

FINA 3311—Principles of Finance

Research Project: Financial Performance in Fortune 500 companies: a comparison between companies with immigrant founders and companies with non-immigrant founders.

Dr. Hsieh has proposed this research study, and the student will gain understanding of this research by conducting literature review, becoming familiar with Business Source Complete Database, reading at least five journal papers, and reviewing the strengths and weaknesses of immigrant founders' companies.

Student will meet with Dr. Hsieh at least three times during the semester to discuss the progress of the research. Student will submit a written report (4-5 pages, double-spaced) at the end of the semester.
