Course Description: This course focuses on professional nursing care of at-risk populations. Emphasis is on environmental and demographic factors that influence health. A variety of clinical experiences will be used to apply caring, evidence-based, professional nursing care for persons at risk for or living with chronic conditions.

Prerequisites: NURS 3605 and NURS 3309

Student Learning Outcomes:

Upon successful completion of this course, the student will be able to:

1. Professionalism: Demonstrate professional and ethical behavior in a multidisciplinary learning environment. (BSN Essential VIII)
2. Patient-centered care: Plan compassionate, comprehensive nursing care that reflects preferences and values of diverse populations. (BSN Essential IX)
3. Evidence-based practice (EBP): Identify multidisciplinary evidence-based research to care for individuals, families, and populations. (BSN Essential III)
4. Informatics & Technology: Examine the importance and use of informatics and technology to analyze public health care delivery systems to improve population health outcomes. (BSN Essential IV)
5. Quality Improvement: Analyze impact of quality improvement initiatives in healthcare policy, finance, and regulatory environments. (BSN Essential II)
6. Teamwork and Collaboration: Use effective communication skills within multidisciplinary teams to empower the patient to achieve positive health outcomes. (BSN Essential VI)

7. Wellness and Prevention: Reflect on the impact of the social determinants of health on diverse populations. Identify benefits of health, wellness, and preventive interventions in health policy at local, national, and global level. (BSN Essential VII)
8. Leadership: Examine community-based activities to promote ethical reasoning, advocacy, collaboration, and social justice. (BSN Essential I)
9. Safety: Apply appropriate safety measures to reduce patient and community risks. (DECS C, BSN Essentials II)
10. Strengths: Determine how strengths (signature talent themes) influence the role of the student nurse and clinical decision-making.

Required Textbooks and Readings:

ATI Engage will be utilized as the official textbook for the course.

Purchase ATI Products as outlined per course requirements.

Technical Resources:

Laptops are required for testing with ATI. Notebooks and tablets are not compatible for ATI products.

Artificial Intelligence In Course Work:

Refer to the UT Website for more details at uttyler.edu – digital learning AI. **Assignments**

and Weights/Percentage/Point Values

Population Health	NURS 3617
Lecture/Didactic: Criteria for Evaluation	Percentage of Grade
Weekly Quizzes	10%
ATI Proctored Assessment with 2 ATI Practice Assessments	10%
Exams (3- unit exams & 1 final exam weighted evenly)	80%
Lecture/Didactic Total:	100%

Clinical/Lab: Criteria for Evaluation	
Medication Calculation Exam (must score 100%)	Pass/Fail
EHR Tutor Clinical Assignment	Pass/Fail
Clinical Practicum/Simulations & Evaluation	Pass/Fail
Head-to-toe and medication administration check-off	Students are required to successfully pass head-to-toe and medication administration check-off prior to start of clinical. Failure to pass by the second attempt will result in a student success plan. Failure to pass skills check-off by the third attempt will result in clinical and course failure.
Clinical/Lab Total:	Must attain "Pass" on each clinical/lab criterion to successfully pass the course.
Total Grade Calculated: Lecture/Didactic weighted average + Clinical/Lab weighted at pass/fail of overall course grade The clinical/lab is a mandatory component of this course and requires a "pass" on each clinical/lab criterion to pass the course with each required objective. Once the student has achieved a "pass" for the clinical component, course grades will be determined based on the weighted calculation of the lecture/didactic component.	

Grading Scale: Specific guidelines and grading criteria for all assignments are in the Modules. Final grades for the course will be determined based upon the following point assignments:

- A - 90-100
- B - 80-89
- C - 75-79
- D - 60-74
- F - Below 60

Final course grades less than 75 are not rounded up.

The simple average of all exam grades, including a final, must first be at or above 75% in order to pass the course. Once the student has achieved a simple exam average of 75% or higher,

course grades will be determined based on the weighted calculation of exams and other required course work.

Grade Appeals: Although the university policy allows 60 days for grade appeals, the School of Nursing follows a stricter timeline of 10 days to facilitate students' timely progression through the curriculum. In the case of extenuating circumstances, please consult the Associate Dean of Academic Affairs for guidance.

Academic Integrity: Cheating of any kind, as defined in Section 8 of the UT Tyler Manual of Policies and Procedures (MOPP) for Student Affairs (<https://www.uttyler.edu/mopp/>), will not be tolerated. Consequences may include:

- reprimand
- exam failure
- course failure
- expulsion from the Nursing program
- expulsion from the University
- other consequences as assigned

Exam and homework materials, questions, and problems are the intellectual property of faculty, UT Tyler, or publishers.

- These materials may not be distributed without permission.
- Distributing or uploading them to online resources destroys the integrity of the assignment and the course, allowing others an unfair advantage by letting them view the materials.
- Uploading these materials to online resources is a violation of UT Tyler's academic misconduct policies and may result in formal conduct charges.
- Sanctions for uploading or otherwise divulging the contents of these materials can include:
 - a reduced or failing grade on an assignment
 - a reduced or failing grade for the course
 - removal from the Nursing program
 - removal from UT Tyler

Late Policy: 5% will be deducted each day an assignment is past due (excluding weekly quizzes) unless prior arrangements have been made with your course faculty. Weekly quizzes are open for one week and will not be re-opened once they are closed. Extenuating circumstances may apply.

Repeating a Course: Students repeating this course may not use previously submitted assignments nor utilize the same patients for an assignment. Submitting the same or slightly

modified assignments from previous semesters is considered self-plagiarism and is subject to academic discipline, including failing the assignment or the course.

Attendance and Make-up Policy: Attendance/participation is expected. Make-up for exams, quizzes, assignments, and missed clinical time is at the instructor's discretion.

Grade Replacement: Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. Grade Replacement Contracts are available in the Enrollment Services Center or at <https://www.uttyler.edu/current-students/registrar/>. Each semester's Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

Graded Course Requirements Information:

Unit Exams and Final Exam: Module I-III Exams covering course material will be given throughout the semester according to the course calendar. A comprehensive final exam will be given during final exam week according to the course calendar. Additional information will be provided in class (80% of your grade).

Quizzes: Custom weekly quizzes that correspond with the content being delivered in lecture. Additional information will be provided in class (10% of your grade).

ATI: Includes two practice exams and one proctored exam to be administered on campus. Additional information will be provided in class (10% of your grade).

Professionalism: Includes attendance, communication, student forms, in-class engagement, Netiquette, class norms, and other items as appropriate. Additional information will be provided in class (Professionalism is pass/fail).

Clinical Practicum: Includes individualized clinical placement for each student in congruence with meeting course objectives and student learning outcomes. Additional information about clinical placements will be provided in class. **Students are required to successfully pass head-to-toe and medication administration check-off prior to start of clinical.** Failure to pass by the second attempt will result in a student success plan. Failure to pass skills check-off by the third attempt will result in clinical and course failure (Clinical Practicum is pass/fail).

This course has specific assignments where artificial intelligence (AI) tools (such as ChatGPT or Copilot) are permitted and encouraged. When AI use is permissible, it will be clearly stated in the assignment directions, and all use of AI must be appropriately acknowledged and cited. Otherwise, the default is that AI is not allowed during any stage of an assignment.
