

**The University of Texas at Tyler
College of Nursing and Health Sciences**

**NURS 3303
Pathophysiology of Acute Care**

Fall 2015

Theresa Steele, MSN, RN

LUC 225

#225

tsteele@uttyler.edu

Tuesday 2:00 pm – 4:45 pm

** The content of this syllabus/WEB site is subject to change at the discretion of the faculty leaders according to current learning needs.

Course Schedule**Pathophysiology NURS 3303****Fall 2015**

Longview Schedule

***All quizzes open at 5:00 PM after class and close at 5:00 PM the day before class.**

Week #	Tuesday Class day	Module/Title	Chapters	Weekly Quizzes
1	08/25	Module 1: Course Orientation, Cellular Biology and Changes, Fluid/Electrolytes & Acid-Base	1 & 2	Quiz 1 Opens 8/25, closes 8/31
2	09/01	Module 2: Inflammation, Healing & Infection	5 & 6	Quiz 2 Opens 9/01, closes 9/07
3	09/08	EXAM 1 Module 3: Genetic Disorders	21	
4	09/15	Module 4: Immune and Abnormal Responses	7	Quiz 3 Opens 9/15, closes 9/21
5	09/22	Module 5: Neoplasms, Blood and Lymph Disorders	20,10 & 11	Quiz 4 Opens 9/22, closes 9/28
6	09/29	EXAM 2 Module 6: Renal/ Urinary Disorders	18	
7	10/06	Module 7: Cardiovascular Disorders (flow and pump disorders)	12	Quiz 5 Opens 10/06, closes 10/12
8	10/13	Module 8: Cardiovascular Disorders (pump and shock)	12	Quiz 6 Opens 10/13, closes 10/19
9	10/20	Module 9: Reproductive, Skin Disorders (includes burns)	19, 8 & 5	Quiz 7 Opens 10/20, closes 10/26
	10/26	Last day to withdraw with a "W"		
10	10/27	EXAM 3 Module 10: Musculoskeletal Disorders	14	

11	11/03	Module 11 Acute Neurological Disorders Module 12: Chronic Neurologic Disorders	14, 4 & 13	Quiz 8 11/03, closes 11/09
12	11/10	Module 13: Respiratory Disorders	13, 9	Quiz 9 Opens 11/10, closes 11/16
13	11/17	EXAM 4 Module 14: Endocrine Disorders	16	
	11/23-11/28	HAPPY THANKSGIVING!		
14	12/01	Module 15: Gastrointestinal and Accessory Organ Function	17	Quiz 10 Opens 12/01, closes 12/07
15	12/08	FINAL EXAM		Monday, December 7

Important Dates:**October 26 – LAST Day to withdraw from class with a “W” on your transcript****November 23 – 28 – Thanksgiving Holidays****Commencement – December 11****Exam Content:**

Exam 1 – Cell biology, cellular changes, fluid and electrolytes, acid –base, inflammation, healing and infection

Exam 2 – Immune disorders, genetics, neoplasms, blood and lymph

Exam 3 – Renal, cardiovascular, reproductive and skin

Exam 4 – Acute and chronic neurological disorders, pain, respiratory, musculoskeletal

Final Exam –25% endocrine and gastrointestinal, 75% comprehensive**COURSE TITLE**

NURS 3303: Pathophysiology of Acute Care

SEMESTER CREDIT HOURS

Three (3) hours didactic

PREREQUISITES

Successful completion of Anatomy and Physiology 1 & 2, Microbiology, and Chemistry is required. These courses must be taken ≥ 1 semester prior to admission to the College of Nursing program. They may be taken concurrently with NURS 3205: Nursing Concepts and Theories.

COURSE DESCRIPTION

This course focuses on the etiology, symptomatology and pathology of selected human diseases across the lifespan. Concepts of health promotion, disease prevention, disease progression, and treatment are approached from a cellular and multi-system perspective. Influences of genetic, ethnic, and cultural variables on human diseases is analyzed. Content aims at stimulating critical thinking.

