### Description of Course Assignments, Evaluation, and Grading:

1. **Course Attendance and Participation (REQUIRED)**

   **Attendance:** Regular and punctual attendance is required. The activities in the class require tutoring of students and class participation with the instructor and with your fellow students. Your punctual attendance is imperative. If you miss more than one tutoring session due to your absence, you will required to make up the tutoring session with your tutee. If you miss more than two class sessions, a disposition conference will be held and a disposition written.

   Should you have to miss class, **(first) you are required to make arrangements for the tutoring of your assigned student with one of your team members.** Secondly, you are required to notify the instructor as soon as possible in advance of the class period to be missed and explain arrangements that you have made for tutoring.
Participation: Active involvement is the key to learning! Your participation is important and required to do well in this course. Students are expected be well prepared to engage in scholarly discussion of the scheduled subject matter. All students are expected to fully participate in all class activities. Students are expected to respect (not necessarily agree with) opinions of classmates. Become an active participant by extending ideas presented by sharing new information and new resources on the subject area. Ask questions and demonstrate being prepared (having read assigned materials).

Students must be prepared for class by reading assigned materials prior to class, preparing the lesson plan for the day’s tutoring session with their student and having all supplies and materials available to complete the tutoring activity and completing all assignments made throughout the semester. **Class activities may include pop quizzes, and article reviews. Due Date: Ongoing**

2. **Classroom tutoring activities – maximum available points 100**

The major responsibility of students in this class is to tutor an assigned student(s). Tutoring responsibilities may be shared with peers, but each person enrolled in EDUC 4369 will maintain primary responsibilities for tutoring a particular student(s) and final preparation of the notebook described below.

Students enrolled in EDUC 4369 will be assigned to groups (of 3 or 4 peers) in order to share responsibilities, substitute in the absence of a group member, assist with evaluation and feedback, and otherwise provide tutoring support. In some circumstances, 2 tutors may share one tutee. Tutoring sessions may be photographed or videotaped for future discussion and feedback.

Responsibilities of tutors include (not an inclusive list):

A. Make the student feel welcome and comfortable with tutoring situation
B. Determine and administer appropriate curriculum based assessments, prepare an assessment report (see format in Attachments)
C. Prepare an educational plan outlining academic and behavioral goals based on assessment results (see format in Attachments)
D. Prepare a Student Profile (see format in Attachments) summarizing student personal and focus information for tutoring
E. Prepare lesson plans prior to each tutoring session after your assessment and educational plan completed
F. Tutor assigned student using prepared lesson plan
G. Support tutoring activities of team members
H. Show evidence of preparation. Activities should be well planned. Materials and supplies needed to carry out the lesson plan and appropriate to the task and student’s age / developmental level and interest should be available.
I. Show evidence of flexibility and adaptability
J. Show evidence of application of research based teaching strategies
K. Communicate with family members via letter and when they pick up their student from The Salvation Army.

See forms developed for gathering background information. Relevant background information will be supplemented by student personal / personality information that you acquire during assessment and “get acquainted” sessions.

B. Assessment Results Report – (see format in Attachments)

C. Educational Plan – (see format in Attachments). After the instructor approves your educational and behavioral goals, they will remain constant throughout the semester unless the instructor approves a revision. The Education Plan will be accompanied by data sheets illustrating how achievement on both the instructional and behavioral goals will be recorded.

D. Lesson Plans (6 lesson plans)) – (see format in Attachments)
   i. Lessons plans are to be available at the beginning of each class when tutoring is to take place and throughout the tutoring session.
   ii. Lesson plans must relate to accomplishment of the instructional goal shown on the approved educational plan
   iii. Lesson plan must reflect at least 2 activities to be completed for the session (NOTE: Completion of a “worksheet” DOES NOT constitute a teaching activity.)
   iv. An evaluation / reflection of the lesson (both what went right and any concerns) should be recorded on the lesson plan at the close of the tutoring session.
   v. The Lesson Plan for the session and reflection will be submitted at the close of the session.

This session is intended to bring closure to this experience for the children as well as provide you opportunity to experience a parent-teacher conference and school “open house” experience. WITH YOUR ASSISTANCE, each student will be requested to present to the group a **final project** that should briefly summarize or illustrate what he or she has learned. It is important for you to keep this outcome in mind throughout the semester in order to be prepared for this session.

