Course Description:

This graduate educational technology course is designed to introduce students to current trends and issues in educational technology. Students will take a constructivist approach to develop a leadership vision for implications of past, current, and future developments in educational technology.

Student Learning Outcomes:

The purpose of this course is to explore the research and latest trends in technology integration and understand how these trends affect curriculum and instructional settings. More specifically and in keeping with 2016 U.S. National Education Technology Standards and the 2016 National Educational Technology Standards (NETS) recommended by the International Society for Technology in Education (ISTE), by the end of the course you will better be able to:

- Recognize and describe current and future trends in educational technology (INTASC Principles: 1, 6, 10)
- Identify classic and contemporary theories of learning and their applications in educational technology (INTASC Principles: 1, 6, 10)
- Understand how emerging technologies such as mobile learning, immersive experiences, and augmented and virtual reality support teaching and learning (INTASC Principles: 1,3, 6, 7, 8)
- Identify the challenges to using emerging technologies in schools and strategies to overcome them (INTASC Principles: 1,3, 6, 7, 8)
- Use innovative technologies to facilitate and inspire student learning and creativity (INTASC Principles: 2, 4, 6)

Evaluation and Grading
Your course grade will be based on the following course activities:
**Reading Discussions – (5 total) 25%**
Engaging in dialogue with other students on current trends and critical issues related to the course topic is an important component of this course. Discussions typically relate to assigned textbook readings or provided through supplemental course resources. It is imperative that you complete the readings on time, so that you can participate in the discussions. Discussions may take place in Canvas, on Social Media, in online conferences, or chat rooms.

A typical online discussion in Canvas requires 4-5 posts: one initial response to the discussion prompt, followed by 3-4 responses to other students’ posts and/or replies. Initial posts are typically due by Thursday each week and replies are due by Sunday (except in the last week of the course).

**Assignments: Knowing, Making, and Playing – 50%**
Throughout this course, you will learn new trends… new technologies that are used for teaching and learning. You will be required to try out these tools and reflect upon your experiences with them. Specifically, you will have four papers/projects which include:

- Augmented/Virtual Reality
- Makerspaces/Green Screens
- Twitter Chat
- Timeline of Current and Emerging Educational Technologies
- Emerging Technologies Interview

**Journals: Rethinking Education Chapter Reviews-(5 total) 25%**

**Teaching Strategies:**
Lecture, model lessons, project-based learning, writing-based assignments, collaboration, reflection, technology portfolio, discussions, textbook readings, and social media applications.

**Grade Replacement/Forgiveness and Census Date Policies**
Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. (For Summer II, the Census Date is July 13th.) Grade Replacement Contracts are available in the Enrollment Services Center or at [http://www.utyler.edu/registrar](http://www.utyler.edu/registrar). Each semester’s Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date July 13 is the deadline for many forms and enrollment actions of which students need to be aware. These include:
- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a “W” grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

**State-Mandated Course Drop Policy**
Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date). Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

These standards are based on those developed by the Interstate New Teacher Assessment and Support Consortium (InTASC) and shared by other accredited universities in Texas and across the United States. The Standards are broad understandings and practices gained throughout the program using a constructivist model in which new learnings are assimilated and attached to prior understandings, thus, over time, building a mental structure (schema) of educational concepts.

Standard #1: Learner Development (students in general)
The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.