COURSE OBJECTIVES

Upon successful completion of the course, students will have demonstrated the ability to:

1. Integrate knowledge from the biological sciences into the study of the pathophysiology of human diseases.
2. Compare the pathologic origins of selected disease processes at the cellular and systemic levels.
3. Correlate the effects of internal and external environmental risk factors with disease development and progression.
4. Discuss the influence of genetic, ethnic and cultural factors on health promotion and disease prevention, progression and treatment.
5. Explain the effects of compensatory body mechanisms in response to major alterations in physiology.
6. Relate diagnostic test findings to both objective and subjective disease symptoms.
7. Employ select nursing and biomedical research studies in the application of pathophysiologic principles to nursing practice.
9. Discuss the impact of the current body of knowledge in pathophysiology on evidence-based nursing practice

REQUIRED MATERIAL/TEXTS

SYLLABUS: NURS 3303: Pathophysiology of Acute Care; Fall 2015—located in Blackboard under Course Materials

TEXTBOOK:

VanMeter, K. and Hubert, R. R. (2014) Gould's Pathophysiology for the Health Professions (5th ed.). Elsevier Saunders. ISBN 9781455754113.

CLASS PREPARATION/BLACKBOARD INFORMATION

--All lecture outlines with supplementary material are found under the Lecture Outlines button in Blackboard. Bring lecture notes and any supplemental material to class and be prepared for discussion. Be aware that, as one topic is completed, discussion on the next topic will begin.

--Read assigned chapters BEFORE lecture to be prepared to understand the information presented during lecture.

Weekly Module content, including Quizzes, Assignments and Exam Blueprints, is found under Course Materials.

American Disabilities Act Statement: UT TYLER COUNSELING CENTER

"If you have a disability, including a learning disability, for which you request an accommodation, please contact the Disability Support Services Office so that appropriate arrangements can be made. In accordance with federal law, a student requesting accommodation must provide documentation of his/her disability to the Disability Support Services counselor."

University Policies

Students Rights and Responsibilities

To know and understand the policies that affect your rights and responsibilities as a student at UT Tyler, please follow this link: <http://www.uttyler.edu/wellness/rightsresponsibilities.php>

Grade Replacement/Forgiveness and Census Date Policies

Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. Grade Replacement Contracts are available in the Enrollment Services Center or at <http://www.uttyler.edu/registrar>. Each semester's Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date is the deadline for many forms and enrollment actions that students need to be aware of. These include:

- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a "W" grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

State-Mandated Course Drop Policy

Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date).

Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

Disability Services

In accordance with Section 504 of the Rehabilitation Act, Americans with Disabilities Act (ADA) and the ADA Amendments Act (ADAAA) the University offers accommodations to students with learning, physical and/or psychiatric disabilities. If you have a disability, including non-visible disabilities such as chronic diseases, learning disabilities, head injury, PTSD or ADHD, or you have a history of modifications or accommodations in a previous educational environment you are encouraged to contact the Student Accessibility and Resources office and schedule an interview with the Accessibility Case Manager/ADA Coordinator, Cynthia Lowery Staples. If you are unsure if the above criteria applies to you, but have questions or concerns please contact the SAR office. For more information or to set up an appointment please visit the SAR office located in the University Center, Room 3150 or call 903.566.7079. You may also send an email to cstaples@uttyler.edu

Student Absence due to Religious Observance

Students who anticipate being absent from class due to a religious observance are requested to inform the instructor of such absences by the second class meeting of the semester.

Student Absence for University-Sponsored Events and Activities

If you intend to be absent for a university-sponsored event or activity, you (or the event sponsor) must notify the instructor at least two weeks prior to the date of the planned absence. At that time the instructor will set a date and time when make-up assignments will be completed.

Social Security and FERPA Statement:

It is the policy of The University of Texas at Tyler to protect the confidential nature of social security numbers. The University has changed its computer programming so that all students have an identification number. The electronic transmission of grades (e.g., via e-mail) risks violation of the Family Educational Rights and Privacy Act; grades will not be transmitted electronically.

