strategic Plan is founded upon the “Cycle of Success Model.” This model predicts institutional success as a reciprocating and ultimately self-perpetuating function of the relationship between 1) brand development, 2) alumni careers, 3) student development/success and 4) resource opportunity. Successful students become successful alumni who boost the reputation of, and contribute financially and intellectually back to, the university. This draws more resources to the university, enabling even more student success. Through multiple open sessions involving the campus community, the pillars of the Strategic Plan were developed. The four pillars supporting the cycle of success include: 1) student success, 2) student engagement, 3) research and scholarship, and 4) community engagement. A “fifth” pillar or strategic goal is that UT Tyler operates using effective, efficient, and creative strategies by supporting the other initiatives behind the scenes working toward institutional success. We operate with the understanding that the well-being of the region and the success of UT Tyler are intertwined.

INITIATIVES FOR SUCCESS

Through an open submission process, faculty and staff generated innovative ideas to advance the mission and vision of UT Tyler. The ideas generated from this process were organized into initiatives under each pillar. Initiatives are highlighted below along with a progress timeline.
THE UNIVERSITY OF TEXAS AT TYLER

1. Fall Enrollment - 2019
2. 12-month enrollment – unduplicated headcount – most recent period July 1, 2018 - June 30, 2019
3. 6-yr Freshman Graduation Rate - Fall 2013 first-time, full-time undergraduates completing a baccalaureate degree before Fall 2019
4. 4-yr Transfer Graduation Rate – undergraduate transfers entering in Fall 2015 with at least 30 credit hours completing a baccalaureate degree before Fall 2019
5. Degrees Awarded - July 1, 2018 and June 30, 2019
6. 5-yr Master’s Graduation Rate – most recent results include those entering in Fall 2014 and completing a master’s degree before Fall 2019
7. 10-yr Doctoral Graduation Rate - most recent results include those entering in Fall 2009 and completing a doctoral degree before Fall 2019
8. 1-Yr Freshman Retention Rate - first-time, full-time undergraduates in Fall 2018 and enrolled in Fall 2019
9. 1-Yr Transfer Retention Rate - undergraduate transfers entering in Fall 2018 with at least 30 hours and enrolled in Fall 2019
10. Research Proposals Awarded – proposals awarded during the academic year – most recent 2018-2019
11. External Funding Amount Awarded – dollar amount of proposals awarded during the academic year, in millions – most recent 2018-2019
PILLAR I: STUDENT SUCCESS

The initiatives of Pillar I focus on supporting educational and career goals with high impact, data-driven solutions.

Strategic Goal: Catalyze student retention, graduation, and career progression.

Key Initiatives

Establish the OnCourse Program and Encourage the Adoption of Open Educational Resources

An internal grant was launched from Undergraduate and Online Education to support faculty in adopting Open Educational Resources (OER) materials. Proposals were accepted for three courses. These efforts combined with the creation of OER textbooks associated with the OnCourse grant enable UT Tyler to decrease the cost of instruction for our students.

As part of this initiative, the UT Tyler Press released the first free book in the series: “Uncovering Texas Politics in the 21st Century.” The adoption of this free resource is estimated to save incoming students more than $100,000 in out-of-pocket costs.
Pilot On-demand Degree Programs

The Bachelor of Science in Nursing (BSN) Program will offer year-round program consisting of three 15-week semesters, effective for spring 2020, in an effort to address the nursing shortage. The School of Nursing also offers the 7-week and concurrent RN-BSN program. A new concurrent ADNBSN degree also was launched in summer 2019. This initiative offers an innovative option for students currently enrolled in an ADN program to simultaneously take BSN courses. Students will graduate with their ADN and BSN at the same time.

Provide Professional Development for Faculty Emphasizing Learner-Centered Teaching

The Center for Excellence in Teaching and Learning (CETL) provides faculty with resources and opportunities for professional development. CETL conducts new faculty orientation as well as ongoing professional development opportunities for faculty each month.

Faculty Learning Communities engage faculty in various initiatives such as service learning, student research, and global awareness. Additionally, all faculty are invited to attend the workshops, seminars, and keynote speaker sessions hosted throughout the year.
**Honors 360**

The Honors Program at UT Tyler is designed to provide an intellectually rigorous and innovative program for those students who love to be challenged and stimulated by new ideas, new ways of thinking and exciting interdisciplinary opportunities.

