

7.3 Clinical Sites

(Reviewed 9/5/2017)

Clinical facilities:

The nursing program utilizes numerous clinical facilities in the East Texas and surrounding geographic area. Students can expect to be placed in a variety of facilities during their enrollment in the program. Students are to speak with their clinical faculty member to request clinical sites not already approved by the SON. Students are not to be the initiator of any clinical contracts. Only faculty can initiate this process.

Transportation:

Students are responsible for their own transportation to clinical sites. Students are not to transport patients in their own vehicles. This protects both the student and the patient. When a patient is in need of transportation for health purposes, there are volunteers and agencies that provide this service. The faculty may be contacted for further information.