Emergency Exits and Evacuation:

Everyone is required to exit the building when a fire alarm goes off. Follow your instructor's directions regarding the appropriate exit. If you require assistance during an evacuation, inform your instructor in the first week of class. Do not re-enter the building unless given permission by University Police, Fire department, or Fire Prevention Services.

Revised 10/2013

Student Affirmation, Social Media Policy—Documentation of Compliance

All students are required to read and sign the Student Affirmation, Audio-Video Recording Agreement, and Social Media Policy statement found in the NURS 3303 Blackboard site. Failure to submit signed forms will result in an "Incomplete" grade for the course.

GRADING POLICIES

1. The simple average of the exam grades, before weighted calculation is performed, must be 75% or above to pass the course. Grades will not be rounded when calculating the average (74.5 -74.9 is not rounded to 75). Students with an exam average of 75 or higher will have course grades calculated based on the weighted calculation of the exams and other required course work.
2. Completion of NURS 3303 is based on satisfactory attainment of meeting the course objectives. Any student failing to meet the course objectives and expectations must repeat the course.
3. Students with an exam grade average of 75% or higher will have the course grade calculated based on the weighted values of all graded work. Students who do not attain an exam grade average of 75% will not get credit for other graded works, and grade will be assigned based on the simple average of the exams. The weighted values of course work are:

<u>EXAMS</u>	
4 unit exams—17% each	68%
Final Exam	17%
<u>OTHER GRADED WORK</u>	
Online Quizzes	10%
Class Participation Assignment	<u>5%</u>
	100%

4. Grades will be assigned according to the following scale:

A	90 -100
B	80-89
C	75-79
D	60-74
F	< 60

(Approved Faculty Organization: Fall 1999, implemented Spring 2000)

5. On-line quizzes will be posted on Blackboard as indicated in the syllabus schedule. Each quiz will be worth 10 points. **Each quiz will be available beginning at 5:00 PM on Tuesday after class until the following Monday at 5:00 PM.** Failure to complete the quiz within this time frame will result in 0 points for that quiz. It is recommended that the student take the quizzes on campus computers or a laptop to avoid technical difficulties. UTT IT department recommends using the Firefox browser. Class notes and textbook may be used for the on-line quizzes. Quiz grades will be calculated into the course final grade only after a simple average of 75% is attained on the classroom exams.
6. Individual class participation assignments will be posted on the Discussion Board in Blackboard. Assignments are due at the beginning of the class date in which that subject will be presented. Late participation assignments will not be accepted. Participation grades will be calculated into the course final grade only after a simple average of 75% is attained on the classroom exams.

EXAMINATION AND EXAMINATION REVIEW POLICY

1. Attendance for exams is **mandatory**.
2. If absence for an exam is necessary, the student is responsible for notifying the faculty **prior** to the exam with an acceptable reason.
3. No students will be allowed entry into the classroom after the exam has started unless prior notification and arrangements have been made with the faculty.
4. Exams will start promptly at the time they are scheduled.
5. All hats/caps must be removed during exam time. All personal items such as purses, books, backpacks, notebooks and briefcases will be left in the front or back of the room during testing.
6. Silence will be enforced in the classroom before and during testing. No one will be permitted to leave the room during their testing time.
7. Make-up exams will only be given at the discretion of the faculty member and may be in a different format than the original exam. Pre-specified dates will be reserved for all make-up exams.

Failure to notify the course faculty of the need to take the exam on an alternate date prior to the time that the exam begins will result in a grade of 0 for that particular exam. Tests must be scheduled with faculty on the specific campus. Makeup exams will be given only on three designated Fridays on the Longview campus.

Longview Testing Policy

Test integrity is a very important part of the nursing program to assess student knowledge, retention and preparation for the NCLEX and practice. Excessive student absences on test days threaten test integrity. The following process for course examinations will be followed within each nursing course on the Longview Campus:

1. Students who miss two or more exams will be required to provide a written statement from their physician. (Students with significant extenuating circumstances are encouraged to communicate with the course faculty member at least 24 business hours before the exam.)
2. There will be three make-up exam days on the Longview Campus to be scheduled on Fridays in the Fall 2015 semester:
Friday, September 25; Friday, October 23; Friday, December 04
3. Students are responsible for monitoring and acknowledging email from faculty regarding makeup date, time and location details. (I didn't see the email is not an excuse.)
4. If a student does not show up for a make-up exam on the designated date and time, the student will receive a zero on the exam.

