

## **7.6 Blood Borne Pathogen**

(Updated 8.27.2018)

All students utilizing the School of Nursing Skills Labs are required to complete bloodborne pathogen (BBP) training offered by the UT Tyler Environmental Health & Safety (EH & S) Department.

Each semester the names of students enrolled in courses utilizing the skills labs will be submitted to EH & S, who will monitor compliance with the training.

UT Tyler exposure control plan for BBP is located at: <https://www.uttyler.edu/safety/files/exposure-control-plan.pdf>
