

Reporting Offers and Hires

The Office of Career Services at The University of Texas at Tyler would like to encourage all employers to assist us in retaining accurate data regarding our students and alumni.

Career Services and The National Association of Colleges & Employers (NACE) conduct salary surveys. The survey collects data on over 70 fields of study, providing information that allows you as an employer to stay on top of your competitor's salary offers and UT Tyler's rate of graduate placement for career opportunities.

Please help us to continue to track and benchmark this activity by reporting your UT Tyler offers and hires to our office and to NACE. All reported information is held in strictest confidence and used only for summary reporting.

Offers and hires should be reported by completing this survey: <https://uttyler-csm.symlicity.com/surveys/reportahire>

Your assistance in maintaining accurate records is greatly appreciated.
