College of Education and Psychology

Core Purpose of College of Education and Psychology:

To prepare competent, caring, and qualified professionals in the fields of education, psychology, and counseling, to foster discovery and to advance the knowledge base in our respective disciplines.

Vision

The CEP will be a global leader in responding to needs in the fields of education, psychology, and counseling, with a focus on the East Texas region, by creating innovative academic and scholarly pathways and partnerships.

Mission

The mission of the CEP is to prepare competent and passionate professionals in the fields of education, psychology, and counseling; to advance knowledge and expertise; and to impact these fields regionally, nationally, and internationally.

Course Description: Students enrolled in this course will be given opportunities to learn the following topics as well as the research supporting each topic: phonological awareness; phonemic awareness: letter identification, phonics; sight words; fluency; vocabulary; comprehension; reading, and writing. Students will be given opportunities to practice teaching each of the topics, as well. The Science of Teaching Reading and research proven literacy theories are key components of this course.

Knowledge Base(s) and Rationale:

This graduate level course explores topics in literacy that include foundational literacy components. foundational scientific research concerning reading skills development and reading comprehension.

Course content includes the following for the preparation of reading professionals:

- *International Literacy Association (ILA, 2017)*
- *Texas Examination of Educator Standards (TEXES)*
- *Texas Educator Standards (TES Title 19: Chapter 149, Subchapter AA, Rule: 149.1001),*
- *Texas State Board for Educator Certification Standards (TSBECS, 2016)*
- *Texas Prekindergarten Guidelines (TPG 2015),*

- *International Society for Technology in Education Standards for Educators (ISTE)*,
- *Interstate New Teacher Assessment and Support Consortium (InTASC) Standards*,
- *College and Career Readiness Standards (CCRS)*
- *Science of Teaching Reading Competencies*
- *Texas Reading Academies Content*
- *Texas House Bill no. 2162.*

Student Learning Outcomes (SLOs):

Upon successful completion of the requirements of this course, teacher candidates will have opportunities to:

1. Develop an understanding of phonological awareness; phonemic awareness: letter identification, phonics; sight words; fluency; vocabulary; comprehension; reading and writing. and the acquisition and role of each topic in first and second language literacy development.
2. Develop an understanding of historical and current research, policy, and practice related to phonological awareness; phonemic awareness: letter identification, phonics; sight words; fluency; vocabulary; comprehension; reading and writing.
3. Critically examine the ways in which phonological awareness; phonemic awareness: letter identification, phonics; sight words; fluency; vocabulary; comprehension; reading, and writing transacts with literacy in the lives of children, youth, as well as adults, both in and out of classrooms.
4. Apply the knowledge gained about phonological awareness; phonemic awareness: letter identification, phonics; sight words; fluency; vocabulary; comprehension; reading and writing to develop a research-based orientation to literacy and its teaching in K-12 settings.

AI: Artificial Intelligence:

UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools’ ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler’s Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler’s Academic Integrity Policy. For this course, students can use AI platforms to help prepare for assignments and projects. While most of the submitted work should be your original effort, you are allowed to use AI tools for revision and editing tasks, such as identifying logical flaws, clarifying confusing or underdeveloped sections, and correcting citations. If an AI tool is used to generate any part of the content for an assignment, its contributions must be properly cited.

COURSE EVALUATION AND REQUIREMENT DESCRIPTION

Performance Assessments

Grading is based on the total number of points accumulated by each student at the end of the semester for all evaluations including exams, assignments, and class activities.

The assignments and projects outlined below are designed to contribute in a different, and yet complementary way in achieving the stated course objectives.

1. Reading Response/ Written Synthesis (Five written synthesis 6 points each: 30 points).

Description: As graduate students it is critical that you read deeply and engage in a productive and collegial manner with your professional community (us) to grow. Through weekly assigned opportunities for writing synthesis over readings and/or videos, podcasts, and the like, you will practice reading deeply, writing your ideas noting connections with material and explain how you will implement what you have read and learned into your teaching practices.

Main Tasks: Written Synthesis: Write one-page synthesis of your findings from what you have read in the articles, text, and videos in each module, discussing findings and how the knowledge about this topic will be implemented into your teaching.

Engage deeply with class texts; respond actively, substantively, thoughtfully, to complete a written synthesis of the readings of books, articles, videos and more that are assigned within our classroom community for each of the five modules. You will write a total of five synthesis.

Because this is a graduate level course, expectations for active engagement and substantive contributions to class activities—with timely completion of readings and related activities—are high and critical to the teaching-learning process. Active engagement entails making sustained and substantive contributions by completing assigned readings on time, asking critical questions, and exploring implications and applications of knowledge gained for your own professional work.

When responding to assigned readings or activities for writing assignments, I suggest using the following questions as a *general guide for organizing your responses*:

- a. What are the main point(s) made or issue(s) raised in the assigned readings?
- b. What are some of your own connections to the readings via your life experiences, your observations, your readings, or viewings of other text/film/media?
- c. What are the strengths and weaknesses (or limitations) of the main points outlined, arguments made, or solutions provided?
- d. In what ways will the knowledge gained from the assigned reading(s) or activities help you enhance your role and/or work as a classroom teacher, reading specialist, or literacy coach?
- e. What are you thinking about *differently* because of this/these reading(s)? What questions does it raise for you?

Evaluation: Your written responses will be evaluated on the level of depth of reflection you note when writing your reflections, the quality of the contributions made (how thoughtful and substantive your contributions are), and the professionalism and details you exhibit when noting how you will implement the new knowledge into your literacy teaching.

2. Teaching Demonstration Videos-Three -Four Minutes Each. (Five (5) Videos X 6 points each= 30 points) Complete a 3-4 Minute Teaching Demonstration Video of you modeling/teaching EACH for each of the following literacy topics: phonological awareness, letter identification, phonics; phonemic awareness; sight words; fluency; vocabulary; comprehension; reading, and writing.

