

EDUT 4371
Perspectives in STEM Education
Section 060, Fall 2026

Instructor Information:

Pradeep M. Dass, Ph.D.

Office: BEP 226

Office Hours: By Appointment (meetings via Zoom or Phone)

Telephone: office (903) 566-7109

Email address: pdass@uttyler.edu (best mode of communication)

Class Time: Online with Weekly Synchronous ZOOM Sessions

Day: TBD for the Weekly ZOOM sessions

Course Overview:

This course explores science and mathematics as dynamic human endeavors shaped by societal needs, historical events, and innovation. Using a Science-Technology-Society (STS) framework, future STEM educators will examine key discoveries, policies, and their impact on education and society. Aligned with the Texas Essential Knowledge and Skills (TEKS), this course equips educators with the tools to integrate historical and philosophical perspectives into engaging, inquiry-driven STEM instruction.

Schedule:

Refer to the schedule of Modules in Canvas.

Student Learning Outcomes:

- Demonstrating the methods and nature of science and math through real-life examples of discovery in practice.
- Building cross-curricular connections within the STEM disciplines and beyond in the arts and humanities.
- Humanizing scientists and mathematicians and addressing issues of diversity in STEM
- Exploring the ethics, values, and social context of science and math.
- Explore Resources related to the History, Science, and Philosophy of STEM

Resources

Pedagogy: Resources on HPSM in STEM education

Current education research makes a strong case for STEM teaching that is informed by the history and philosophy of science and mathematics. [Read more](#)

Meeting the Standards

National and state standards for science and math teaching already include substantial requirements for teaching the history and nature of science and math. [Read more](#)

EDUT 4371
Perspectives in STEM Education
 Section 060, Fall 2026

Course Activities and Assignments:

Activities	% Grade
Attendance & Participation	10
Assignments (<i>See the Assignments tab in Canvas for more details</i>)	
• Reflections (on videos, readings, etc.)	20
• Lesson Plan (5E or PBL, etc.)	20
• Video PowerPoint Summaries	20
• Video Project (Historical Perspective of Your STEM Area)	30
TOTAL	100

Grading Scale: A = 90 - 100; B = 80 - 89; C = 70 - 79; D = 60 - 69; F = <60

Related Clinical Experiences: Clinical Hours will be completed in EDUT 2170.

Course Policies:

1. Attendance and Participation

A large portion of your grade is based on attendance and active participation in all class activities and assignments. Credit for attendance requires arriving to each class session on time, participating in all class activities, and staying until the session ends. Attendance is a crucial component of this class because during class time you may: 1) plan and practice your lessons with your partner; 2) get feedback from course instructor and other members of the class; and 3) observe and learn from demonstration lessons. Because the course meets only once per week and there are no texts, missing class means you will miss essential information and experiences. Furthermore, Step 1 students will be working with a partner, and this collaboration is vital to your success. The workload for each lesson should be shared equally. If you are not in class, you inconvenience your partner by forcing him or her to work with you outside of class. If you miss a class, it is your responsibility to communicate with your partner about how to coordinate the next lesson. Don't leave your partner guessing about why you are not in class, or how and when you will get together.

2. Late Work

There will be a deduction of 10% per day (capped at 50%) for any assignment turned in late unless arrangements have been made with the instructor in advance.

UT TYLER'S SCHOOL OF EDUCATION MISSION

The School of Education prepares educators and leaders who transform lives through learning. Through excellence in teaching, scholarship, innovation, and partnership, we strengthen the educator workforce, advance educational opportunity, and improve outcomes for learners, schools, and communities across East Texas and beyond.

UT TYLER'S SCHOOL OF EDUCATION STANDARDS FOR EDUCATOR PREPARATION PROGRAMS

The School of Education is committed to teaching and implementing the [Texas Educator Standards](#) at the highest level. The School of Education faculty use the Texas Educator Standards, along with the Interstate New Teacher Assessment and Support Consortium (InTASC) [standards](#) used by educator preparation programs throughout the United States.

Please visit the following URLs for content standards of your discipline and grade level, and for the standards of ethics for Texas educators: [TEKS for Science](#) [TEKS for Mathematics](#) [Ethics Code/Standards](#)

UNIVERSITY POLICIES

UT Tyler Honor Code

Every member of the UT Tyler community joins together to embrace: Honor and integrity that will not allow me to lie, cheat, or steal, nor to accept the actions of those who do.