The UT Tyler Honors Program engages students with the opportunity to learn in smaller classes and provides one-on-one advising, career coaching, and experiential learning. Honors Peer Mentoring Program contributes to the vertical integration of Honors students by allowing students of different classifications to connect with one another.

**Timeline of Initiatives**

| • Student Services Training  
• Honors 360  
• Mentoring Programs  
• Open Educational Resources (UT Tyler Press)  
• Professional Development for Faculty |
PILLAR II: STUDENT ENGAGEMENT

The initiatives of Pillar II are meant to ensure each UT Tyler student has access to a rich, individualized educational experience.

Strategic Goal: To stimulate the growth of traditions and programming that engages students in unique and compelling ways.

Key Initiatives

*Design and Deliver the Career Success Conference*

The UT Tyler Career Success Conference (CSC) brought nearly 200 business and industry leaders from a variety of backgrounds to share their experiences and wisdom. Students could choose to attend a variety of topics across multiple disciplines. In 2019, approximately 6000 students participated.
**Graduate Student Workshops**

A series of online workshops was designed for current and prospective graduate students. The Graduate School, in partnership with several departments on campus including the Robert R. Muntz Library and the Office of Research and Scholarship, created this series to help students expand skills in the areas of academic and professional/career development. All workshops are uploaded to the Graduate Student Professional Development Center website.

---

**Pursue the Advancement of Athletics from NCAA DIII to NCAA DII**

UT Tyler was accepted into the National Collegiate Athletic Association (NCAA) Division II membership process in 2018, joining the Lone Star Conference. This transition is a multiyear endeavor and UT Tyler is successfully moving forward towards DII status.
Polling Center

The UT Tyler Center for Opinion Research is a full-scale polling center, operated by the Department of Political Science & History. The polling center includes professional computer assisted telephone interviewing software and work stations for students. Undergraduate and graduate students work shifts as part of their curriculum, and enables them to learn about survey research and data collection. The polling center was cited as one of the most accurate in the race between Ted Cruz and Beto O’Rourke, and was used by several nationwide news sources.

Patriots Engage

The initial launch of Patriots Engage occurred in spring 2019 with university events. Over 3800 individuals attended at least one event. Of those students who attended five or more events, their GPA averaged .08 points higher. This increased .14 points for those attending 20 or more.

A collaboration with The Dallas Morning News was announced in January 2020. This collaboration will include a series of polls outlining Texas voters’ preferences on candidates leading up to the November 2020 election.

Events through The Department of Student Engagement for fall 2019 had over 5500 check-ins and 1880 unique students, thereby reaching over 20% of the student population. Future plans include increasing the use of learning outcomes and co-curricular transcripts, as well as rolling out Patriot Paths in fall 2020.
Timeline of Initiatives

- **Modify/Close**
  - Provide opportunities for students to attend arts education performances

- **Implemented and Completed**
  - Formalize a Student Organization Activity and Engagement Contest

- **Implemented and Ongoing**
  - Incentive Programs to Support Student Involvement in Research
  - Career Success Conference
  - Distinguished Lecture Series Engagement with Honors Students and Faculty
  - Graduate Student Workshops
  - NCAA DIII to NCAA DII in Athletics
  - Campus Master Plan
  - “Third Spaces” for Student Engagement Around Campus

- **Added/Moved Initiatives**
  - Patriots Engage (Student Success 360)
  - Polling Center
PILLAR III: RESEARCH AND SCHOLARSHIP

The initiatives of Pillar III will foster discovery through scientific, technological, intellectual and creative expression.

Strategic Goal: To endorse discovery that expands knowledge and transforms East Texas

Key Initiatives

East Texas Research Conference

The inaugural East Texas Research Conference was held in May 2019 and was co-sponsored by UT Health Science Center at Tyler, Texas College, and Jarvis Christian College. The theme was “Making East Texas Communities Stronger” and showcased innovative scholarship to advance education, science and technology, create entrepreneurship opportunities, and improve regional healthcare.
Research and service topics were presented in four major categories:

- Economic Development and Entrepreneurship - Unemployment and underutilization of labor, regional economic development, women-owned businesses, Hispanic entrepreneurship, and the impact of Loop 49 on regional economic development.

- Education and Literacy - Innovative mathematics and English curricula, project-based learning, dual credit pedagogy, school- and community-based literacy interventions, the benefits of early childhood learning, and the impact of professional development on teachers' self-efficacy.