Videos are to be posted in Canvas AND the WIX Electronic Literacy Portfolio.

3. Anchor Book Study – Practice Possibilities (5 points).

You will read the program anchor textbook, *Culturally Responsive Teaching: Theory, Research, and Practice*, and participate in practical application exercises that will push your thinking regarding culturally responsive teaching.

4.

PART A: One Specific grade Level Professional Learning Community Session. (10 Points)

1.1 Starting summer 2024 semester, candidates in READ 5333 will plan a PLC presentation to be implemented in the fall for one specific grade level on one literacy topic: phonological awareness, letter identification, phonics; phonemic awareness; sight words; fluency; vocabulary; comprehension; reading, and writing. Candidates will plan interactive ways for one specific grade level to integrate how they can teach the required ELAR state standards. They will provide and discuss research-proven content and strategies learned in this course. Candidates will include in their plan ways to guide teachers in planning and implementing their selected literacy strategy. Candidates will add this PLC plan in their Wix program portfolio.

PART B: Multiple Grade Level Professional Learning Community Session. (10 PTS)

1.1: Starting summer 2024 semester, candidates in READ 5333 will share their knowledge of each component of reading with school-based colleagues. Candidates will create a professional learning community session for multiple grade level teams (K,1,2,3,4,5) around a literacy topic that is needed on their campus from literacy topics including: phonological awareness, letter identification, phonics; phonemic awareness; sight words; fluency; vocabulary; comprehension; reading, and writing. They will provide interactive ways for each grade level to share how they can teach the required ELAR state standards. During the PLC they will provide and discuss research-proven content and strategies that they have learned in this course. They will guide teachers in seeing a spiraled progression of strategies for the specific literacy topic they have selected. Candidates will submit key observations/reflections centering on their own learning, learning processes, and salient take-aways for the enhancement of practice as a teacher and reading professional.

5. Final Exam – Research Article Critique (15 points)

1.1: Candidates will critique the major theoretical, conceptual, historical, and evidence-based components across grades levels. Over the course of the semester, candidates are required to read at least five *Reading Research Quarterly* articles, Candidates will choose and critique three of the research articles and answer questions such as: What stake in literacy does the author appear to hold? What students, views, and research is omitted?; In what ways have these same/similar ideas been taken up historically?

6. Program Portfolio Artifact (QEP) (5 points)

Portfolio Artifact Description: This assignment is designed to assure that you successfully and competently build your Program Portfolio the goal of which is to show ways in which your work in this program has enabled you to provide evidence, aligned with state and national standards, of your preparation to become a literacy leader. As you already know, the successful completion and presentation of your portfolio is a requirement for graduation from this program. Creating your portfolio will be an incremental process spanning the entirety of your time at UT Tyler. That is, this assignment is present in each course in your Master of Education in Reading program. In each course, including this one, you will (1) select your artifact from work already accomplished in this course this semester; (2) select an ILA national standard AND a TExES state standard for Reading Specialists about which this artifact is evidence of your mastery; (3) write your description of the course artifact; and (4) write your argument/rational for the course artifact.

PORTFOLIO NARRATIVE DIRECTIONS - You will write an entry, accounting for your COURSE ARTIFACT assignment, for your end-of Program Portfolio. You will write two dense (at least 6 sentences each), well-written paragraphs:

1: DESCRIPTION of the COURSE ARTIFACT assignment and how YOU completed it. (One Paragraph)

2: ARGUMENT/RATIONALE for the inclusion of your COURSE ARTIFACT as EVIDENCE of you meeting one of the ILA Standards (1-7) and one of the TExES Standards (I-IV). In other words, what standards and why (how) does your COURSE ARTIFACT PROVE that you are competent in the chosen standards? Provide specific evidence from your project in support of your argument for why various aspects prove your competency. Directly tie your argument/rationale back to the ILA and TExES Standards. (One Paragraph)

Evaluation and Grading Guidelines and Criteria: All written work should be typed (double-spaced, using 12 pt. New Times Roman font, one-inch margins, & page numbers), properly labeled, and carefully proofread and edited. Use [APA style](#) when citing references used in your work. The criteria for determining your final grade are outlined below.

COURSE POLICIES:

This is a graduate course that is online and worth three graduate credits. If you are in the course, then it is up to you to meet the requirements and deadlines established. If you are traveling (for example) it still is expected that you will do what you must to meet course expectations.

CANVAS/EMAIL:

You will need Canvas learning management system; sound capacity; and to check your Patriot email daily for schedule changes or announcements. A Canvas course has been created for this class, and all the information, including the syllabus, course schedule, and any changes thereto, will be posted. Links to on-line readings will be posted periodically. **Students are responsible for accessing and reading all materials.** In addition, students are **responsible** for checking **school email** as it is the primary method of communication for the course. This means students are **responsible** for 1) **immediately contacting the Information Technology services** to be certain any problem with email and/or access to Canvas is completely resolved; and 2) contacting me if either Canvas and/or email become a problem. If you experience technical problems or

have a technical question about this course, you can obtain assistance by email itsupport@patriots.utt Tyler.edu or phone (903)565-5555.

TURNING IN WORK:

Unless otherwise stated, all work will be turned in completed via Canvas (as specified in each assignment's instructions) on the date/time it is due. All work must have your NAME, the DATE, and the ASSIGNMENT written clearly along the top. All assignments will be turned in as ONE document.

LATE ASSIGNMENTS:

Late assignments without prior, written permission from the instructor or without the presence of documentable (by you), extenuating (e.g., emergency) circumstances may result in a lowering of the assignment grade.
