Prerequisite: 3D Design and Beginning Sculpture

Canvas is not required for this course.

Supply lists will be handed out periodically throughout the semester.

Critiques and process reports will be conducted approximately every 3-4 weeks.

Course Overview:

Art Car is a special topics course that explores the phenomena of vehicular/sculptural art, in this case specifically through the Annual Art Car Parade in Houston TX, and the Art Car Museum. During the course of the semester, the students will work as a team to design and construct an art car with the intent of participating in the annual parade, resulting in their work being seen by over 250,000 people.

STUDENT LEARNING OUTCOMES:

1. Technical proficiency

The student will develop and assemble a technically proficient body of art work that demonstrates technical proficiency within his or her chosen concentration (2D or 3D), as well as general proficiency in the greater arena of all mediums.

2. Conceptually proficiency

The student will develop and assemble a conceptually proficient body of art work that demonstrates conceptual proficiency within his or her chosen concentration (2D or 3D), as well as general proficiency in the greater arena of all mediums.

3. Historical context

The student will develop an understanding of how his or her work relates to art history.

4. Contemporary trends

The student will develop an understanding of how his or her work relates to current trends in contemporary art.

5. Written analysis

The student will engage in written critical analysis of their artwork.

6. Verbal analysis

The student will engage in critical verbal analysis of their artwork.

Attendance:

Students are allowed three absences. After three, the student's final grade is lowered one letter grade for each additional absence. Also, punctuality is expected, as is staying for the duration of the class period. Every two late arrivals or early departures, or combination of either will count as on missed class.

Grading:

As this is a Sculpture class, it will be expected that all work handed in be of the highest possible caliber, both in terms of craftsmanship, as well as concept. Work that is purely decorative and/or functional will not be accepted. Frequently during the semester, slide presentations will be given to assist in student understanding of artistic possibilities, as

well as inspiration. Also, regularly during the semester there will be critiques to help each student reach their maximum potential, and give them an idea as to their progress in the class.

Students will be evaluated based on the effectiveness of how they solved the problems established with each assignment. The parameters of each assignment will be clearly defined without being oppressive to the student's creativity. Grades are assigned as follows:

- A Reserved for the assignments that demonstrate superior resolution to the problem assigned with exquisite creativity, and an extraordinary effort.
- B Reserved for the assignments that demonstrate good resolution to the problem assigned with good creativity and effort.
- C Reserved for the assignments that adequately solve the problem presented by the assignment with average effort and creativity.
- D Reserved for the assignments that demonstrate only partial understanding of how to adequately resolve the assignment, and demonstrate below average effort and creativity.
- F Reserved for the assignments that demonstrate a lack of understanding, effort, and/or creativity

Student's final grades will simply be an average of all of the grades that they received during the semester. Using the 4.0 scale, add up the total points received during the semester and divide by the number of assignments.

As sculpture, and art in general, is a pursuit that requires a great deal of time and effort, plan on spending time outside of class to complete assignments, as no late assignments will be accepted. Also, plan on attending all opening, lectures and functions held in the Art Gallery.

Grade Replacement:

If you are repeating this course for a grade replacement, you must file an intent to receive grade forgiveness with the registrar by the 12th day of class. Failure to file an intent to use grade forgiveness will result in both the original and repeated grade being used to calculate your overall grape point average. A student will receive grade forgiveness (grade replacement) for only three (undergraduate student) or two (graduate student) course repeats during his/her career at UT Tyler. (2006-08 Catalog, p. 35)