Grading will be based on:

- Your pre-planning and preparation activities (final product, working with the student, etc.)

It is the responsibility of the student to bring to the instructor’s attention any question, misunderstanding or confusions he/she has concerning classroom policy or course requirements BEFORE an adverse effect on student’s grade results.
• **Blackboard:** Students will access class notes, assignments, grades and course information through Blackboard. Any changes to the course schedule, schedule of assignments, or any special assignments will be posted on Blackboard. Please refer to [http://www.blackboard.uttyler.edu](http://www.blackboard.uttyler.edu) for more information.

• **Academic Dishonesty:** Academic dishonesty (cheating, plagiarism, collusion) will NOT be tolerated and will result in a grade of zero (0) for the assignment. A second infraction will result in automatic failure of the class. Additional information on Academic Dishonesty is found in Section IX.B of this syllabi (Selected University Policies).

• **Cell Phone / Computer:** Cell phones, IPADS, Computers etc., are only to be used for enhancing the activity planned for your student. Otherwise they are not to be used during class especially during tutoring activities.

Grade Replacement/Forgiveness and Census Date Policies
Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. (For fall 2014, the Census Date is Sept. 8.) Grade Replacement Contracts are available in the Enrollment Services Center or at http://www.uttyler.edu/registrar. Each semester’s Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date (Sept. 8) is the deadline for many forms and enrollment actions of which students need to be aware. These include:
- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a “W” grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

State-Mandated Course Drop Policy
Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date).
Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

SCHOOL OF EDUCATION PROGRAM STANDARDS

The School of Education has adopted program standards that guide the development of teacher candidates in their understanding of the complexity of teaching. These standards are based on those developed by the Interstate New Teacher Assessment and Support Consortium (InTASC) and shared by other accredited universities in Texas and across the United States. The Standards are broad understandings and practices gained throughout the program using a constructivist model—new learnings are assimilated and attached to prior understandings, thus, over time, building a mental structure (schema) of educational concepts.

Standard #1: Learner Development
The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences
The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments
The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

Standard #4: Content Knowledge
The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

Standard #5: Application of Content
The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard #6: Assessment
The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

Standard #7: Planning for Instruction
The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies
The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #9: Professional Learning and Ethical Practice
The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration
The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Standard #11: Technology
The teacher is able to create, implement, and evaluate technology to enhance teaching, student learning, and other obligations (e.g. reports, grades, tests, etc.) required of teachers.

Behavioral Assessment: (assessment of any behaviors that interfere with learning such as attention span, in-seat behavior, participation, etc.): 

Recommendations: 

Your assessment report should be typewritten in this format. Part of your grade will be based on professional preparation of your report (grammar, punctuation, etc.) and in ease of understanding. Is it clear what you assessment you used and how you reached your conclusion? Is the information and wording in the report appropriate for review by the family?
EDUCATIONAL & BEHAVIORAL GOALS

Student: Date:  
Teacher: Content Area: 

I. Assessment Results (copied directly from your Assessment Results Report):

II. Instructional Goal: Your goal MUST be observable and measurable. Ask yourself: Does your goal include an ACTION that you can see or hear when it has been accomplished? Will it be demonstrated orally or in writing? (for example, “The learner will “count to 10”, “write their name”; “skip count by 2s from 1 to 50”; “write all 52 upper and lower case letters”; “after reading a 5th grade TAKS release passage, answer 90% of questions correctly”).

Evaluation Procedures/Mastery Criteria: (how will you know? For example, “on a 2 minute test administered on 3 consecutive weeks, the learner will…”)

III. Behavioral Goal: Your behavioral goal must include an action that is observable and measurable and will benefit the learner’s educational performance. You must be able to count or time if the targeted action has taken place. (for example, TLW “remain in seat for 5 minutes”; “read a level 2 reader for 3 minutes without asking for a new book”; “begin working at a math game on the computer within 2 minutes of being asked”)

Evaluation Procedures/Mastery Criteria: (how will you record and measure performance?) The Education Plan will be accompanied by data sheets illustrating how achievement on both the instructional and behavioral goals will be recorded.

Your assessment report should be typewritten in this format. Part of your grade will be based on professional preparation of your report (grammar, punctuation, etc.) and in ease of understanding. Are your goals and evaluations clear? Is the information and wording in the report appropriate for review by the family?
