EDUCATION

M.A., English, University of Texas at Tyler, May 2025

B.A., English Education, University of Texas at Tyler, May 2023

- ELA 7-12th grade (Secondary)

RESEARCH & TEACHING INTERESTS

First-Year Composition and Transition, Writing Transfer, Developmental Writing, and Creative Writing

TEACHING EXPERIENCE

Lecturer, Developmental Writing and First Year Composition – ENGL 0300, 1301, and 1302; The University of Texas at Tyler, August 2025 – Present

- Developing course materials that align with learning outcomes and institutional standards
- Designing syllabi, assignments, and assessment rubrics focused on writing, critical thinking, and research skills
- Supporting first-year students in their transition to college-level expectations
- Participating in department meetings to understand and collaborate with faculty on curriculum development and assessment initiatives, and to celebrate colleagues' achievements
- Integrating online resources/platforms into teaching (NotebookLM, ChatGPT, Canva)
- Regularly evaluating and revising my teaching strategies based on student outcomes and feedback
- Engaging in professional development through workshops or conferences focused on writing instruction, artificial intelligence, and pedagogy

Teaching Assistant, First Year English Composition – ENGL 1301 and 1302, University of

Texas at Tyler, August 2024 – May 2025

- Collaborated closely with mentor professor (Dr. Mark Sidey) to develop and review First-Year Composition curriculum
- Met with Dr. Sidey regularly to discuss content questions, curriculum ideas, and student growth
- Paired my research and understanding from Composition Practicum with my experience teaching in the public school system to help create a FYC curriculum that optimally fit First -Year Composition students’ varying levels of understanding and motivations
- Initiated a student-teacher collaborative approach to learning in the classroom, mutually exploring new topics like AI and how it can be integrated into the FYC classroom
- Worked with my mentor to create lessons that allocate time for students to practice transfer and professionalism, building their proficiency in technology and crucial job skills
- Encouraged students to actively participate in learning about their job field outside of the classroom and included projects that require field research and peer collaboration on their own time within the curriculum
- Initiated active student-instructor collaboration over the depth and direction in which their projects go, allowing an advanced start on career readiness, based on top interests and valuable research questions
- Championed and guided skills like self-motivation and sustainable drive in students’ work
- Communicated information in alternative ways that made content easier to understand
- Prioritized my availability for office hours and communication about class, their job fields, academic help, student engagement, and campus resources
