WELCOME TO THE UNIVERSITY OF TEXAS AT TYLER!

At UT Tyler, you’ll find dedicated faculty, innovative teaching, and a passion for education.

Our faculty is driven to help students succeed academically and professionally. Going above and beyond the expectations of our students is the norm here at UT Tyler, and our faculty is constantly looking for new ways in which they can better serve their students.

The teaching techniques used at UT Tyler are based on cutting edge educational research, utilizing the latest technology and methodologies. From our technology-rich classrooms to our innovative online programs, we find ways to instill knowledge and skills in our students.

Everyone at UT Tyler is passionate about learning, and it shows. Our faculty are life-long learners, engaging in research to advance their academic fields, and encouraging their students to push the boundaries of knowledge.

The University of Texas at Tyler offers a wide range of graduate degree and certificate programs across its seven colleges, all designed with the adult student in mind. Most of our programs offer evening courses for the working professional, and we also offer a number of affordable online graduate degree programs for even greater flexibility.

Throughout this publication, you will see many testimonials from former UT Tyler students. They will tell you, even better than we can, about the positive impact UT Tyler has on the lives of our students.

I hope to be working with you soon!

Dr. Alecia Wolf
Assistant Dean, The Graduate School

- Ingenuity Center
- Institute for Integrated Healthcare
- K-16 Literacy Center
- Leadership Institute
- Lifespan Wellness Research Center
- Memory Assessment Research Center
- Texas Productivity Center
Not only is UT Tyler a beautiful campus, but the professors and students are very welcoming and kind, and it made me feel instantly welcome. I’ve enjoyed being involved on campus and doing things for the university, because I can tell that the university cares about its students and faculty.

I’d have to say my favorite part of my education is the small class size. I am learning a lot and am able to work closely with my professors who I’m fortunate to have as a resource.

DELANE MOEHRING
COMMUNICATION GRADUATE ALUMNA
I saw a lot of pictures of the campus before coming here, but I never imagined it was this beautiful. I also like how the teachers treat the students and how they’re available for student questions and inquiries.

Grants, scholarships, and employment opportunities within the university where I work enabled me to reduce my costs of study in half.

KHALED ELSAYED
ELECTRICAL ENGINEERING GRADUATE ALUMNUS
What I like most about UT Tyler is the support, enthusiasm, and expertise of the faculty members. They are world scholars, outstanding role models, expert facilitators of the online learning process, and are truly committed to positive student outcomes. I believe the mentorship is absolutely extraordinary!

I feel incredibly blessed to have the opportunity to learn from educators and researchers who lead by example, work diligently to make contributions that advance the profession, and epitomize nursing at its best!

TRACY NASH
NURSING PHD ALUMNA
My favorite thing about UT Tyler is that I can get a high-quality, honorable degree at a smaller, local university. I love that UT Tyler is way ahead of the game in academics, but not so big as to eliminate a personal education.

LINDSEY WHITAKER
EDUCATIONAL LEADERSHIP GRADUATE ALUMNA
There is such a **broad range** of individuals from all around which makes it quite refreshing, along with the campus itself. The campus has a very **inviting atmosphere** and has some really great facilities along with its faculty.

**REBECCA DANNER**
MASTER OF FINE ARTS GRADUATE ALUMNA
I was excited about the fact that UT Tyler had students from diverse geographical backgrounds. Aside from the perfectly suitable coursework, scholarships and funding options were also offered. I have had welcoming experiences all throughout. The support and motivation of the faculty of my department is splendid.

ANNU JOSE
COMPUTER SCIENCE GRADUATE ALUMNA
UT Tyler is a local university with a **small community feel**, but has the name and recognition of a large university. It is **quiet** with some beautiful scenery.

I have enjoyed all of the professors I have worked with and they all seem to be **knowledgeable** in their areas. The programs are varied and have prepared me as a student to **succeed** in my future.

**EVERETT THOMPSON**

**INDUSTRIAL MANAGEMENT GRADUATE ALUMNUS**
