Each candidate for the baccalaureate degree must fulfill the following requirements:

What are the most common issues that could prevent a student from graduating on time?

- 1) Not meeting the University requirements
- 2) Not submitting transfer transcripts
- 3) Not being Core Complete

### **Patriot Advising Report (PAR)**

Students should review their PAR frequently to be sure that information is listed correctly, including:

- 1) Major/Minor
  - 2) Allocation of transfer credits
  - 3) Allocation of program credits
- Each student at The University of Texas at Tyler enters their studies subject to requirements set forth in the catalog in effect at the time of their admission to the university. This year, combined with the specific term the student first began taking classes at UT Tyler, is referred to as the student's Catalog Year. Unless a student changes their catalog year, or has it changed upon a later readmission, the graduation requirements set forth in their original catalog will be used to determine their requirements and eligibility for graduation. (For Example: A new freshman starting in spring 2021 entered under the 2020-2021 catalog, and their catalog year is 2020-2021. This is subject to all requirements set forth in the 2020-2021 catalog for their degree, core curriculum and other relevant items.)
- Students may change their catalog year for their core curriculum requirements, major, or minor voluntarily to any catalog that has become available since their time of admission. Students are required to consult with their academic advisor and have them sign off on all such changes to assure their degree plans are updated accordingly.
- Degree program checklists are considered unofficial documents, but may be useful to keep track of degree program requirements.