7. No reviews of specific exam items will be conducted during class. An individual exam review may be scheduled with the faculty during office hours and within 10 school days from the return of grades. After this time exams are shredded and no longer available.
8. Any student **scoring below 75 on any exam** must schedule a coaching appointment with the faculty member on that campus **within 1 week after grades are posted**.

EXPECTATIONS OF STUDENTS IN NURS 3303

1. Understanding of anatomy and physiology is presumed. If a student requires review of basic anatomy and physiology, independent reading is expected. Study guides will focus on terms and anatomy and physiology of the system under study.
2. Students are expected to have read assigned materials prior to class time and prepared for interactive discussion based on the learning objectives.
3. Participation in classroom learning activities will focus on application of concepts presented in the required reading.
4. Students are responsible for all course assignments and content, including announcements posted in Blackboard.
5. Lecture outlines will be posted on Blackboard under "Course Materials" a minimum of two (2) working days prior to class. The majority of the outlines will be available at the beginning of the semester; print these materials at the semester's onset and keep in a notebook for class.
6. All submitted written material (papers, assignments, examinations, etc.) are the property of the College of Nursing. They will be maintained in an archived file at the College of Nursing for 1 term after the course grade is assigned.

ACADEMIC INTEGRITY

1. Students are expected to assume full responsibility for the content and integrity of all academic work submitted as homework and examinations.
2. Students are advised to review the UT Tyler Academic Dishonesty Policy and Academic Integrity Policy in the current College of Nursing Student Handbook and Academic Integrity Policy for UT Tyler students in the Student Guide. These policies are fully endorsed and enforced by the faculty members within the College of Nursing.
3. Plagiarism, cheating and collusion are unacceptable, and, if found violating any of these standards, the student will be disciplined accordingly.
4. The College of Nursing reserves the right to dismiss students from the program for any infraction of a legal, moral, social, or safety nature, pursuant to the procedures detailed in the *Regent's Rules*.

Student Dress Code for the University of Texas, College of Nursing:

General: It is the philosophy of the College of Nursing that the student has a responsibility to be neatly groomed and modestly dressed. Appearances should promote good health, safety and general well-being of the student. Clothing should avoid brevity and/or design that are offensive to the dignity and rights of others. School officials have the right and responsibility to counsel with the student or take any other corrective action. Types of clothing (other than those specified in this document) may be worn at the direction of the nursing instructor for special events.

Classroom: Casual or everyday business wear is recommended. This includes but is not limited to the following: Slacks or skirt; sweater, blouse, and shirt. Jeans as well as conservative shorts (mid-thigh or longer) may be worn, but avoid overly frayed or soiled. Shoes must be worn. See items to be avoided below.

Professional Presentations, Ceremonies/Graduation: Business or dressy day social: suit, dress, dressy separates, jacket, ties, nice fabrics. Dress shoes. No denim, jeans, t-shirt or other casual clothes. For workshops/seminars attended by students, business attire will be worn.

Items to be avoided in all School-related Functions (including but not limited to): Overly frayed, worn or soiled garments. Costume look, transparent blouses, bare midriff shirts, tank tops, spaghetti straps, muscle shirts, overtly sexual, gang colors or logos, facial or body piercing, obscene slogans or pictures, bedroom wear, short-shorts, short skirts, or clothing that may be offensive to others.

