Course Evaluation and Requirement Description

Performance Assessments: Grading is based on the total number of points accumulated by each student at the end of the semester for course participation in reading assignments and discussion board posts, as well as performance on quizzes, a curriculum audit, and the end of course philosophy statement and curriculum assessment/analysis, which serves as the final exam.
1. Reading Assignments and Discussion Board Participation
Students are expected to respond to all assigned discussion questions and actively respond to peer discussions via the online course Discussion Board. Participation in the Discussion Board fulfills several important functions, including:
- Ensuring students keep up with the required readings and online lectures;
- Enabling students to utilize higher order thinking skills and critically reflect on readings;
- Providing opportunities for greater interaction within the course online environment;
- Providing opportunities to learn from classmates;
- Preparing students to complete weekly quizzes; and
- Preparing students to create a personal philosophy statement and conduct a curriculum assessment.

To earn full credit on each discussion (25pts per discussion), students must: (1) write complete answers to four discussion/reflection questions, and (2) comment on a classmate’s discussion responses. Each posting should sufficiently answer all components of the questions and provide evidence that the student read and understood the readings. Refer to the Discussion Board grading rubric posted online for more details. A penalty will be assessed for answers that do not adequately address the question, and/or which provide evidence that the student did not actually read/review all required materials (videos, etc.) included in each module.

In responding to peers, students are expected to maintain a high level of professionalism and add additional information or suggestions cited from the materials covered in each module and additional information found outside of the class. While it is fine to disagree and discuss alternative views, flaming” (hostile, insulting and/or disrespectful online interactions) or other inappropriate posts will not be tolerated, and will receive zero credit. There are a total of 10 discussions (250 points) and an introductory discussion board post (5 total points); 255 total points, weighted at 40% of the final course grade.

All discussion responses are due by the date and time indicated on the course schedule. No credit will be given for late postings.

2. Quizzes
Chapter quizzes will cover the required readings from each module, including the textbook and other online sources, as well as information from class discussions and communications. There are a total of 9 quizzes. Each quiz is worth 15 points (135 total points) weighted at 30% of the final course grade.

Quiz dates are listed on the online course schedule and must be completed by deadlines. No credit will be given for late quizzes.

3. Curriculum Audit
Students will review criteria determining if and when a curriculum audit is warranted and complete a mini-curriculum audit assignment worth 55 points weighted as 15% of the final grade.

4. Philosophical Statement and Curriculum Assessment/Analysis
The final exam for the course requires students to create a philosophical statement and describe, assess, and analyze their current (or future) curriculum, including information covering the philosophical, historical, psychological, and social foundations of the curriculum; the design and approach of the curriculum; the curriculum’s implementation and evaluation models; and identify any international influences that may be included or influence the curriculum. The curriculum analysis is worth 55 points weighted at 15% of the final course grade.

SCHOOL OF EDUCATION PROGRAM STANDARDS

The School of Education has adopted program standards that guide the development of teacher candidates in their understanding of the complexity of teaching. These standards are based on those developed by the Interstate New Teacher Assessment and Support Consortium (InTASC) and shared by other accredited universities in Texas and across the United States. The Standards are broad understandings and practices gained throughout the program using a constructivist model in which new learnings are assimilated and attached to prior understandings, thus, over time, building a mental structure (schema) of educational concepts.

Standard #1: Learner Development (students in general)

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

*Texas Teacher Practice Standards: 1.2, 2.1, 2.2, 2.3, 4.1*

Standard #2: Learning Differences (individual students)

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

*Texas Teacher Practice Standards: 1.3, 2.1, 2.2, 2.3, 4.1*

Standard #3: Learning Environments

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

*Texas Teacher Practice Standards: 1.3, 1.4, 1.6, 2.3, 4.1, 4.2, 4.3, 4.4*

Standard #4: Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

*Texas Teacher Practice Standards: 1.2, 1.5, 1.6, 3.1, 3.2, 3.3, 5.2*

Standard #5: Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

*Texas Teacher Practice Standards: 1.5, 3.2, 3.3*