- Health and Wellness - Collaborative efforts addressing health issues in East Texas and the results of clinical trials to evaluate new therapies, drugs and wearable sensors.

- Environmental and Infrastructure - Environmental risk assessments, freshwater mussels research, the status of hydrilla on Lake Tyler, and the structure of urban animal communities.

**Honors Lyceum**

The Lyceum is UT Tyler’s largest student research showcase. The term “lyceum” refers to the school in ancient Athens founded by the philosopher Aristotle. Students at this ancient Lyceum studied and reported the world around them; in the same way, UT Tyler scholars present their research to the community. Research is presented on a wide range of topics.

The fourth annual Lyceum, cohosted by the Honors Program and the Center for Excellence in Teaching and Learning, was in April 2019. Undergraduate and graduate students participated in poster and oral presentations, with winners in each category. The Lyceum included 158 student participants and 101 research projects.

The fifth annual Lyceum will be completely virtual spring 2020. The Lyceum will provide both our undergraduate and graduate students a chance to participate in the exchange of ideas that is so vital to the life of the academy.
Internal Grants Program

To advance research and scholarship goals outlined in the strategic plan, the Internal Grants Program provides seed funding for faculty and staff in several categories. The program is administered by the Office of Research and Scholarship using a competitive review process, under the advisement of the University’s Research Council. The awardees are expected to use the results from the internal grant to seek external funding opportunities. Proposals are accepted in the following categories:

<table>
<thead>
<tr>
<th>Grant Category</th>
<th>Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>Presidential Interdisciplinary Grant</td>
<td>Foster an environment of collaborative research and scholarship across disciplines at UT Tyler</td>
</tr>
<tr>
<td>New Faculty Grant</td>
<td>Enable new tenure-track faculty to initiate their research, scholarly activity, and creative endeavors at UT Tyler, leading to the establishment of sustainable research and scholarship.</td>
</tr>
<tr>
<td>Bridge Grant</td>
<td>Support research projects that require seed funding to collect proof of concept data needed to submit or resubmit a proposal for external funding; or to sustain research and scholarship of mid-career faculty in under-funded disciplines.</td>
</tr>
<tr>
<td>Undergraduate Research Grant</td>
<td>Foster and encourage active participation in research by undergraduate students.</td>
</tr>
<tr>
<td>East Texas Research Grant</td>
<td>Encourage research and scholarship that addresses pressing issues or challenges relevant to East Texas.</td>
</tr>
<tr>
<td>Presidential Staff Research Grant</td>
<td>Support staff involvement in research and scholarship.</td>
</tr>
</tbody>
</table>

Hibbs Institute for Business and Economic Research

The Hibbs Institute for Business and Economic Research is a unit of the Soules College of Business. The mission of the Hibbs Institute is to help businesses, regional economic development councils, and local governments expand business activity in greater East Texas. The Institute presents useful business and economic data and provides professional economic research for companies and investors considering locating, expanding or investing in East Texas. The common goal is to increase economic activity and the economic success of all East Texans.

Additionally, white papers and technical reports on topics affecting the regional economy are produced. Hibbs also functions as a small consulting firm that develops special interest projects.

The Hibbs Newsletter is published monthly on a variety of business development topics. Hibbs Briefs are published every month, addressing local economic concerns. The latest Hibbs Brief covers the local impact of the COVID-19.
Implement Grad School 180

With the Research and Scholarship pillar of the strategic plan in mind, The Graduate School launched Grad School 180. This is a Three-Minute Thesis™ type research competition for students involved in writing dissertations, master’s theses, and graduate projects. It is held in April as part of the national Graduate and Professional Student Appreciation Week and showcases graduate students engaged in research and community involvement.

In its second year, Grad School 180 had almost double the number of participants as the launch year, from 25 to 45. The 40+ participants representing a diverse mix of masters and doctoral programs competed for a chance at the top three awards, and in 2019 we also introduced a People’s Choice award.

Local community business and industry leaders were invited to serve as guest judges for Grad School 180, and a local news outlet covered the event. The Grad School 180 finalist videos now reside online in Scholar Works to showcase the breadth of research and talent of our graduate students.