If the dress code rules are broken and a change of clothes is not available, the student may be removed from the school-related function for the remainder of the day. **Appropriate disciplinary action will be taken for repeated violations of this code.**

Cell Biology Review

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe the cellular components and the functions of each. 2. Discuss the functions of the cell membrane. 3. Explain how cells communicate. 4. Explain how tissues are formed. 5. Identify types of tissue and state examples of each. 	<ol style="list-style-type: none"> 1. Cell function <ol style="list-style-type: none"> a. all cells b. specialized 2. Cell Components <ol style="list-style-type: none"> a. structures b. functions 3. Cell Membrane <ol style="list-style-type: none"> a. control b. communication c. conductivity 4. Tissues and Organs <ol style="list-style-type: none"> a. epithelial b. connective c. muscular d. nerve 	<p>READ: Gould, Chapter 1</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 1 Exam 1</p>

Cellular Adaptation

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe common cellular adaptations and possible reasons for the occurrence of each. 2. Identify precancerous cellular changes. 3. List the common causes of cell damage 4. Describe the common types of cell necrosis and possible outcomes 5. Differentiate between apoptosis and necrosis. 	<ol style="list-style-type: none"> 1. Cell Adaptation <ol style="list-style-type: none"> a. healthy b. pathologic 2. Cell Damage Mechanisms <ol style="list-style-type: none"> a. hypoxia b. free radicals c. physical injury 3. Necrosis <ol style="list-style-type: none"> a. liquification b. coagulative c. caseous d. infarction e. gangrene 4. Apoptosis and aging 	<p>READ: Gould, Chapter 1</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 1 Exam 1</p>

Fluid, Electrolyte and Acid Base Balance

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Explain the movement of water between body compartments. 2. Describe the mechanism of edema. 3. Discuss the causes and effects of dehydration 4. Compare and contrast the causes, signs and symptoms of hyponatremia and hypernatremia. 5. Compare and contrast the causes, signs and symptoms of hypokalemia and hyperkalemia. 6. Compare and contrast the causes, signs and symptoms of hypocalcemia and hypercalcemia. 7. Describe the relationship of phosphorus to calcium. 8. Describe the compensatory mechanism of acid-base homeostasis. 9. Explain the effects of the primary types of alterations of acid-base balance on body function. 	<ol style="list-style-type: none"> 1. Body Water <ol style="list-style-type: none"> a. compartments b. movement <ol style="list-style-type: none"> 1. mechanisms 2. controls c. Edema <ol style="list-style-type: none"> 1. mechanism 2. consequences d. Dehydration <ol style="list-style-type: none"> 1. mechanism 2. consequences 2. Electrolytes <ol style="list-style-type: none"> a. Sodium <ol style="list-style-type: none"> 1. function 2. hyponatremia 3. hypernatremia b. Potassium <ol style="list-style-type: none"> 1. function 2. hypokalemia 3. hyperkalemia c. Calcium <ol style="list-style-type: none"> 1. function 2. hypocalcemia 3. hypercalcemia d. Phosphorus <ol style="list-style-type: none"> 1. function 2. relationship with calcium 3. Acid- Base Balance <ol style="list-style-type: none"> a. compensatory mechanisms b. acidosis <ol style="list-style-type: none"> 1. respiratory 2. metabolic c. alkalosis <ol style="list-style-type: none"> 1. respiratory 2. metabolic d. compensation 	<p>READ: Gould, Chapter 2</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 1 Exam 1</p>

Inflammation, Healing and Infection

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Explain the role of normal defenses in preventing disease. 2. Describe the chemical and cellular responses to injury. 3. Discuss normal capillary exchange and this exchange during the inflammatory response. 4. Describe the local and systemic effects of inflammation. 5. Describe the types of healing and complications of each. 	<ol style="list-style-type: none"> 1. Normal Defenses 2. Inflammatory Process <ol style="list-style-type: none"> a. Chemical mediators b. Cellular responses c. Capillary responses d. Signs and Symptoms <ol style="list-style-type: none"> 1. local 2. systemic 3. Healing <ol style="list-style-type: none"> a. Types b. Process c. Scar tissue <ol style="list-style-type: none"> 1. function 2. complications 4. Infection <p>Concept Map – Inflammation In-class exercise</p>	<p>READ: Gould, Chapter 5, 6</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 2 Exam 1</p>

