Instructor's Course Policies

Revisions: A core premise of this course is that effective writing is the product of a process of brainstorming, drafting, and revisiting our initial drafts for ways to improve it. As such, in this course you will revise all of your major writing projects after receiving my feedback as well as feedback from your peers.

Late Work: Please turn in all work by the due date. Late assignments will be deducted 10% for each day over the due date the assignments are late.

Canvas: All your assignments will be submitted to Canvas. If you cannot log into Canvas, contact the Office of Digital Learning via phone at **903-566-6200** or via e-mail at **canvas@uttyler.edu**. You may have difficulty viewing my feedback on your papers in Canvas if using a cell phone—you'll need to use a laptop or PC to view all my feedback in Canvas without problems.

E-mail: E-mail is my preferred method of communication. Generally, I make an effort to reply to email inquiries within 24 hours, unless you email during the weekend. Please check your email once a day, as I send out regular reminders about assignment due dates.

Use of Artificial Intelligence

I expect all work students submit for this course to be their own. I have carefully designed all assignments and class activities to support your learning. Doing your own work, without human or artificial intelligence assistance, is best for your efforts in mastering course learning objectives. For this course, I expressly forbid using ChatGPT or any other artificial intelligence (AI) tools for any stages of the work process, including brainstorming. Deviations from these guidelines will be considered a violation of UT Tyler's Honor Code and academic honesty values.

Note: UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.
