

Add the One-Stop to your Home screen

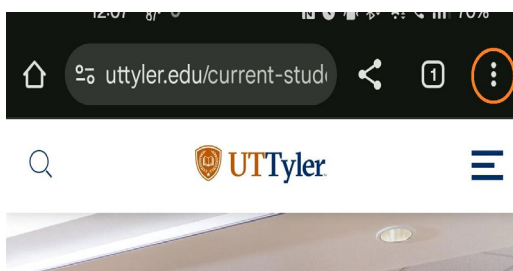

1. On your cell phone, select your internet browser. Ex: Safari, Chrome

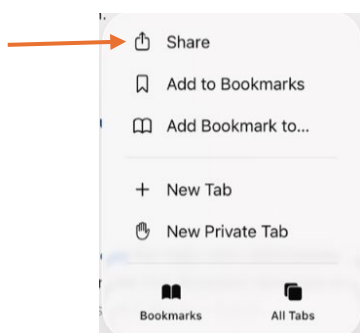

2. In the search field, type `uttyler.edu/enroll` to bring up the One-Stop webpage.

3. On either type of device, select the three dots near the URL bar to open your menu.

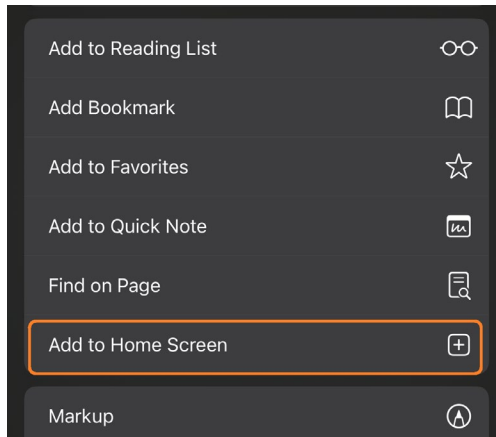

4. For Apple, you will need to select the Share icon which looks like a square with an arrow traveling out. This will bring up your sharing options. Android devices will open the full menu which already displays sharing options, you may skip to step 5.

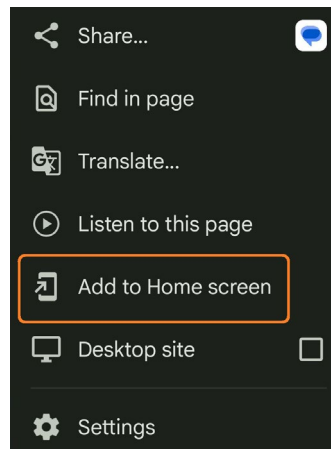

5. Scroll down through the selections, looking for an option that allows you to edit or add to the Home Screen. On this example, the option is “Add to Home Screen”.

APPLE

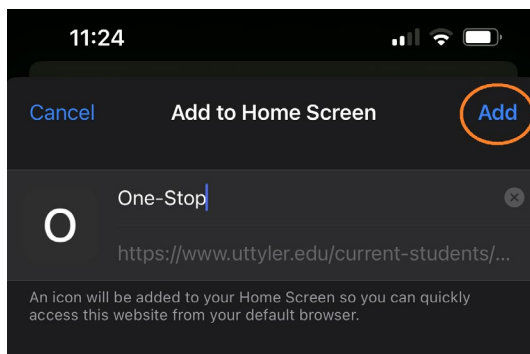

ANDROID

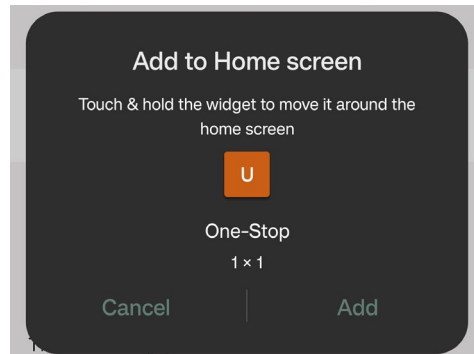

6. The Home Screen edit options should now be displayed. You can add a name for this new widget and adjust the icon. Once complete, select Add in the top right corner.

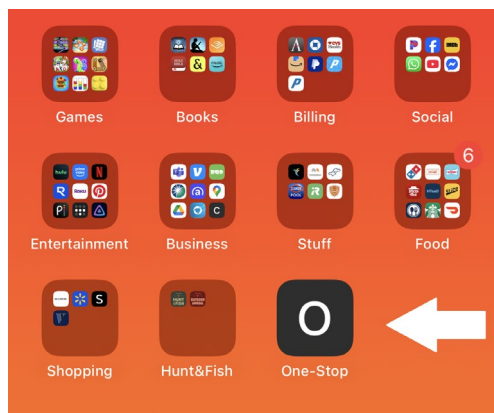

APPLE

ANDROID

7. You should now see the One-Stop icon on your Home Screen for easy access.
