

Transfer information for Kilgore College students pursuing an Industrial Technology Degree from UT Tyler

Earn a bachelor's degree from UT Tyler in Industrial Technology (Applied Engineering) in a convenient and affordable manner. This can be accomplished by completing the courses listed below at Kilgore College and transferring them in to UT Tyler's Industrial Technology Program.

A bachelor's degree in industrial technology (also known as applied engineering) from The University of Texas at Tyler prepares graduates for employment in such positions as production supervisor, procurement manager, safety manager, plant manager, manufacturing engineer, inventory manager, project engineer and industrial engineer. The program also includes an industrial technology BS degree - surveying and mapping track for students who transfer to UT Tyler after completing a surveying and mapping associate's degree at a community college.

- The Industrial Technology Program is offered at both the Tyler and Longview campuses.
- Nearly 100% of graduates find jobs in the industrial technology field immediately following graduation.
- An embedded minor in business administration gives students basic management, accounting, finance and marketing skills.

Graduates of the UT Tyler industrial technology bachelor's program are employed with leading companies in East Texas and across the United States, such as Trane Inc., AAON Inc., Chicago Bridge and Iron, Chevron, Lockheed Martin and Eastman Chemical.