One of the 2019 judges was so impressed with one presentation in particular that she encouraged her media outlet to do a full-length feature story on the issue, which resulted in the faculty and academic department receiving very positive local and regional coverage on an issue that impacts East Texas.
Timeline of Initiatives

Implemented and Completed
- Early Career Tenure-Track Faculty Research Support

Implemented and Ongoing
- Publication Fees for Publishing in Quality Open Access Journals
- Graduate Assistantships Across All Programs
- Grad School 180
- Workshops and Events to Guide Students through the Research Cycle

Added Initiatives
- Internal Grants Program
- Research Council Initiatives
PILLAR IV: COMMUNITY ENGAGEMENT

The initiatives of Pillar IV will encourage local and regional collaborations and partnerships with governmental entities, businesses and nonprofit organizations to improve the quality of life in our communities.

Strategic Goal: To successfully deploy the university’s intellectual capital to address regional needs

Key Initiatives

Leaders and Legends

Founded in 2018, Leaders and Legends is an exclusive forum to bring the top business leaders of East Texas together with renowned business legends.

East Texas business leaders with a company revenue of $10 million or 100+ employees are invited to an exclusive breakfast with the Leaders and Legends speaker. The purpose of this event is not to reach the most leaders but to have a quality, intimate experience with the speaker and other leaders. In addition, the Soules Ambassadors were in attendance and had the opportunity to network with business leaders. Steve Forbes spoke to 81 in 2018 at the Cowan Center and Karl Rove spoke to 84 in 2019 at the Alumni House.
**Adopt a School District**

A partnership between UT Tyler and Winona ISD was created with the focus of supporting and guiding improvement initiatives in areas such as discipline, instruction, and curriculum. A multi-tiered approach focuses on increased training for teachers and interventions for students. Through this partnership, Winona’s score increased from 55 to 85. Recent comparison data between the 2019 STAAR test to the 2018 STAAR test show growth by as much as 88% overall.

“**The most rewarding part is when you see a child that lacks confidence and see their eyes brighten up. Sometimes they just explode with happiness.**”

- Samantha Campbell, education major (as reported to Tyler Morning Telegraph)

---

**100 Communities**

The purpose of the 100 Communities initiative is to travel across the region to build relationships in communities throughout East Texas and determine ways UT Tyler can partner and support the community. The InTune Mobile Unit, Panola College Partnership, Whitehouse ISD Counselor partnership, and the Discovery Science Place Mobile Unit are just a few ways UT Tyler is supporting local communities. The map below shows all of our communities visited:
One initiative from the 100 Communities is the INTUNE Mobile Healthcare Unit. The INTUNE Mobile Healthcare Unit is a collaboration between UT Tyler and Special Health Resources for Texas, with the mission to make healthcare more accessible in rural and under-served areas of East Texas. The unit is equipped like a primary care office, including screening and diagnostic tools. The unit will also provide clinical training hours for nurse practitioner students and allow them to have experience with more diverse patients.

**Senior Adult Growth and Enrichment (SAGE)**

The University of Texas at Tyler turns a focus to the largest segment of the East Texas population: ages 55 and up. Through on-campus events, such as the Day at the Ballpark, the Book Club, Senior Prom, and Dance at half-time, seniors are given opportunities to engage with the UT Tyler community.

**Memory Assessment and Research Center**

The UT Tyler Memory Assessment and Research Center (MARC) is a university center dedicated to improving the lives of Tyler, Smith County, and East Texas community members by providing neuropsychological screening and evaluation services to individuals with suspected or existing cognitive impairment, therapeutic services for their caregivers and family members, and innovative scientific research. The MARC is a collaboration between The University of Texas at Tyler and the Alzheimer’s Alliance of Smith County. The center provides UT Tyler students with training and clinical experience.
Timeline of Initiatives

Planned/In Progress

• Strengthen and Expand Partnerships Between Academic Units and regional Organizations

Implemented and Completed

• Project Lead the Way Partnership to Promote STEM Engagement

Implemented and Ongoing

• Leaders and Legends
• Procurement Diversification of Products and Services in all Areas of Campus
• Hearts for the Arts program
• Graduate School Application Fee Waiver for Current and Former UT Tyler Students
• Adopt a School District Program
• Comprehensive Overnight Summer camps

Added/Moved Initiatives

• 100 Communities
• SAGE: Senior Adult Growth & Enrichment
• Memory Assessment and Research Center (MARC)
We aspire to be the primary educational and economic driver of East Texas