Congenital and Genetic Disorders

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe the interrelationships of DNA, RNA and proteins. 2. Discuss prediction of inheritance. 3. Describe and cite examples of chromosomal disorders. 4. Describe and cite examples of single-gene disorders. 5. Discuss the Human Genome Project and possible impacts on health care. 	<ol style="list-style-type: none"> 1) Genetic Building Blocks <ol style="list-style-type: none"> a) DNA b) Chromosomes c) Genes 2) Principles of predication <ol style="list-style-type: none"> a) Autosomal dominant b) Autosomal recessive c) X- linked 3) Chromosomal abnormality <ol style="list-style-type: none"> a) Downs syndrome 4) Gene abnormality <ol style="list-style-type: none"> a) Duchenne's Muscular Dystrophy 5) Human Genome Project 	<p>READ: Gould, Chapter 21</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 3 Exam 2</p>

Neoplasms

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Define “cancer” in terms of abnormal tissue growth, cell types of origin and benign vs. malignant tumor properties. 2. Explain the methods of staging and grading tumors. 3. Identify viral, bacterial and environmental risk factors for cancer. 4. Review the clinical manifestations of cancer. 	<ol style="list-style-type: none"> 1) Cancer characteristics <ol style="list-style-type: none"> a) Cell abnormalities b) Tumor properties <ol style="list-style-type: none"> i) Benign ii) Metastatic 2) Categorizing Cancers <ol style="list-style-type: none"> a) staging b) grading c) prognosis 3) Risk Factors <ol style="list-style-type: none"> a) Viral b) Bacterial c) Environmental 4) Clinical Manifestations 	<p>READ: Gould, Chapter 20</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 4 Exam 2</p>

Immune and Abnormal Responses

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe the normal immune response. 2. Differentiate between cell mediated and humoral responses. 3. Explain the methods of acquiring immunity. 4. Describe the mechanisms of the four types of hypersensitivity 5. Reactions and give examples of each. 6. Discuss the mechanism of autoimmune disorders. 7. Explain the causes and effects of immunodeficiency. 8. Describe the course, effect and complications of HIV –AIDS. 	<ol style="list-style-type: none"> 1. Immune Response <ol style="list-style-type: none"> a. Cell mediated b. Humoral 2. Immunity <ol style="list-style-type: none"> a. Acquisition b. Types <ol style="list-style-type: none"> 1. I – hay fever 2. II – Blood incompatibility 3. III – Autoimmune Disorders 4. IV – transplant rejection 3. Immunodeficiency <ol style="list-style-type: none"> a. Causes b. Effects c. HIV- AIDS <ol style="list-style-type: none"> 1. course 2. effects 3. complications 	<p>READ: Gould, Chapter 7</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 3 Exam 2</p>

Blood and Lymphatic Disorders

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Define anemia and describe the manifestations of anemia and the pathophysiology that generates them. 2. Compare and contrast the pathophysiology underlying iron deficiency, pernicious, and folate deficiency anemias. 3. Differentiate the leukemias by manifestations, treatment options, and prognosis. 4. Identify the causes of thrombocytopenia and its signs and symptoms related to its pathophysiology. 5. Discuss the conditions that predispose and individual to the development of thrombi. 	<ol style="list-style-type: none"> 1) Blood Characteristics <ol style="list-style-type: none"> a) Red blood cells b) White blood cells c) Platelets d) plasma 2) Problems of red blood cells <ol style="list-style-type: none"> a) Iron deficiency anemia b) Pernicious anemia c) Sickle Cell anemia 3) Problems of white blood cells <ol style="list-style-type: none"> a) leukemia 4) Problems with platelets <ol style="list-style-type: none"> a) Thrombocytopenia 	<p>READ: Gould, Chapter 10, 11</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz - 4 Exam 2</p>

