

Maryam Oladejo

SUMMARY

Experienced Doctor of Nursing Practice (DNP)-prepared nurse practitioner and nursing educator with a strong background in clinical and didactic instruction. Skilled in one-on-one coaching of prelicensure nursing students and precepting nurse practitioners and medical students both in-person and remotely. Committed to fostering academic excellence and clinical competence through evidence-based teaching practices, mentorship, and student-centered learning approaches.

Galen College of Nursing Houston, TX

Adjunct Clinical Faculty

December 2025 – Current

- Supervised undergraduate nursing students in inpatient and/or outpatient psychiatric–mental health settings, ensuring safe, trauma-informed, and therapeutic patient care.
- Guided students in conducting comprehensive mental status examinations, suicide and violence risk assessments, and behavioral observations in accordance with evidence-based practices.
- Facilitated the application of psychiatric nursing theory to clinical practice, including therapeutic communication, crisis intervention, and de-escalation techniques.
- Evaluated student clinical performance, professionalism, and clinical judgment; provided timely, constructive feedback to promote competence and confidence in mental health settings.
- Modeled ethical practice, boundaries, and culturally responsive care when working with individuals experiencing acute and chronic mental illness.
- Collaborated with course faculty, preceptors, and interdisciplinary mental health teams to meet course objectives and support student learning outcomes.
- Ensured student adherence to safety protocols, documentation standards, HIPAA regulations, and institutional policies in psychiatric environments.
