

Oluremi Cole, PMHNP

Summary of Qualifications

- Dual Expertise in Clinical Practice and Education: Possesses extensive experience as a Psychiatric Mental Health Nurse Practitioner (PMHNP) and as an adjunct/clinical faculty member, demonstrating a strong foundation in both direct patient care and the education of future PMHNPs.
- Comprehensive PMHNP Skills: Proficient in conducting mental health assessments, formulating diagnoses, developing and implementing treatment plans, and managing psychopharmacological interventions across diverse patient populations via telemedicine and in-person settings.
- Expertise in Telemedicine: Proven ability to effectively utilize telemedicine to deliver high-quality, accessible mental health care to patients across various geographical locations.
- Educational Leadership and Mentorship: Experienced in supervising and mentoring nursing students in both pre-licensure and PMHNP clinical settings, fostering their clinical development and ensuring adherence to educational objectives.
- Collaborative Practice: Demonstrated ability to collaborate effectively with interdisciplinary teams, including physicians, therapists, and case managers, to provide comprehensive and coordinated patient care.
- Commitment to Evidence-Based Practice: Dedicated to staying current with the latest advancements in psychiatric-mental health practice and integrating them into clinical work and educational curricula.
- Strong Communication and Interpersonal Skills: Excellent ability to establish and maintain positive working relationships with patients, families, and colleagues, while adhering to strict confidentiality standards
