EDUT 3371: Classroom Interactions  
Spring 2020  
(T/TH 9:30 – 10:45, BEP 218)

Instructors: Jaclyn Pedersen, M.Ed  
UTeach Email: jpedersen@uttyler.edu  
Office Hours: Tuesday 11:00 – 2:00, Wednesday 10:00-2:00

Course Catalog Description  
Principles of delivering effective instruction in various formats (lecture, lab activity, collaborative settings); examination of gender, disability, class, race, and culture in mathematics and science education; overview of policy related to mathematics and science education. Thirty hours of field/clinical experience are required.

Student Learning Outcomes:  
1. Design and deliver effective direct teach and inquiry based 5E lessons with a focus on questioning and assessment strategies.  
2. Promote student learning by providing responsive instruction that makes use of effective communication techniques, instructional strategies that effectively engage students in the learning process and timely, high-quality feedback.  
3. Analyze lesson artifacts, including video evidence and pre/post assessments, for effectiveness of lesson.  
4. Differentiate instruction, as evidenced in lesson plans, to meet the needs of diverse learners.  
5. Demonstrate a commitment to integrating technology that enhances lesson engagement to create an authentic learning environment that promotes problem-solving and decision making for all learners.

Summative Assessments:  
1) Completion of a Professional Digital Portfolio DRAFT, which documents current progress toward meeting the State Board for Educator Certification standards for new teachers.  
2) Mock teacher interview focusing on questions formulated from class topics.

Course Objectives  
(from the State Board for Educator Certification standards)

Last Day to Withdraw: March 30, 2020

NOTE: It is an expectation that for every hour spent in class, two hours should be spent outside of class reading and working on assignments.

Related Field Experiences

A student must successfully pass field in order to pass this class. Passing field is based on three factors:
1. completion of a minimum 30 contact hours in the traditional field placements
2. active participation during field/clinical hours, and
3. observable improvements in implementation of prepared lessons (minimum of TWO university supervisor observations)

CLASS REQUIREMENTS

Interviews and Observations Paper: During the course of the semester, you will be required to conduct one teacher interview with your mentor teacher along with two official observations of your mentor teacher’s classroom and
EDUT 3371: Classroom Interactions

Teaching, and one interview of students following your first teaching lesson. You will be required to summarize and critique the results of these interviews and observations in a paper structured by the planning, implementation, and reflection practices of the observed classroom teacher and students.

Teacher Lesson Plans and Analyses: You will be required to teach three complete lessons in your field experience. At the beginning of the semester, you will teach one class period in your mentor teacher’s classroom. Towards the end of the semester you will teach two consecutive days in your mentor teacher’s classroom. You will create draft lesson plans for these two field teaching experiences, you will present these drafts to your peers, and you will create a final lesson plan prior to both teaching experiences. The lesson plans will need to be detailed and descriptive and follow the School of Education lesson plan formats provided in the LMS. You will also have to complete a Knowledge Package for each lesson plan and an Analysis following each lesson.

Professional Journal Summary: The student will be required to summarize and discuss one professional journal article pertaining to best teaching practices in a select equity topic. The requirements and example are provided at the end of the syllabus.

Online Quizzes and Reflections: The student will be required to complete online quizzes and discussions related to required readings throughout the semester. Questions will be formatted in conjunction with the PPR.

Oral Exam: The student will schedule an interview with the professor at the end of the semester. This interview will consist of questions related to the planning, implementation, and reflection practices of teachers. The student will be required to treat this interview like a job interview and utilize knowledge obtained from the course to successfully answer questions.

Portfolio Presentation: Students will be required to work throughout the semester preparing their professional portfolio. Artifacts from all aspects of teaching will be collected and displayed to the whole class. In addition, students will reflect on required protocols of teaching and how they are growing into a research practitioner of education.

Field/Clinical Experience: A major portion of this course is the field experience. You are required to have a total of 30 contact hours in the classroom observing and teaching during the Semester. These hours are to be set up and scheduled by you with the assigned mentor teacher that best suits your schedule. You will interview and observe classroom teachers and teach three times in their classrooms. These teaching experiences will be observed by a UTeach Master Teacher and you will be evaluated using the UT Tyler School of Education Clinical Teaching Observation Rubric (CTOR). You must log a minimum of 30 hours and pass the CTOR forms in order to earn credit for this course.

Required Text, Materials/Supplies, and Related Readings
There is no required text for this course. All related readings will be provided on the LMS.

Course Policies (attendance, make-up assignments, etc.)
All assignments are due on or before the dates provided in the Dynamic Calendar in the LMS. Ten percentage points will be subtracted from your assignment score for each calendar day the assignment is late, maximum 50%. Assignment dates may be moved to later (but not earlier) scheduled dates during the course of the semester. All exam dates are final. If an exam is not taken due to a documented illness, funeral, or other university related activity, then a make-up date must be scheduled with the professor. Note that the Canvas program TurnItIn will be used during the semester to make sure no assignment has been plagiarized. This program will check your assignment against their database of resources then produce a percentage match. This percentage will indicate much of your assignment matches the resources available. Each student may submit his or her assignments as drafts prior to final submission to check this percentage.

TENTATIVE SCHEDULE: Revisions may be required - please check the LMS regularly for updates and changes. If changes are made, they will be announced in class. Due dates will only be moved later, not sooner.
The Classroom Interactions course materials are organized into 10 modules that are arranged in conjunction with the field component of the course. The 10 modules are:
  Module 1: Course Orientation (1.5 hours)
  Module 2: Interactions with content (4-5 hours)
  Module 3: Designing for learner-centered instruction (7-8 hours)
EDUT 3371: Classroom Interactions

Module 4: Preparation, Implementation, and Analysis of Teaching Event 1 (7-9 hours)
Module 5: Teacher-student interactions (4-5 hours)
Module 6: Facilitating student-student interactions (3 hours)
Module 7: Equity in classroom interactions (5-8 hours)
Module 8: Preparation, Implementation, and Analysis of Teaching Event 2 (11-14 hours)
Module 9: Course wrap-up (1 hour)
Module 10: Final Project (5-6 hours)

University Guidelines, Links and Policies

COLLEGE OF EDUCATION AND PSYCHOLOGY (CEP) VISION AND MISSION

Vision: The College of Education and Psychology is nationally recognized and respected for its academic programs and opportunities. It is a center of academic excellence, scholarly inquiry, and public service. The College prepares leaders to meet the critical challenges of the 21st Century through productive contributions to local and global communities and toward individual and cultural equity.

Mission: The mission of the College of Education and Psychology is to provide a positive environment that fosters the acquisition of knowledge and skills. The mission is individually and collectively realized through a community of scholars that contributes to knowledge through scholarly inquiry; organizes knowledge for application, understanding and communication; and provides leadership and service. We affirm and promote global perspectives that value individual and cultural diversity to enhance learning, service, and scholarship.

UT TYLER’S SCHOOL OF EDUCATION STANDARDS FOR EDUCATOR PREPARATION PROGRAMS

Texas Education Standards: The School of Education are committed to teaching and implementing the Texas Educator Standards at the highest level. The School of Education faculty use the Texas Education Standards, along with the Interstate New Teacher Assessment and Support Consortium (InTASC) standards used by educator preparation programs throughout the United States.

The list of Texas Education Standards can be accessed here.
