

SECTION 3 — ADMISSIONS

The UT Tyler Physician Assistant Studies Program is committed to recruiting and admitting applicants who demonstrate academic preparedness, professionalism, integrity, leadership, service, and a commitment to patient-centered care. Through a holistic admissions process, the program seeks to identify applicants whose experiences, attributes, and goals align with the mission and values of The University of Texas at Tyler School of Medicine and the Physician Assistant profession.

The program values applicants who demonstrate a commitment to improving healthcare access and outcomes for East Texas, rural, medically underserved, and diverse communities. The admissions process is designed to support the development of future physician assistants who will serve with compassion, cultural humility, professionalism, and clinical excellence.

3.1 Purpose

The purpose of this Admissions Policy is to establish clear, fair, transparent, and consistently applied admissions requirements, procedures, and practices for applicants seeking admission to the UT Tyler Physician Assistant Studies Program. This policy is intended to ensure compliance with institutional policies and applicable Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) Standards related to admissions, public disclosures, and student selection practices.

The UT Tyler Physician Assistant Studies Program utilizes a holistic admissions process designed to identify applicants who demonstrate academic preparedness, professionalism, integrity, leadership, service, and alignment with the mission and values of the program and The University of Texas at Tyler School of Medicine.

3.2 Scope

This Admissions Policy applies to all prospective applicants, applicants, admissions committee members, faculty, staff, and administrative personnel involved in the admissions and selection processes for the UT Tyler Physician Assistant Studies Program.

This policy governs admissions requirements, application review procedures, interview processes, selection practices, and matriculation requirements for individuals seeking admission into the UT Tyler Physician Assistant Studies Program. All admissions policies and procedures will be applied consistently and in accordance with institutional policies, applicable laws and regulations, and Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) Standards.

3.7 Admissions Process

The UT Tyler Physician Assistant Studies Program utilizes a structured, holistic, and consistently applied admissions process designed to identify applicants who demonstrate academic preparedness, professionalism, leadership, service, and alignment with the mission and values of the program.

Initial Application Screening

All applications undergo an initial review to verify completion of required application materials and confirm that applicants meet the published minimum admissions requirements, including prerequisite coursework and GPA requirements.

Applications meeting minimum admissions requirements may proceed to further admissions review.

Holistic Application Review

Applications are reviewed holistically by program faculty. The review process may consider academic achievement, direct patient care experience, healthcare exposure, leadership, service, professionalism, communication skills, resilience, and alignment with the mission and values of the program.

The UT Tyler Physician Assistant Studies Program utilizes structured review practices designed to promote fairness, consistency, and holistic applicant evaluation.

Interview Selection Process

Selected applicants may be invited to participate in the program's interview process. Interview invitations are extended to applicants who demonstrate strong overall alignment with the program's admissions criteria and mission.

Applicants selected for interview will receive official communication regarding interview dates, scheduling instructions, and additional program information.

Interview Process

The interview process may include multiple mini-interviews (MMI), panel interviews, writing exercises, group activities, or other assessment methods utilized by the program.

Interviews are designed to assess applicants' interpersonal skills, professionalism, ethical reasoning, communication abilities, and overall readiness for graduate-level medical education and clinical practice.

Admissions Decisions

Final admissions decisions are made by the UT Tyler Physician Assistant Studies Program Admissions Committee in accordance with published admissions policies and procedures. The Admissions Committee consists of the Program Director and designated physician assistant faculty members appointed by the program.

Applicants may be offered admission, placed on an alternate list, or denied admission. Admissions decisions are communicated through official University communication processes.

The UT Tyler Physician Assistant Studies Program utilizes a rolling admissions process and may continue reviewing applications and extending offers throughout the admissions cycle until the cohort is filled.

The Program Director maintains final approval authority for all recommended candidates and any admissions process modifications.

3.8 Admissions Preferences

The UT Tyler Physician Assistant Studies Program values applicants whose experiences, attributes, and goals align with the mission and values of the program and The University of Texas at Tyler School of Medicine.

During the admissions review process, consideration may be given to applicants who demonstrate, but not limited to:

- Direct patient care experience
- Physician Assistant shadowing experience
- UT Tyler Affiliation, Including current students or alums
- Affiliation with UT Tyler Clinical Partners
- Leadership and community service activities
- Commitment to rural or medically underserved populations
- Healthcare service within East Texas communities

- Experience living in a rural or medically underserved community
- Research, teaching, mentoring, or volunteer experiences
- Resilience, professionalism, and interpersonal skills
- Alignment with the mission of The University of Texas at Tyler School of Medicine and the UT Tyler Physician Assistant Studies Program

The program values applicants who demonstrate a commitment to improving healthcare access, advancing patient-centered care, and serving the healthcare needs of East Texas and surrounding communities.

All admissions decisions are made through a fair, consistent, and non-discriminatory review process in accordance with institutional policies and ARC-PA Standards.

3.9 Interview Process

Applicants selected for an interview will be invited to participate in an in-person interview experience conducted by the UT Tyler Physician Assistant Studies Program. The interview process will incorporate Multiple Mini Interview (MMI) stations, faculty panel, writing exercises and group activities.

During the interview process, applicants may interact with members of the Admissions Committee, program faculty, staff, students, and/or University representatives. The interview process is designed to assess professional attributes and personal characteristics considered important for success in the PA profession.

Interview evaluations may consider factors including, but not limited to:

- Professionalism and maturity
- Communication and interpersonal skills
- Ethical reasoning and integrity
- Empathy and compassion
- Critical thinking and problem-solving abilities
- Motivation for the Physician Assistant profession
- Understanding of the Physician Assistant role within healthcare
- Alignment with the mission and values of the program
- Ability to work collaboratively within healthcare teams

Applicants selected for interview will receive official communication regarding interview scheduling, participation requirements, and additional interview-related information.

Participation in the interview process does not guarantee admissions into the program.

3.10 Technical Standards

Applicants accepted into the UT Tyler Physician Assistant Studies Program must be able to meet the program's Technical Standards, with or without reasonable accommodation.

The Technical Standards identify the essential physical, cognitive, sensory, motor, behavioral, communication, and professional requirements necessary to participate in the didactic, laboratory, simulation, and clinical components of the program and to provide safe and effective patient care.

Applicants and enrolled students are responsible for reviewing and understanding the UT Tyler Physician Assistant Studies Program Technical Standards Policy prior to matriculation.

Reasonable accommodations are determined through the UT Tyler Student Accessibility and Resources (SAR) Office in accordance with applicable law and University policy.