Renal/Urinary Disorders

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe the pathophysiology, symptoms and treatments for urinary tract obstructions. 2. Review causes, types and treatments of urinary tract infections. 3. Discuss types and causes of nephritis 4. Explain the pathophysiology, causes, symptoms and treatment for acute and chronic renal failure. 5. Discuss the role of the kidney in red blood cell production and control of blood pressure. 	<ol style="list-style-type: none"> 1) Inflammatory Problems <ol style="list-style-type: none"> a) Kidney <ol style="list-style-type: none"> i) nephritis b) bladder <ol style="list-style-type: none"> i) UTI 2) Blockage of system <ol style="list-style-type: none"> a) calculi b) Benign Prostatic Hypertrophy c) Prostatic cancer 3) Failure <ol style="list-style-type: none"> a) bacterial b) viral 4) Other functions <ol style="list-style-type: none"> a) hematopoiesis b) blood pressure 	<p>READ: Gould, Chapter 18</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz – 5 Exam 3</p>

Cardiovascular Disorders

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Describe the principles that govern blood flow and pump function. 2. Discuss the factors influencing the systemic blood pressure and blood flow. 3. Identify the risk factors for atherosclerosis and discuss the progression of atherosclerotic heart disease from risk factor identification through the complications of acute myocardial infarction. 4. Discuss the physiologic effects of hypertension. 5. Describe venous flow disturbances and potential complications. 6. Discuss the factors that determine effective heart pumping functions, including dysrhythmias and structural defects. 7. Compare left and right heart failure, including causation, manifestations, treatment, and complications. 8. Identify and describe the pathophysiologic effects of shock. 	<ol style="list-style-type: none"> 1) Alterations of flow <ol style="list-style-type: none"> a) Principles b) Atherosclerosis c) Ischemia vs. infarction d) Aneurysm e) Hypertension f) Venous flow <ol style="list-style-type: none"> i) Varicose Veins ii) Deep Vein Thrombosis 2) Alterations in Pump <ol style="list-style-type: none"> a) principles b) impulse conduction c) structural defects <ol style="list-style-type: none"> i) valves ii) congenital defects d) pump failure <ol style="list-style-type: none"> i) left sided ii) right sided e) cardiomyopathy f) restriction 3) Shock <ol style="list-style-type: none"> a) processes b) origins <ol style="list-style-type: none"> i) cardiogenic ii) hypovolemic iii) neurogenic iv) septic 	<p>READ: Gould, Chapter 12</p> <p>ASSIGNMENTS: See Class Schedule</p> <p>EVALUATION: Online quiz -5 - flow Online quiz 6 – pump & shock Exam 3</p>

Reproductive Disorders

Unit Objectives	Outline	Preparation and Evaluation
<ol style="list-style-type: none"> 1. Explain the function of the female and male reproductive systems. 2. Discuss the causes and effects of pelvic inflammatory disease and endometriosis. 3. Compare and contrast the primary cancers of women: ovarian, cervical and breast. 4. Review the differences between benign prostatic hypertrophy and prostate cancer as it relates to male reproductive function. 5. Student Affirmation Form

_____ I agree to protect the privacy of faculty, peers, patients, and family members of patients by not inappropriately disclosing confidential information about faculty, peers, patients or their family members that is disclosed to me in my capacity as a University of Texas at Tyler nursing student. In addition, I agree not to inappropriately disclose confidential information about any agency or institution that is disclosed to me in my capacity as a University of Texas at Tyler nursing student. I will adhere to HIPAA guidelines.

_____ I have/will read the syllabus of this nursing course I am taking this semester, and I understand the criteria established for grading my course work. I understand that my average on exams must be 75 or higher in order to attain a passing grade for the course.

_____ I agree that I will conduct myself in a manner that exhibits professional values and in accordance with the American Nurses Association (ANA) Code of Ethics for Nurses, the Texas Nurse Practice Act and UTT's Student Academic Dishonesty Policy.

_____ I will maintain and uphold the academic integrity policy of the College of Nursing and will not condone or participate in any activities of academic dishonesty including, but not limited to, plagiarism, cheating, stealing, or copying another's assigned work.

_____ I will not recreate any items or portions of any exam for my own use, or for use by others during my enrollment in the College of Nursing

_____ I will not accept or access any unauthorized information related to any exam administered during my enrollment in the College of Nursing.

_____ I will sign only my own papers and other documents and will not sign any other student's name to anything, including class rolls.

