THE UNIVERSITY OF TEXAS AT TYLER GRADUATE COUNCIL AGENDA
SEPTEMBER 9, 2022 2:00-4:00

IV. Unfinished Business	<p>A. Follow up discussion on the TRB initiative per Dean Idell TRB – ½ tuition for 10 students in programs with low numbers, moving this forward for reviews and approvals.</p> <p>B. Redefining Graduate full-time status & financial aid impact; tabled until more info from all departments, Ad Hoc committee Chair Mary Fischer. Hold</p> <p>C. Graduate Council representation & what makes up a college unit. Document sent to ad hoc – Chair Torey Nalbone, Erin West, Mary Fischer, Mike Morris, Torry Tucker to be contacted for representation. Hold</p> <p>D. Guidance document to make changing of Grad Council members timely & efficient tabled from January/February. Kouider Mokhtari to meet with Steve Idell & Torey Nalbone Hold</p> <p>E. Academic probation policy; North Campus – tabled Michael Morris Hold</p>	
V. New Business	<p>A. Standardization of scholarship letters and offer forms – Steven Idell</p> <p>B. Change number of grade replacements –Tom Roberts</p> <ol style="list-style-type: none"> 1. Change the number of Grade Replacements from 2 per Graduate Students Academic Career to 2 per Academic Program enrolled in. Currently, a student who uses two grade replacements in a MS Program will not have any for use in their pursuit of an additional graduate degree. 2. Rationale: While our graduate enrollment has been at a pretty steady state, we have increased the number of graduate programs. More students are enrolling in multiple masters programs and we still have the traditional path of masters to doctorate. If a student takes more than one Master Program or moves to a Doctoral Program, the current rules reduce the students margin of error. This is especially true if there are dramatic differences between the programs. For instance, there can be a major difference between the degrees. For example, Engineering and Business, Engineering and Health Science, Biology and Computer Science, or even within a College with Electrical Engineering and Engineering Leadership. Of course, going from a MS level to a PhD level is an automatic drastic change. 3. I think this will help achieve greater student success in our graduate programs.
