Special Course Notes

- **Attendance** is expected at all lessons and advance notice is required if missing a lesson for illness or other excused absence, for which documentation may be required. A grade of zero will be assigned for any unexcused absence. It is the student's responsibility to request make-up lessons for excused absences. Students may occasionally be asked to reschedule lessons by the instructor and advance notice and reason will always be given.
- **Required materials:** All repertoire must be purchased or legally downloaded at the beginning of each semester. Students may not perform any selection in public or in jury that has not been legally obtained.
- **Meeting minimum practice requirements per week is expected.** Set a daily schedule to evenly divide required hours over 5-7 days. A Learning Goals Spreadsheet is recommended for a practicing outline to help you complete all requirements by performance or jury dates. It should be followed closely and brought to each lesson to mark progress. Some flexibility is permitted, but consistent failure to meet weekly goals indicates a need for either more time &/or more efficient use of practice time.
- Weekly grades are based on meeting both practice expectations and learning goals worked out in each lesson. Learning mindful practicing skills is imperative to success in the course and lessons will focus on specific strategies as needed. Weekly grades will be posted in Canvas so that you can track your grade throughout the semester.
- Studio Class will meet every Thursday at 12:30 and is required for all BA degrees with piano emphasis and music minors/secondary instrument/electives as assigned. If performing, record and complete a Self Evaluation Rubrik provided in Canvas within one week. Complete this form after each performance as well. **One point will be deducted from the final average for each missing evaluation.**

Understanding your Autonomic Nervous System (ANS)

The Autonomic Ladder

- Learn to recognize and honor what your 'body' is telling you
 - Vagus nerve is the longest nerve in the body and 80% of messages go from body to brain
- Lower states can hijack or interfere with learning/performing
 - Hard to focus or access what has been practiced
 - Why motor memory fails under pressure
- Strategies
 - Smart practice for secure learning
 - Drill short segments and **plan what to think**
 - Repeat the **process** allowing it to naturally get faster
 - Take full deep breaths/stretch/have realistic expectations and do your best!

Special Course Notes: Artificial Intelligence (AI)

- UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.
- **For this course, AI is permitted, but any use for written work must be acknowledged and properly documented.**