_____ I will not allow any other student access to any of my paperwork for the purpose of copying.

Social Networking Policy

Online social networking mediums, such as Facebook® and MySpace®, etc. may be effective modalities for students to connect in positive ways. However, students must be aware of, and, sensitive to, the information and pictures they post (of themselves and others).

The **purpose** of this policy is to outline the privacy and confidentiality issues related to students' postings to ensure safeguarding of The University of Texas at Tyler (U.T. Tyler), College of Nursing's identity, integrity and overall reputation, in an effort to prevent violations of confidentiality and privacy.

Social Networking (definition) – Any activity that involves interaction with other individuals/users in an online environment, *i.e.*, Facebook®, Twitter®, MySpace®, Flickr®, Friendstar®, Classmates.com®, LinkedIn®, Xanga®, Bebo®, etc.

(http://en.wikipedia.org/wiki/List_of_social_networking_websites). In addition, the use of other electronic devices to record pictures, images, and other information or data that may be stored, reviewed, or shared with others either immediately or at a future date are considered social networking.

For purposes of this policy, this interaction includes, but is not limited to, browsing other users' profiles/personalized web pages, browsing other users' photos, reading messages sent through social networking forums, and engaging in online messaging services, such as instant messaging or email that is in any way related to U.T. Tyler or the College of Nursing or activities conducted while in attendance at the University. The following provides guidance as to what type of behavior is inappropriate relative to online social networking. These guidelines are not all inclusive; rather, they are intended to be used as a foundation for sound decision making.

Students are encouraged to refer to the following which was prepared by the National Council of State Boards of Nursing (NCSBN): *Professional Boundaries: A Nurse's Guide to the Importance of Professional Boundaries*, located at:

https://www.ncsbn.org/Professional_Boundaries_2007_Web.pdf

Confidentiality and Privacy

Violations of confidentiality include but are not limited to:

1. Photocopying patient documents, removing patient documents from the clinical site, and postings of patient information on Internet social networking sites (Facebook®, MySpace®, Twitter®, YouTube®, etc.) as well as online blogs and journals.
2. Contacting patients/patients' family members through a social networking system.
3. Photographing in any clinical setting. Taking and/or posting any picture taken within a clinical facility without written permission of the facility or patient (even if the patient's identity is not disclosed) is a breach of the *Health Insurance Portability and Accountability Act* (HIPPA).
4. Discussing/posting any patient information related to the clinical facility one is assigned on Internet social networking sites or in a public place.
5. Social networking, texting, email, and other recreational computer use is prohibited during class or clinical time.
6. Using U.T. Tyler, College of Nursing's name, logo, or other information in one's personal social networking profile. Pictures of oneself should not be posted wearing U.T. Tyler nursing attire. Social networking mediums, blogs, Twitter® and Internet/electronic mail, all are considered public domain.

Failure to comply with the above guidelines will result in disciplinary action which can include dismissal from the program. Any student found in violation of the above mentioned policies and/or any policies related to conduct unbecoming a University of Texas at Tyler student, is subject to procedural disciplinary action as outlined in the U.T. Tyler Manual of Policies and Procedures for Student Affairs: Specifically Sec 8-801 and 8-804:

AUDIO/VIDEO-RECORDING AGREEMENT

I have been given permission to audio record the following class, **NURS 3303**.

I understand that, the recordings are for **my personal studies only**. I realize that lectures recorded **may not be shared** with other people without the written consent of the faculty member. I also understand that recorded lectures may not be used in any way against the faculty member, other lecturer, or students whose classroom comments are recorded as part of the class activity.

I am aware that the information contained in the recorded lectures is protected under federal copyright laws and may not be published or quoted without the expressed consent of the lecturer and without giving proper identity and credit to the lecturer. I agree to abide by these guidelines with regard to any lectures I record while enrolled as a student at The University of Texas at Tyler.

Due to the confidential nature of some course content, I agree to provide written documentation of the erasure of any recordings made during the current semester. Failure to return this written documentation to the faculty by the date of the final examination will result in a grade of "I" (Incomplete).
